Message from the Chairman

In 2018, we have built upon the improvements of the preceding years. Not only have we focused on enhancing performance in the production and financial areas, but we have also worked on Corporate Governance and Risk Management. The Company is aware that Corporate Governance is one of the internationally recognized tools for enhancing efficiency and credibility.

Furthermore, in line with the policy of the Thai Private Sector Collective Action Coalition Against Corruption (CAC), as expressed on 17 April 2017, the Company has openly declared its anti-corruption stance, including

adherence to a strict code of ethical business conduct, as well as establishing an internal anti-corruption control system.

In this connection, the Company has incorporated the Thai Institute of Directors Association's No Gift Policy during the New Year festival. Going forward, the Company intends to supervise the business by adhering to the principles of good corporate governance, while supporting the long-term efficiency of management and operations, as well as their transparency and accountability to shareholders. As a result of these robust measures, the company has been a certified member of the CAC since 5 November 2018.

On behalf of the Board of Directors, I would like to express my sincere appreciation to all shareholders, customers, trade partners, employees and the Royal Thai Government for their support of our endeavors in the past year. I look forward to your continued and valuable support in taking the company to new heights in the coming year.

Chainarong Monthienvichienchai
Chairman of the Board of Directors

Message from Chief Executive Officer

The global steel industry started on a positive note during the year 2018. However, it could not be sustained throughout the year and prices declined in second half. Steel industry in Thailand as well faced challenges arising out of high metallic cost and lower sales realization. Global Crude Steel production during the year 2018 stood at 1,809 million ton (mt), an increase of 4.6% compared to 2017. In Thailand, Finished steel production at 7.11 mt grew by 3.4% and consumption at 17.44 mt also recorded a growth of 4.8% in 2018. Import of 12 mt into Thailand was higher by 6% over previous year. Overall consumption of Flat products in 2018 was estimated at 11.68 mt, a growth of 6.1%. HR Coils/Sheets consumption in all categories is estimated at 6.85 mt, showing a growth of 6.6%.

G J Steel in 2018, sold and produced over 0.8 million ton of HR Coils in 2018, highest in recent years with an export of 32,000 t, highest in recent times. Monthly sales touched 90,000t in Aug'18 which enabled us to serve domestic customers better. Commencement of exports of HR Coils to Malaysia with SIRIM certification has been strategic initiative for the company to re-establish its quality products globally.

Company gave major thrust on improving the health of the equipment by clearing backlogs in maintenance in 2018 and operated the facilities both in off peak and partial peak period. Expenditure in maintenance was stepped up by about 50% over last year, reinforcing our commitment to ensure reliable operations. Capex schemes taken up to improve the cost efficiency, technological obsolesces, improvement in quality, product development, etc. and are at various stages of implementation. Efforts towards energy conservation; achieved lowest ever oxygen consumption at 36.89 nm³/t since inception, Natural gas consumption reduced to 1.05 nm³/t, lowest in past 10 years. Customer satisfaction also improved over previous year.

We are optimistic and remain committed to GJ growth story. We believe that growth potential remains intact, supported by a robust recovery plan in place. This include – amongst other strategy – taking up further new capex schemes with enhanced maintenance, development of value added steel – high tensile steel including for gas cylinder, CR grades, higher volume of thinner gauge, better management of supply chain and sources of financing and several others. We are confident to meet the expectations of all the stakeholders.

I would like to express my sincere thanks to our all esteemed stakeholders, GJ collective, customers, suppliers and the Royal Thai Government for their kind support and look forward to our shared successes ahead

With warm regards,

AP Choudhary
Chief Executive Officer

Reporting of Chief of Corporate Social Responsibility

Policy and Business Overview

Vision Mission Business Objectives

Vision

“Being the leading company in Thailand and the ASEAN region as a manufacturer of hot-rolled coils with high quality and efficient manufacturing processes”

Mission

- Towards the global market with a wide range of steel products
- Aim for growth by expanding its production capacity and costs reduction
- Improve and develop products to meet the needs of customers
- Continuous development of human resources
- Environmental conservation and return to society
- Enhance value for stakeholders
- Anti-Corruption and Corruption

Business Objectives:

2018 has been a better year for the world steel Industry in terms of production growth, though the growth rate was lower than the previous year. In terms of steel prices, world market decreased compared to the year 2017, especially during the later part of the year. For EAF route steel producers, the higher metallic cost in 2018 also led to an intense competition. World steel production grew by 4.6 % at 1,809 million tons, led by China at 928 million tons representing 51% in world steel production. Global steel market was showed a demand pick-up, whilst manufacturers benefited from higher steel price in the first few months of the year but got affected severely in later part of the year. Thailand also showed an increase of 4.79% in steel consumption during 2018; Long Products consumption increased by 2.1% and Flat products by 6.1%. Issues with surplus capacity and excess supply through imports in the industry persist. Major producers in China, Japan, Korea, Taiwan, Australia, and Egypt continue to export steel to Thailand resulting in intensifying competition in the steel industry in Thailand in 2018.

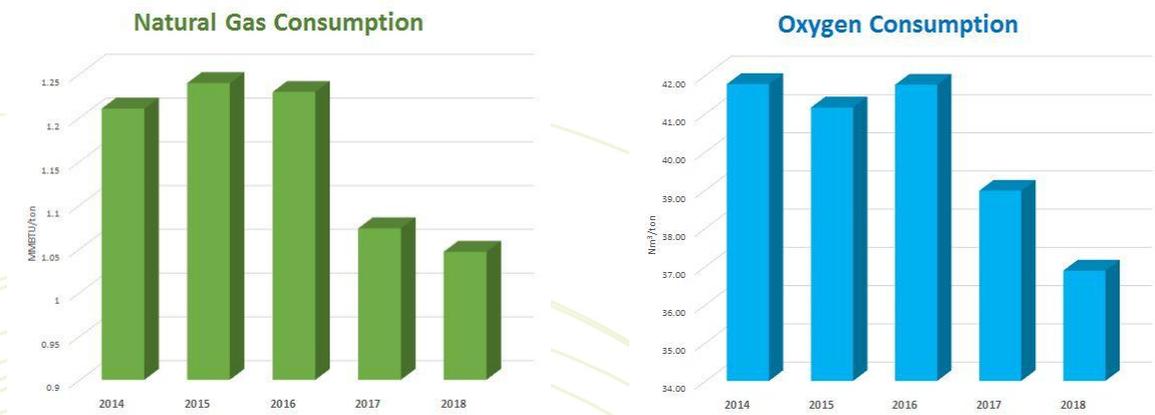

The steel demand in Thailand is forecast to increase to 18.7 – 19.0 million tons, a growth of 8% based on Government spending on various infrastructure projects including railway project during the year. It is expected that in 2018, Thailand steel industry will get support from construction industry (account for 55 to 60% steel demand) especially investing on economic area of Thailand, totally logistic system and investment on target industry.

The Company has plans to further improve the quality and add new grades in production as business objective to support customer’s need. The Company has established good business relationship with the global steel producers for exchange technical knowledge for improvement to reduce the cost of production and increase quality.

Key Event in 2018

Parallel on restructuring from finance department to be taken

- Health of equipment improved by clearing backlog in maintenance, taking up capex schemes including long awaited infrastructure development; expenses stepped up by about 50 % over previous year and similar thrust continues.
- Plant operated in combination of off peak and partial on-peak mode to prepare the units for enhanced level of production and sales.
- Product mix was improved with increase in production of thinner gauge to 19.1%, over 40,000 ton of higher grade apart from SS400 and SPHC. Initiatives taken to produce various grades of high tensile steel and gas cylinder.
- Consumption of Natural gas, Carbon, Oxygen, Casting consumables and others got improved over previous years.
- Export commenced by the company and established its products in international market after a long gap.
- New financiers were added for having flexibility in financing for procurement of raw materials.
- Customers and supplier base broadened.
- Energy conservation: Company achieved lowest ever natural gas consumption at 1.05 nm³/t during last 10 years. Oxygen consumption as well brought down to lowest ever level to 36.89 nm³/t since inception

November 2018

The meeting of Board of Directors Meeting No. 9/2018 on 19 November 2018, has considered and approved the material matters in order to propose to the Extraordinary General Meeting of Shareholders No. 1/2019 to be held on 14 January 2019, for its consideration and approval the following key matters:

- Approved the transfer of legal reserve (Separate financial statements of the Company ended 30 September 2018) in the amount of THB 18,507,421.67 to compensate the retained losses (Separate financial statements of the Company ended 30 September 2018) in the amount of THB 18,507,421.67.

- Approved the reduction of the Company's registered capital by reducing the par value from THB 6.90 to THB 0.96, which thereby decreases the Company's registered capital from THB 129,298,350,418.50 to THB 17,989,335,710.40 and the Company's paid up capital from THB 96,104,091,707.70 to THB 13,371,004,063.68. In this regard, the decreased paid up capital from the par value reduction will be used to write off the discount on share capital in the amount of approximately THB 61,757,357,060.14 and write down accumulated losses in the amount of approximately THB 20,975,730,583.88, respectively as appeared in the separate financial statement of the Company ended 30 September 2018. After the writing down of accumulated losses, the Company will have the remaining accumulated losses of THB 23,023,481.28.
- Approved the reduction of the Company's registered capital by cancelling the authorized but unissued shares of the company in the amount of 1,957,748,965 shares, with a par value of THB 0.96 per share, from the existing registered capital of THB 17,989,335,710.40 to THB 16,109,896,704, prior to the increase of the Company's registered capital.
- Approved the increase of the Company's registered capital of THB 11,490,928,047.36 from the existing registered capital of THB 16,109,896,704.00 to THB 27,600,824,751.36 by issuing 11,969,716,716 newly issued ordinary shares with a par value of THB 0.96 per share (1) to existing shareholders of the Company in proportion to their respective shareholding (Rights Offering) and (2) to accommodate the right adjustment of GJS-W3 Warrant and GJS-W4 Warrant.

August 2018

The Board of Directors Meeting No. 6/2018 (“**Meeting**”), held on 10 August 2018 at 14.00 hours had reviewed and considered the qualification of Mr. Chainarong Monthienvichienchai, Chairman of the Board of Directors, and opined that he has qualification of independent director, which be in accordance with the criteria prescribed by the Capital Market Supervisory Board. The Meeting therefore, has approved the appointment of Mr. Chainarong Monthienvichienchai, as Chairman of the Board of Director and Independent Director of Company, with effect from 10 August 2018 onwards.

June 2018

The meeting of the Board of Directors No. 5/2018 held on 26 June 2018 at 14.00 hours, has considered and resolved to appoint Mr. Yingsak Jenratha, as an independent director and Audit Committee member of the Company in replacement of Prof. Dr. Narumon Saardchom, the resigned director, for the remaining term of her office, with effect from 26 June 2018 onwards.

Shareholding Structure

As of 31 December 2018, top ten shareholders and stock holding proportion based on paid-up capital are as follows:

No.	Name of shareholders	Number Shares	%
1.	Asia Credit Opportunities I (Mauritius) Limited	3,342,751,016	24.00
2.	G Steel Public Company Limited	2,122,427,209	15.24
3.	Nomura Singapore Limited-Customer Segregated Account	1,086,456,038	7.80
4.	Mrs. Jarunee Chinnawongvorakul	841,798,800	6.04
5.	Oceanwide Securities Company Limited A/C Client	480,768,667	3.45
6.	Superior Overseas (Thailand) Co., Ltd.	412,500,000	2.96
7.	GS Securities Holding Co., Ltd.	307,000,000	2.20
8.	Mr. Somchai Padpai	248,630,000	1.79
9.	Mr. Surapan Tatimaneekul	215,725,300	1.55
10.	Thai NVDR Company Limited	148,887,447	1.07
11.	Minor shareholders	4,721,184,756	33.90
	<u>Total</u>	<u>13,928,129,233</u>	<u>100.00</u>

Product Characteristics

The Company has operated the business as the manufacturer of hot-rolled steel plate and related products, which can be divided into the product line as follows:

- 1) Hot Rolled Coil
- 2) Tempered Hot Rolled coil
- 3) Hot Rolled Pickled & Oiled Product

These products are used in the related industries as follows:

Type	Utilization
Hot Rolled Coil	Mechanical tube, electrical conduits, water pipe, construction, C-section, construction scaffold, electrical pole, gas cylinder, black steam pipe, product used in anti-corrosion from atmosphere and cold-rolled steel sheet.
Tempered Hot Rolled Coil	Agricultural tools, general construction and profile sheets.
Hot Rolled Pickled & Oiled Product	Chassis, wheel, compressor, refrigerator frame, microwave frame.

Marketing and Competitions

Expanding Products Range

The Company is continuously looking at opportunities to develop and improve its products range to have more diverse range in terms of thickness of steel such as expanding from maximum normal thickness at 12.70 mm upto thickness of 25 mm in form of coil. Also developing special quality grades that the market still has to depend on import, such as steel quality for Cold-Rolling, gas cylinder, welding and high-tensile steel.

The Company has a plan to improve the strategy on product development as follows:

1. To focus on products on demand of the market and of regular use.
2. To develop products to support the market not only for the general construction industry and Tube sector, but also for automobile and large construction industry, including the industries of household and electrical appliances.
3. To supply Hot-rolled steel Coils for production of cold-rolling and Galvanising steel.
4. To develop product with special thickness in the form of coil which is in the niche and the upscale market.

Pricing Strategies

1. The Company sets the price that is suitable for the general steel grades to be able to compete with the competitors and still can maintain the market share.
2. The Company improves the existing technology to help support low production cost to have the opportunity to enter new domestic and foreign markets.

3. The Company can produce goods with difference from the competitors on the quality and grade, so it can set the sales price that is higher.
4. The Company gives more information and confidence on the consumption of steel to the customer, including building good relations with the customers continuously.

Target Customer Groups

The customer target groups of the Company can be divided into three groups as follows:

1. Steel Service Centre is the buyers of hot-rolled and cold-rolled steel to cut to sizes and in turn for sales to the users.
2. Pipe Makers such as the steel pipe manufacturers for use in the pipe work, including production for export.
3. Direct Users such as the manufacturers of cold-rolled steel in the country, the manufacturers of auto parts and electrical appliances.

Channels of Distribution

For domestic sales the Company shall distribute its goods via the two channels as follows:

1. Direct Sales

The Company has a plan to distribute directly for the customer group of the steel service center is the manufacturers of steel pipe, Cold-Rolled Steel producers, auto parts and electrical appliances, which expected to have the ratio of 60 percent of the total domestic turnover.

2. Sales Through the Wholesalers

For other groups of the customers, which are the small customers and have numerous numbers, the Company shall distribute through the wholesalers, which can make the Company to reduce the expense on hiring the salesmen and the expense on marketing activities. Moreover, it is to shift the risk on credit in this group of customers to the wholesalers to be responsible for it. The Company expects to sell through this channel at the approximate ratio of 40 percent of the domestic turnover.

Company proposes to export its products in the international market to maintain domestic price and supply balance, bench mark its quality with best producers in the world, help build Company's profile globally.

Marketing Strategies

1. The Company's customers are in various industries such as the pipe manufacturing, the domestic and foreign cold-rolled manufacturers, the steel service center, the auto industry, the large construction projects with the demand to use special quality steel.
2. The Company has developed and improved the quality of its products all the time by investing in the tools for modernization to increase potential and quality improvement and reduce cost of the production.
3. The Company has sent the working team with capability and expertise on using steel in the various applications and give support on the knowledge on the steel with the customers in the various industries for safety and optimization on the use of steel suitably.

4. The Company has succeeded very much in building confidence in the delivery of the goods to the customers punctually, so the customers can plan and manage the inventory suitably.
5. The Company has given prioritization on the improvement and development of the goods and service of the Company regularly with a survey and listening to the opinion of the customers periodically, so the Company knows of the correct and suitable demand of the customers clearly.

Steel Industry situation

Thailand's 2018 steel industry situation

From statistical information obtained from the Iron and Steel Institute of Thailand (ISIT), the volume of finished steel production in Thailand from January to December 2018 totaled 7.11 million tons, up 3.36% compared to the previous year (2017). If categorized by product groups, long steel products represents 3.90 million tons, a decrease of 1.22% compared to the prior year attributable to the production of rebar and hot-rolled section declining by 3.21% compared to the prior year's 3.10 million tons whilst the production volume of flat steel products stood at 3.20 million tons, a growth of 9.54% compared to the prior year. The most produced product belongs to hot rolled sheet where, in 2018, it totaled 3.02 million tons, up 11.24%, followed by cold rolled sheet at 2.24 million tons, up 14.77% year on year and coated steel, at 1.68 million tons, a growth of 11.00% year on year.

Total Apparent Finished Steel (Unit : Tons)	2018	2017	% Change
Production	7,106,526	6,875,446	3.36
Import	12,051,411	11,325,592	6.41
Export	1,713,317	1,553,242	10.31
Consumption	17,444,620	16,647,796	4.79

Long Product Finished Steel Consumption (Unit : Tons)	2018	2017	% Change
Production	3,902,621	3,950,685	(1.22)
Import	2,921,191	2,614,408	11.73
Export	1,054,954	917,678	14.96
Consumption	5,768,858	5,647,415	2.15

Flat Product Finished Steel Consumption (Unit : Tons)	2018	2017	% Change
Production	3,203,905	2,924,761	9.54
Import	9,130,220	8,711,184	4.81
Export	658,363	635,564	3.59
Consumption	11,675,762	11,000,382	6.14

Source : Iron and Steel Institute of Thailand, by Steel Business Intelligence

The finished steel consumption in Thailand in 2018 stood at 17.44 million tons, increased by 4.79% year on year. If categorized by product group, long steel products increased 2.15% compared to the prior year, to 5.77 million tons whereas the consumption of flat steel products increased by 6.14% compared to the prior year, to 11.68 million tons. The most consumed steel category is hot rolled sheet, at 7.39 million tons followed by steel bar and hot rolled steel, at 5.54 million tons and coated steel at 4.25 million tons respectively.

Import of finished steel into Thailand in 2018 stood at 12.05 million tons, up 6.41% over the prior year. The highest imported product is hot rolled sheets at 4.26 million tons followed by coated steel at 2.76 million tons and cold rolled sheet at 1.70 million tons respectively. The ratio of imported steel consumption versus local steel consumption is at 69.08% against 30.92%, reflecting that Thailand still heavily relies on imported steel.

Thailand exported steel products 1.71 million tons in 2018, up 10.31% year on year. The most exported steel products are structural steel, at 388,426 tons followed by rebar, at 223,707 tons.

Hot rolled steel sheet situation in Thailand in 2018

There is no upstream iron and steel industry in Thailand which starts with the melting of iron ore. As such, the structure of Thailand's iron and steel industry begins at the middle stream by melting steel scraps using electrical arc furnace (EAF) of local manufacturers. From there, the output are sent to the downstream production facilities, consisting of long steel products, for example, bar, HR section, wire rod, cold-drawn bar, steel wire, seamless pipes, etc. and flat steel products, for example, hot rolled plate, hot rolled sheet, cold rolled sheet, coated, cold-formed section, welded pipe, etc. From there, the output is distributed to connected industry comprising users of steel products. As for the state of hot rolled steel sheet industry in Thailand, the statistical information obtained from ISIT i.e. production volume, import volume, export volume and consumption volume during January to December 2018 reveal the followings.

The local production volume of hot rolled steel, coil and non-coil, in 2018 totaled 3.20 million tons, rising by 9.54% over the prior year. It consists of hot rolled sheet at 3.02 million tons, an increase of 11.24% whereas the production of hot rolled plate down by 12.79% year on year, to 179,839 tons.

Total Hot Roll (Unit : Tons) (Excluding Stainless Steel)	2018	2017	Change (%)
Production	3,203,905	2,924,761	9.54
Import	3,962,448	3,865,122	2.52
Export	73,977	10,322	616.71
Consumption	7,092,376	6,779,562	4.61

Total Hot Roll Sheet (Unit : Tons) (Excluding Stainless Steel, Thickness < 3 mm.)	2018	2017	% Change
Production	179,839	206,205	(12.79)
Import	356,684	424,603	(16.00)
Export	18,268	1,655	1,003.68
Consumption	518,255	629,153	(17.63)

Total Hot Roll Sheet (Unit : Tons) (Excluding Stainless Steel, Thickness < 3 mm.)	2018	2017	% Change
Production	3,024,066	2,718,556	11.24
Import	3,605,764	3,440,519	4.80
Export	55,709	8,667	542.80
Consumption	6,574,121	6,150,409	6.89

Source : Iron and Steel Institute of Thailand, by Steel Business Intelligence

The local consumption of hot rolled steel, both coil and sheet in 2018, stood at 7.09 million tons, up 4.61% consisting of HR sheet of 6.57 million tons, increased 6.89% and HR plate 518,255 tons, down 17.63%.

Import of hot rolled steel in 2018, both coil and sheet, increased 2.52%, to 3.96 million tons divided into hot rolled sheet of 3.61 million tons, increased 4.80% and hot rolled plate of 356,684 tons, down 16.00%.

Export of hot rolled steel in 2018, both coil and sheet, stood at 73,977 tons, increased 616.71% compared to the prior year, divided into hot rolled sheet of 55,709 tons, increased 542.80% from the same period last year and hot rolled plate of 18,268 tons, rising by 1,003.68% from last year.

Outlook of steel industry in Thailand in 2019

In 2018, steel prices in the world market have decreased compared to the year 2017 due to the economic slowdown in many countries. Especially the economic situation of China that is the world's number one steel producer and user including the impact of trade countermeasures on trade wars. As a result, the competition in the steel industry is becoming more intense, therefore the price level has decreased. The price of steel products in the world market in 2018 began to be noticeably slow in May and trend to decrease continually. The price of steel products in China and imported steel prices in Southeast Asia declined from May to December 2019. Prices of hot rolled steel and rebar dropped in line with the price of steel in China, which is the world's largest steel producer. While the Chinese economy is likely to slow down coupled with the fluctuations in global steel prices caused by the impact of the trade war, together with the price of raw materials that have declined, especially the

decline of the price of scrap from the beginning Year 2018 onwards until the end of the year. Scrap prices dropped by 17% compared to the beginning of the year. Thai steel industry in 2018 was also affected by trade war and world steel price volatility. While the demand for steel in China has not yet recovered. So it is expected that steelmakers in various countries and also Thailand will face competition from imported steel in 2019.

On outlook of steel industry, World Steel Association (WSA) anticipates the global demand for finished steel in 2019 is likely to grow by 1.4% to 1,681 million tons, as forecasted by the world steel demand for 2019 of various regions around the world, the demand trend has increased compared to the previous year. By the European Union (28 countries), the demand for finished steel products in 2019 is expected to grow at 1.7% to 169 million tons. The steel demand for The Commonwealth of Independent States (CIS) trend to grow 0.9%. While ASEAN expects the demand for finished steel products to grow by 6.2%, which the demand for finished steel will increase as compared to other regions, is approximately 78.3 million tons. Which is the result of investment in infrastructure and investment expansion to ASEAN countries, while Worldsteel anticipates the demand for finished steel products in China that is the world's largest steel producers and user, in 2019, the demand for finished steel has not expanded and is expected to be stable as in 2018.

According to the National Economic and Social Development Board (NESDB), GDP growth for the year 2018 is estimated at 3.5 – 4.5, supported by

1. Private consumption tends to keep its growth momentum, and correspondingly support the overall economic.
2. Investment tends to show a further improvement led by accelerated growth of public investment. Specifically, key public infrastructure projects have made significant progresses and entered into the construction phase.
3. A recovery in the tourism sector will contribute more to the overall economy.
4. Exports continue to exhibit a satisfactory growth and continually buttress economic performance.
5. Redirection of international trade, global manufacturing, and foreign investment will become more apparent, as a result of the trade protectionism and retaliation between the major advanced economies.

However, there are still important external factors need to be aware that may cause fluctuations in the global financial system consisting of

1. The global economy and financial system are likely to be vulnerable to fluctuations and lower-than-anticipated economic growth. Key risk factors include:
 - The uncertainty of trade protection and reciprocal retaliation, with additional US trade restrictions imposed on China and its other trade partners, including the EU and Japan and the possible extension of Chinese countermeasures. These aforementioned trade barriers would negatively affect trading-partner

economies, world trade volume, global economy, and Thai exports to grow slower than expected.

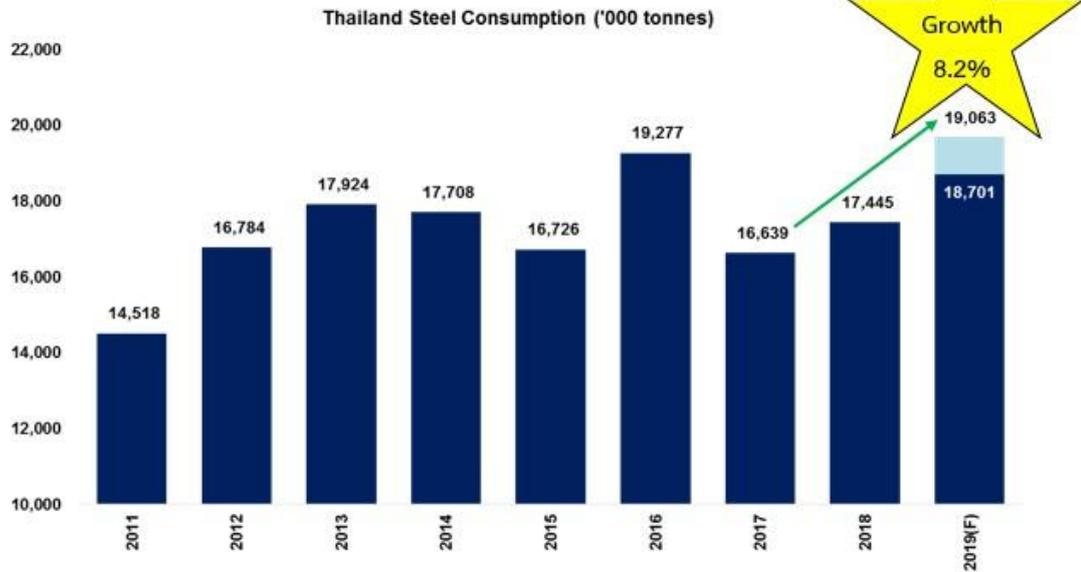

- The slowdown trend of the Chinese economy and the risk of instability from imbalanced economy, which might be aggravated by trade protection measures, together with capital movements and manufacturing relocation;
 - Economic stability issues in major developing countries (Turkey, Argentina, Brazil and South Africa) that may intensify during the US interest rate is likely to increase continuously amid the global economic slowdown
 - The risk that the UK may not be able to reach an agreement on the exit from EU (No Deal Brexit);
 - Oil price volatility which remains upon the OPEC's decision on production capacity and the US's exemption on oil importers from Iran, as well as the unity of OPEC
2. The possible delay in the recovery of tourist arrival numbers.
 3. The global interest rates may rise faster than economic fundamental

As for Thai steel industry, ISIT has estimated the demand for steel in 2019 will be 18.7-19.0 million tons, an expansion of 8.2%, supported by the expansion of downstream industries using steel as the raw material such as the growth of the automobile industry, the expansion in packaging industry. Including the expansion of investment in large-scale infrastructure of the government in 2019, such as the dual-track railway construction project, High-speed rail project connecting 3 airports (Don Mueang – Suvarnabhumi - U-Tapao) and driving special economic development projects in the Eastern Seaboard. And many other transportation infrastructure projects. Which are based on the growth trends of various industries in the country, it is expected that the demand for steel in 2019 can continue to grow.

Forecasting impact to the Company in overall

And from forecasting demand for finished steel in the world and in the ASEAN region including Thailand that are still expanding under the expectation that the domestic economy continues to grow would inevitably support the business of the company as a hot-rolled steel producer. The company has focused on the fundamental factors in business operations and has a strategy to reduce the impact of various negative factors by focusing on reducing production costs and increasing sales continuously. The domestic market is the main target of the company. With efficient production to achieve operational excellence and able to deliver a variety of value-added products to meet the needs of customers. Which will help reduce imports of flat steel products in the country.

Thailand Apparent Steel Outlook in 2019

Assumption

In 2019 Construction will growth about 6-8% support by Public Construction and Private Construction. Automotive growth 3-5% production will be 2.2 million unit in 2019. Appliance growth 4-6% from Government spending stimulus measures and the trade war situation to be resolved after negotiations. But still have to follow closely. Packaging growth 3-5% support by the canned sea food growth 13.6% support by India will reduce their production it may the opportunities for export.

Source : Iron and Steel Institute of Thailand

Planning on the Production in the Business Operations

Since the hot-rolled product of the Company seems to have similarity with the product of the major shareholders is G Steel PCL, but in reality the product of hot-rolled steel Coils has great diversity in terms of grade (quality class) and size. If consider on similarity or overlap of the products being manufactured by both Companies, it is necessary to consider the details in the **three aspects as follows:**

1. Grade (quality class) according to the international standard and the tailor-made, which the plant of the Company and G Steel can produce hundreds of grade.
2. The widths produced by the plant of the Company and of G Steel ranging from 900 mm to 1,571 mm every 1 mm of different widths is the product that is the different altogether the total of 672 sizes.
3. The thicknesses or gauges produced by the Company and G Steel ranging from 1.20 mm to 25.00 mm, with each thickness of 0.05 mm is the unique product of the total thicknesses of 480 sizes. When the thickness and width of the product are multiplied shall derive of the product with altogether 268,800 different sizes. However, it does not consider the number of grades produced by hundreds of grades and not included the classification of the products as the basic or value-added products such as the skin-passed, pickled & oiled, etc. Thus, the actual production line has the different products that are not overlapped numerous numbers.

Nevertheless, both companies have planned joint marketing to avoid and reduce the overlap of the products by the Company focuses on production of hot-rolled steel with thin and wide and the thicknesses between 1.20-1.85 mm (it is the product range with the specially thin size) and between 13.00 – 25.00 mm (which is the special thickness range). Due to suitability of the production and technology of the Company that can produce the thin sheet better, while the production of G Steel mostly puts emphasis on the goods with the thickness from 1.90 mm, which is the benefit from the joint marketing planning. So both companies have better production efficiency and benefit from the economies of scale, including reducing the loss from the non-continuous production process that requires producing diverse goods.

In the future, the Company has planned on the development of the products for the galvanized and cold-rolled steel applications, which are value-added and the segment that has growth and large import. The production line of the Company has been designed to produce such products. Thus, the overlap of the products may be reduced in future.

“Mr. Yanyong Kurovat or Ms. Soontareeya Wongsirikul or Mr. Somchai Leeswadtrakul, any two of these three directors to co-sign and affix the Company seal”

The Roles and Responsibilities of the Board of Directors

The Company's Board of Directors has the power and duties in accordance with the law and resolutions of the shareholders' meeting. However, the board cannot approve or consider anything except by approval of the majority vote of the attending directors of the board meeting on the following matters:

1. Investment on the equity or purchasing of the property of other business not in the case of buying or transferring the business of other companies or a private company to the Company.
2. Signing a joint investment with a partnership or other matters with other people with the objective to share the profit and loss.
3. Acquisition, disposal and transfer or permission to exercise the right or transferred right in the process, trademark, trade name, trade secret or other intellectual property in the same format of other people, not the normal trade.
4. Approval of the annual budget and expenditures of the Company.
5. Approval of construction of a new steel plant.
6. Lending/borrowing for other benefits, not the working capital with the amount not exceeding one hundred million US dollars (USD 100,000,000) or the equivalent in the baht currency.
7. Signing the contract with the term of one (1) year and up, or not the normal trade.
8. Execution of the right on the persons involved under the management agreement or the management advisory and technical assistance agreement.

However, in the case of any implementation on any matter that any directors or possible vested interests according to the notification of the Security and Exchange Commission (“SEC”) and/or the Stock Exchange of Thailand (“SET”) as stakeholders or conflict of interests, and the Company has designated it, so that director has no power to approve that matter. However, it is only for the overall benefit of the Company or the shareholders as priority.

(A) Independent Director

Definition

Independent director means director that have specifications as follows;

1. Hold not exceeding 0.5% of the total voting shares of the Company, its subsidiaries, nor being a major shareholder, affiliates or other juristic persons with possible conflict of interest, including the shares held by their related persons (under Section 258 of Securities and Exchange Act)
2. Neither involving in management, non-controlling, nor being the Company's executive/employees, salaried consultant, competent authorized person to control the Company, its subsidiaries, affiliates or other juristic person with possible conflict of interest at present and in the last 3 year before appointment.
3. Not being a person related by blood or legal registration such as father, mother, spouse, sibling, and child, including spouse of the child, to executives, major shareholders, controlling persons, or persons to be nominated as executive or controlling person of the Company or its subsidiary, and be independent from major shareholders, executives and controlling persons.

4. Not being person who has, or used to have, business relationship with the Company, subsidiaries, affiliate companies, major shareholder, or authorized controller, by offering professional and trade service, according to the SET's requirement on connected transaction, except that he has no longer had such relation for at least 3 years.
5. Not be or used to be auditor of the Company, subsidiaries, affiliate companies, major shareholder, or authorized controller, and not being shareholder.
6. Not being a person who has been appointed as a representative of the Company's Director, major shareholders or shareholders who are related to the major shareholders.
7. Not having any characteristics which make him/her incapable in expressing independent opinions.
8. Be capable in protecting all shareholders' benefits equally and supervising in order to prohibit any conflict of interest between the Company and related persons, and able to attend the meetings of the Board of Directors in order to make a decision on significant issues.

Furthermore, this definition of independent directors has been revised so as to be stricter than that defined by the SEC.

Criteria in selecting independent director

The Company selects independent directors taking into account the knowledge, experience good understanding in related businesses, vision, as well as sufficient time to perform duty, also with the qualities as stated in the concerned government agencies' announcements, regulations and rules. The Company would invite qualified persons to be its independent directors. The Company considers that the aforementioned independent directors are able to exercise their knowledge and capability as well as provide opinions that are useful and appropriate to support the Company's business operation.

The Board of Directors comprises of the Chairman and independent director, 3 independent directors, 4 executive directors, and 3 non-executive directors, totaling 11 members. The Executive Directors are knowledgeable and able to provide in-depth comment regarding to steel industry as well as formulate strategic business plan, while non-executive and independent directors have good knowledge and understanding of the overall industrial sector, finance and banking, asset management, auditing, law, and others, so as to encourage creative opinion expression in the Board of Directors' meetings. The Board of Directors shall make decision for the best benefits of the Company.

(B) Audit Committee

Definition

Audit Committee Member means persons appointed by The Board of Directors or the Company's Shareholders. The Audit Committee members must be independent directors and not to be directors assigned by the Board of Directors to make decision on business operations of the Company, parent companies, subsidiaries, joint venture, similar subsidiaries, or any juristic persons that may have conflict of interest. They must be neither the director of parent companies, subsidiaries, joint venture, or similar subsidiaries. They must have qualifications and responsibilities as announced by SEC and as per the SET's Regulations on the qualifications and work scope of audit committee. They must also have sufficient knowledge and experience to review the reliability of the financial statements and perform other duties in the capacity as Audit Committee members.

The Board of Directors considered that all the Audit Committee members are qualified according to the Company's definition and comply with the SEC and the SET regulations. The Audit Committee Meeting also considered that Prof. Niputh Jitprasonk has good knowledge and expertise in accounting and finance, as well as long experience in auditing which is adequate to review the reliability of the financial statements. Therefore, the committee resolved to appoint Assoc. Prof. Niputh Jitprasonk as the Chairman of the Audit Committee, the biographies of who has been disclosed in the Audit Committee Member's Certificate of Biography submitted to the SET in 2008 according to the new regulation.

11. To perform other works assigned by the Board of Directors.

In case that the CEO or other persons with possible conflict of interest, the CEO shall have no right to approve such matter.

The Selection of Directors, Chief Executive Officer and Executives

(1) The Selection of Directors and Chief Executive Officer

When the position of Company's directors or Chief Executive Officer is vacant, the Nomination and Remuneration Committee are responsible for selecting and nominating the persons to take these positions. The Nomination and Remuneration Committee shall consider person with knowledge, capability, and experience with specialization that are crucial and essential to the Company's operation. The Nomination and Remuneration Committee shall consider the following qualifications:

1. Qualification as per Clause 68 of the Public Limited Company Act B.E. 2535, and announcement or rules and regulations of the Stock Exchange of Thailand (SET) and the Securities and Exchange Commission (SEC) and the Company's regulations.
2. The candidates' knowledge, capability, experience and specializations that would contribute to the Company's operational efficiency.
3. The candidates' qualifications shall support good corporate governance practices, such as ethics, independence, assertiveness, creativity, carefulness and integrity as well as ability to dedicate their time for the Company.

(2) The nomination of directors (at the end of terms as required by law)

The selection of a Board of Directors member to replace director who must retire at the end of his/her term shall be approved by the Annual General Shareholder's Meeting and by majority vote of the shareholders present at the meeting. Criteria and selection method are as follows:

1. A shareholder shall have one vote per one share.
2. Each shareholder shall exercise all his/her voting right as mentioned above in selecting one or many person as directors but cannot separate votes for any person(s).
3. The persons receiving the highest votes will be selected as directors. The number of persons selected shall be equal to the number of directors to be selected. In case there are persons with the highest votes more than the number of directors required, the meeting chairman shall have the right to make decision.

In addition, in selecting new directors to replace vacant positions due to other reasons than end of term according to the law shall be approved by the Board of Directors' meeting and thus with no less than two-thirds of the votes of the remaining directors. The new directors who replace the vacant position shall be in the position for the remaining term of the vacant position.

In case directors resign, the Company's regulations allow the Board of Directors to appoint new directors as replacement.

(3) The selection of the Management

The Chief Executive Officer is authorized to nomination and appoints persons with appropriate qualifications in terms of education, knowledge, capability and business experience. The selection shall follow the Company's rules related to human resources management. For position equivalent to Senior Vice President or higher, the appointment of the person shall be reported to the Board of Directors for acknowledgement, while an appointment of positions equivalent to the Internal Audit Department executives shall be made with the Audit Committee's discretion.

Company Secretary

The Board of Directors Meeting No. 2/2015 held on 20 March 2015 appointed Ms. Pannee Tanaprateepkul to perform the duties of Company Secretary on giving the advices regarding laws and regulations which the Board of Directors shall be aware, to monitor the Board of Directors' conduct as well as to coordinate and follow up the execution to be according to the Board of Directors' resolution.

Responsibilities of the Company Secretary

Total	559

Good Corporate Governance

Through the year 2018, the Board of Directors has perpetuated the intentions to enhance the Good Corporate Governance (“CG”) in accordance with the international standards. The Board of Directors therefore applied the CG Self-Assessment for developing the Company’s governance system under the CG established by The Stock Exchange of Thailand (SET). The purposes of this are for the most efficiency of management system including priority given to the shareholders’ rights, equal treatment to shareholders, stakeholders’ roles, data disclosure and transparency, and responsibilities of the Board of Directors. All those are for protecting the shareholders’ interest.

In this connection, the Board of Directors has acknowledged the Corporate Governance Code for Listed Companies 2017 (“CG Code”) and was well awarded of the governing body to create value for sustainable business including reviewing, policy assessing and the implementation in relation to the Company’s corporate governance and each CG Code. The Board of Directors has assigned the Corporate Governance Committee or Company secretary to amend CG policy and Ethics of the Company as well as the directions in compliance with CG Code and adaptable to the rapid change of CG development.

In 2018, the Company’s CG practices were divided into 5 parts, as follows:

Part 1 Shareholders’ Rights

1.1 CG on Shareholders’ Right Protection Policy

The Company’s Board of Directors formulates the shareholders’ right protection policy in writing in 2006. The policy emphasizes on allowing shareholders to have equal rights to have access to the Company’s operational performance; and to participate in important decisions making, as well as protecting, promoting, encouraging but not to infringe shareholders’ rights. The policies are as follows:

Policy on shareholders’ right protection

1. The Board of Directors is responsible for protecting and respecting basic rights of the Company’s shareholders, such as right to purchase, sell or transfer shares, right to the Company’s profit sharing; right to obtain sufficient information about the Company’s operation, right to attend the shareholders’ meeting to appoint or terminate directors and independent auditors, allocate dividend payment, formulate or amend the provisions or Memorandum of Association, approve capital increase or decrease, and special items, etc.
2. The Board of Directors has duty to promote and support shareholders to exercise their rights in various areas at the Annual General Shareholders’ Meeting, i.e. the right to propose meeting agenda in advance, the right to nominate persons as directors, the right to submit questions to the Company prior to the annual shareholders’ meeting and the right to openly express opinions and ask questions at the shareholders’ meeting, etc.
3. The Board of Directors shall not take any action which may violate or limit, or infringe the shareholders’ right to study the Company’s information that shall be disclosed according to the related requirements, and the right to attend shareholders’ meeting; for example, not to distribute significant information document unexpectedly added, not to add agenda or amend the important data without advance notice to shareholders.

4. The Board of Directors has responsibility to facilitate the applying of the shareholders' rights such as giving the significant information, inviting the shareholders to visit factory, etc.

1.2 Allowing shareholders to study information prior to the shareholders' meeting

The Board of Directors and the Management have implemented the policy relating to shareholders' right that covers more the rights than those required by law, especially the right to general and significant information. At the Annual General Meeting of the Shareholders for the year 2018, the Company provided the shareholders with sufficient opportunity to study the information to the meeting date via the Company's website. Such information was also published in both Thai and English similar to the hard copy the Company submitted to shareholders.

1.3 Practice for shareholders before the shareholders' meeting, at the shareholders' meeting, and after the shareholders' meeting

To deliver to the documents of the Annual General Meeting of Shareholders (“**Meeting**”), the Company assigned the Thailand Securities Depository Company Limited (TSD), which is the Company's share registrar, to distribute the invitation to the Meeting to all shareholders 14 days prior to the Meeting date in order to provide shareholders with sufficient time to study the information. Such delivery period of meeting documents was more than that specified by the applicable laws.

At the Meeting, the Company facilitated shareholders to exercise their rights to attend the meeting by implementing a barcode system for registration and vote counting, as well as providing the revenue stamps for proxy authorization. The label of registered shareholder was provided for access convenience while meeting, without time loss to recheck their documents.

In addition, at the Meeting, for the purpose of transparency and good corporate governance imposed by Securities and Exchange Commission Thailand (SEC), the Company has invited shareholders to witness the vote-counting. There were no shareholders volunteered, but there was Mr. Supapong Tun-ngern, independent Legal Advisor, and Ms. Yaowarote Klinboon, legal advisor from Hunton Andrews Kurth (Thailand) Limited to witness the vote-counting.

Furthermore, the Company has informed the Meeting the number and ratio of attending shareholders either by themselves or by appointment of proxies, the procedures of vote-casting, vote-counting, including notification of voting result.

After the Meeting of the Shareholders for the year, the Company compiled the document, including agenda, meeting resolutions, voting results, questions and shareholders' opinion expressed at the meeting, so as to provide “The minutes of Annual General Meeting of the Shareholders for the year 2018” for publishing on the Company's website in compliance with the regulations of SEC and SET.

The Company provided upon requested the video of meeting atmosphere in soft file for publishing on the Company's website for shareholders who could not attend the meeting, apart from the minutes publicized in the channel of SET and the Company's website.

1.4 Preventing limitation of shareholders' rights to general information and information technology

Through publishing all information on the Company's website prior to the Annual General Meeting of the Shareholders, the Company's Board of Directors supported and not to infringe the shareholders' rights exercise while the Company did not distribute additional document containing significant information during the meeting, or add or change meeting agenda or amend significant information without advance notice. There has been no complaint from shareholders on this case.

1.5 Facilitating shareholders to exercise rights

The Company facilitated the shareholders and shareholders' proxy to register attending the meeting by implementing a barcode system for registration and vote counting as well as distributing voting ballots to the shareholders before meeting.

The Company clearly stated shareholders' meeting rules and process in the meeting invitation. The moderator of the meeting also informed the attending shareholders of the rule and voting process at the meeting. The shareholders' meeting minutes also included a record that the meeting was informed of the rules and voting process.

Moreover, the Company invited its shareholders to exercise their right to visit its factory. Regularly, the Company updates current information and data published on its website.

1.6 Providing time and opportunity for shareholders to express their opinions

The Chairman of the Board of Directors asked the meeting at the end of each agenda whether the shareholders ask questions related to the meeting agenda or related to the Company, whereby they could openly express their opinion. Any questions related to the meeting agenda or the Company together with shareholders' opinion as well as the answers or clarification made by the Board of Directors or the Company's management, were entirely recorded in the minutes.

The Company provided recording sound of the shareholders' meeting, and disclosed the significant matters arising during the meeting in the meeting minutes for reference in the future and enables shareholders who could not attend the meeting to follow up the meeting particulars.

1.7 Directors to attend the shareholders' meeting

With fully respect of shareholders' right, the attendance of all 10 Directors, including Chief Executive Officer, and Chief Financial Officer, comprised 11 members attended the Annual General Meeting of the Shareholders for the year 2018.

Part 2 Equitable treatment towards shareholders

2.1 Policy on facilitating the minor shareholders

The Board of Directors respected the equitable treatment to shareholders, and therefore the facilitation policy for minor shareholders was set as follows:

Policy on facilitating the minor shareholders

1. The Board of Directors has the duties to respect the shareholders' rights and treat them equally.

2. The Board of Directors has the duties to encourage and support the shareholders to exercise their rights in any respects for the annual general meeting of shareholders such as proposing an issue in the agenda in advance, nominating a person to be selectively director in advance, and submitting questions prior to the meeting, etc.
3. The Board of Directors has the duties to assist the shareholders in any respects such as supporting the shareholders to study information before making decision. For the voting, the Company supports the shareholders to authorize proxies by offering alternatives at least 1 independent director for the shareholders to authorize as their proxies.

2.2 Criteria to provide the minor shareholders the opportunity to propose in advance an issue in the agenda of the shareholders' meeting

The Company allowed and assisted any shareholders to propose in advance an issue in the meeting agenda by providing the consideration criteria published via the data system of SET and the Company's website 3 months prior to the Annual General Meeting of Shareholders for the year 2018. The Board of Directors' Secretary was assigned to compile the meeting agenda and submitted to the independent directors for consideration. Basically, if the independent directors viewed such issue as proper, they shall propose to the Board of Directors. In 2018, none of shareholders proposed in advance any issue in the agenda. The criteria of proposing the agenda of the Annual General Meeting of Shareholders for the year 2018 were the followings:

1. The qualifications of shareholders entitled to propose issue for the annual general meeting of shareholders agenda shall be the shareholder holding not exceeding 0.5% of the total voting shares of the Company, maybe a sole shareholder or combined shareholders, holding continuously such shares not less than 12 months from the holding date to the proposal date.
2. An issue shall be proposed through the "Agenda Proposal Form for the Annual General Meeting of Shareholders for the year 2018" with related complete and entire documents, to be submitted to the Company.
3. For an efficient AGM, the Company reserves its right not to include the following matters as the meeting agenda:
 - 1) Matters proposed by shareholders who are not qualified, as specified in criteria No. 1 or do not follow the procedures set forth by the Company in the criteria for shareholders to propose the Agenda of AGM.
 - 2) Matters as stipulated by laws for consideration at AGM, which have been pursued regularly by the Company.
 - 3) Matters relating to a normal course of business of the Company and matters already undertaken by the Company.
 - 4) Matters under the Company's management authority except ones causing material impacts on shareholders in general.
 - 5) Matters that shareholders already proposed in AGM within the past 12 months, and those under support by less than 10% of total voting shares, given that the factual events have not changed significantly.
 - 6) Matters unlikely to benefit the Company and matters previously submitted for consideration by other shareholders.
 - 7) Matters that violate applicable laws, rules, regulations of the government agencies or regulatory or involved agencies, or actions not in compliance with the objectives, Articles of Association and Statement of Business Conducts of the Company.
 - 8) Matters that are beyond the authority of the Company.

4. The Company's independent directors considered and screened the issues proposed by shareholders prior to submit to the Board of Directors. The Company would notify the consideration result after the meeting of the Board of Directors. The approved issues would be included in the agenda attached to the invitation to the Annual General Meeting of Shareholders for the year 2018.

2.3 Consider not to add an issue in the shareholders' meeting agenda

The Board of Directors complied with the policy on monitoring the shareholders' rights. In shareholder meeting, the Board of Directors strictly conducted the meeting in line with the agenda and did not distribute any additional documents suddenly, or add any issue in the agenda or change any significant information without advance notice.

2.4 Criteria to provide the minor shareholders to nominate person for director position

The Company allowed and assisted any shareholders to nominate in advance qualified person for director position by providing the consideration criteria published via the data system of SET and the Company's website 3 months prior to the Annual General Meeting of Shareholders for the year 2018. The Board of Directors' Secretary was assigned to compile the accompanied information of the nominee's qualifications as well as his/her consent, and then submitted to the Nomination Committee to consider the qualifications of person nominated by the minor shareholders in accordance with the Company's nomination procedure. Generally, if the Nomination Committee viewed such person nominated as proper, it shall propose to the Board of Directors to consider and propose to the Annual General Meeting of Shareholders. In 2018, none of shareholders made nomination. The Criteria for the Nomination of Candidate for Directorship in the Annual General Meeting (AGM) Agenda are as follows:

1. Qualification of shareholder who has the right to nominate a qualified person as a candidate for the Company's directorship election must be the Company's shareholder holding continuously minimum of five percent of the total shares issued by the Company by one shareholder or several shareholders combined and shareholders must have held those shares continuously for at least 12 months by the date the shareholder nominates a qualified candidate.
2. Nomination of a qualified person as candidate for directorship, Shareholder fully qualified as in criteria No.1 can fill out the following forms:
 - 1) Form Nominated Qualified Candidate for Directorship in AGM 2018
 - 2) Form Personal Data on Qualified Candidate for Directorship in AGM 2018
 - 3) Letter of Consent from the Nominated Candidate for Directorship in AGM 2018
 Together with other completed supplementary documents as required.
3. Candidate must have the qualifications in compliance with related laws and regulations as follows: Securities and Stock Exchange Commission, Thailand, The Stock Exchange of Thailand, The Public Company Limited Act B.E. 2535 and the Company's Memorandum of Association.
4. The above nominated candidate, together with complete supplementary documents, as required shall be scrutinized by the Nomination Committee according to the Nomination Process of the Company, before further submission to the Board of Directors for consideration. The Company will notify the Board of Director's (BOD) resolution after the BOD Meeting.

2.5 Encouraging the shareholders to use the Proxy Form

The Board of Directors encouraged the shareholders to use the Proxy Form in voting APPROVE, DISAPPROVE, ABSTAIN by providing the Proxy Form B. Besides, the Company provided the shareholders with the Proxy Form A (general Proxy Form) and the Proxy Form C (only for custodian) published on the website 14 days prior to the meeting date for download.

2.6 Encouraging the shareholders to vote

The Board of Directors provided convenience for shareholders who could not attend the meeting but wish to exercise their voting rights by allowing them to assign proxy. The Company arranged 2 independent directors to attend the meeting and vote on behalf of the shareholders. An independent director is Mr. Chainarong Monthienvichienchai (Chairman of the Board of Directors and independent director) and Assoc. Prof. Niputh Jitprasonk (Chairman of the Audit Committee and independent director). Shareholders can appoint one of the two independent directors as their proxy.

2.7 Giving the shareholders opportunity to exercise right to appoint individual director

The Board of Directors encouraged the shareholders to use their voting rights by providing and distributing voting ballots at the registration before meeting. Voting ballots were provided for each issue of the agenda, such as dividend payment approval, independent auditor remuneration, and individual director appointment. The vote counting was recorded in the minutes of each meeting for transparency and reference in case of objection later.

2.8 Measures to prevent directors, executives, and employees from using the internal information for own benefits

The Board of Directors stipulated the measures to prevent the directors, executives, and employees from using the internal information for their or others' benefits in the Code of Conduct covering the use of internal information for stock trading, the conflict of interest, and the confidentiality of information. The measures were notified through the business ethics, training, and the Company's website. Besides, the secretary of the Board of Directors was assigned to notify the rules in data disclosure and monitor that the Board of Directors and executives report their asset possession including the disclosure of the conflict of interest and connected transaction between directors and executives.

Part 3 Roles of stakeholders

3.1 Good Corporate Governance policy related to stakeholders

The Company respected and gave priority to all groups stakeholders' rights, not only particular to the applicable laws. In the past year, the Company newly considered indicating the stakeholders and established the additional policy and measure on monitoring the stakeholders in accordance with the Good Corporate Governance (CG) and CSR policy simultaneously adhered to conduct. The stakeholders of the Company shall be divided in 10 groups, as follows:

1. Employees and families
2. Customers and creditors
3. Shareholders

4. Community around factory
5. Government agencies
6. Suppliers and contractors
7. Financial institutes, analysts, and investors
8. Scholars
9. Educational institutions
10. Mass media

Part 4 Information disclosure and transparency

4.1 Results of the execution of good corporate governance policy

Last year, the Company accurately, adequately, timely and transparently disclosed the financial and non-financial information required by the SEC and SET through SET's online system and the Company's website. The Company has never been punished by the SEC or SET for not disclosing the information as required. Also, the Company regularly appraises the efficiency of information disclosure process and strictly follows the regulations.

Moreover, the Company published and regularly updated all significant information submitted to the SET and other current information on its website as well as provided all shareholders and stakeholders with such information both in Thai and English so as for equal access to the information.

4.2 Remuneration for the directors and the management

The Nomination and Remuneration Committee formulated the policy on remuneration for directors, Chief Executive Officer and top executives as follows;

Policy on remuneration for directors, Chief Executive Officer and top executives

1. Remuneration of the Company's directors, Chief Executive Officer and top executives shall be set in accordance with their duty, scope of responsibility, fairness and attractiveness, which should be compared to those for directors in other listed companies in the same industry and similar size, including the Company's performance, business surroundings, and overall economic conditions.
2. The Nomination and Remuneration Committee shall be responsible for initial consideration and propose for the approval of the Board of Directors and the Annual General Meeting of the Shareholders the maximum remuneration of the year, position remuneration and meeting allowance.
3. The Nomination and Remuneration Committee shall comply with the resolution of the Annual General Meeting of the Shareholders on the remuneration budget and details which are also disclosed in the annual report. The remuneration that the directors received from positions in other companies, such as consultancy fee, and directorship in the Company's subsidiaries shall also be disclosed.
4. Any director who currently holds management position in the Company and receives the remuneration in the forms of monthly salary will not be entitled to receive the remuneration.

The Nomination and Remuneration Committee proposed to the Board of Directors and the Annual General Meeting of the Shareholders for the year 2018 to approve the remunerations for the non-executive and non-employee directors as shown in Remuneration for Directors and the Management Chapter. Any director being the subsidiary's director shall not be entitled to take any remuneration from such subsidiary.

4.3 Board of Directors' Report

The Company provided the Board of Directors' responsibility report on financial statements together with the independent auditor's report, as published in the annual report under the Board of Directors' Responsibility towards financial statements.

4.4 Roles and duties of the Board of Directors and Committees

In 2018, the Board of Directors managed the Company in compliance with legal framework, the Company's objectives, rules and regulations, as well as the resolution of the shareholders' meeting with honesty and discretion and for the best benefits of the shareholders. Besides, the Board of Directors appointed committees to assist the Board of Directors in studying details, in monitoring and supervising the Company's operations, as well as screening assigned tasks.

In the Annual General Meeting of shareholders 2018, there were directors, Chief Financial Officer, the Company's auditor, and legal advisor. Details of meeting attendance of Directors for year 2018 are as follows:

No.	Name	Board of Directors Meeting/ Attendance	Audit Committee Meeting/ Attendance	Nomination and Remuneration Committee Meeting/ Attendance	The 2018 Annual General Meeting of shareholders / Attendance

Remarks:

- (1) The Meeting of Board of Directors No. 5/2018 held on 26 June 2018 has considered and resolved to appoint Mr. Yingsak Jenratha as director in replacement of resigning director, with effect from 26 June 2018 onwards.
- (2) The Meeting of Board of Directors No. 3/2018 held on 23 April 2018 has considered resolved to appoint Mr. Stephen Carl Stewart as the Nomination and Remuneration Member in replacement of resigning director, with effect from 23 April 2018 onwards.
- (3) The Meeting of Board of Directors No. 4/2018 held on 10 May 2018 has considered and acknowledged the directors' resignation of Mr. Tobias Ernst Chun Damek as director of the Company, with effect from 9 May 2018 onwards, and approved the appointment of Mr. Amrendra Prasad Choudhary, Chief Executive Officer, as a director of Company in replacement of Mr. Tobias Ernst Chun Damek, the resigned director, for the remaining term of his office, with effect from 10 May 2018 onwards.

*The Meeting of Board of Directors No. 3/2018 held on 23 April 2018 has acknowledged the resignation of Prof. Dr. Narumon Saardchom with effective from 2 April 2018 onwards.

4.5 Relationship with investors

The Company has a policy on significant information, including general information, to be disclosed properly, completely, reliably, sufficiently, timely, and transparently, including general information that may affect the Company's share price, assigning the Company's representative to communicate with the institute and individual investors as well as analysts and concerned government agencies. The Company's website (www.gjsteel.co.th) is used as a channel to distribute all information, such as the information regarding the Company, business, financial information, news that may affect investment decision, reports submitted to the SET, the Company's activities, and shareholders' meeting details, in order to enable shareholders to keep updated of the Company's movement and information.

Part 5 The Board of Directors' Responsibilities

5.1 Policy on Good Corporate Governance

The Company's Board of Directors is committed to directing the business in compliance with the good corporate governance which is beneficial and important to promote efficiency and transparency of the Company's operation, helping increase competitive advantages, and add long-term value to the shareholders. The Board of Directors and the Management have formulated good corporate governance practice and made them the Company's policy in writing. The Board of Directors approved the policy the essences of which are as follows:

1. Respecting shareholders' right including allowing them to propose agenda in advance for the shareholders' meeting, and nominating in advance persons to be elected as directors, etc., the Company shall not take any action which may infringe or limit the rights of shareholders.
2. Equitably and fairly treating all shareholders, investors, stakeholders and related parties.
3. Accurately, adequately, equitably, and timely disclosing information to shareholders, investors, stakeholders and related parties through appropriate channels, including website, to enable shareholders and related parties to have easy access to the information.
4. Performing its duties and responsibility in supervising and directing the operations of the Company with integrity, ethics and prudence to achieve the Company's goal and for the best benefits of the Company and its shareholders, as well as preventing conflict of interest.
5. Managing the Company with transparency under sufficient internal control and audit system.
6. Controlling and managing risks at the appropriate level.
7. Operating the Company with integrity and in compliance with laws and business ethics.

5.2 Structure of the Board of Directors

The Company managed the Board of Directors through the system "Check and Balance" and the policy of "Board Diversity". The Board of Directors comprises 11 members that have different qualifications, skills, experience and specialization being benefit to the Company, and ability to contribute their time and efforts to perform a duty to reinforce the Board of Directors. The Board of Directors shall select and appoint the committees in order to share its works for specific issues, as specified in the annual report under Management Structure.

The Board of Directors gives priority to transparency and therefore stipulated that the Board of Directors Chairman is an independent director and shall not be the same person as the Chief Executive Officer or President. The Board of Directors approved the definition of independent directors which is stricter than that required by SEC, for example, an independent director shall hold the shares not exceeding 0.5% in the Company.

The Board of Directors stipulated a formal and transparent process of director nomination which is free from influence from shareholders who have controlling authority. The Nomination Committee shall nominate directors by considering education, capability, experience, etc. in accordance with the scope of responsibilities of the Board of Directors or committees. The list of nominees will be proposed to the Board of Directors for consideration and appointment.

The Board of Directors disclosed the list of the directors and committee members in terms of names, positions, age, education, shareholdings, work experience and relationship with the Company's executives in various channels, including the annual report and the Company's website. There is no director holding directorships more than 5 listed companies. At a meeting of the Board of Directors, there must not be less than one half of the total number of directors present to form a quorum. In addition, the meeting schedule for year was provided to directors in advance annually in order for the directors' attendance availability.

5.3 Leadership and vision

The Board of Directors has strong leadership, vision and independence in making decision for the best benefit of the Company and its shareholders. Roles and responsibilities of the Board of Directors and the Management are clearly separated, i.e. the Management is responsible for compiling necessary information for the Board of Directors' consideration.

With a goal to ensure stable business with long-term sustainability and success, the Board of Director, in cooperation with the Management in reviewing and ensuring that vision and mission best address the changing environment, the business goals, business plan and budget are prepared by taking into consideration the maximum added value and long-term stability of the Company and its shareholders. The Board of Directors also directs the business and ensures that the business operation is efficiently executed by the Management.

The Board of Directors encourages good corporate governance within the organization and formulates good corporate governance practice, code of ethics, measures and approval procedure of connected transactions between the Company and related parties or persons who may have conflict of interest, as well as clearly separates the authority of shareholders from that of the Board of Directors, also that between the Board of Directors and the executives and other committees, in order to balance the power, and each other shall be independently examined.

5.4 Conflict of interest

The Board of Directors shall consider connected transactions that may cause conflict of interest between shareholders, directors and the Management, with best prudence, integrity, reasonableness and independence within good business ethic framework. It also discloses complete information for the best benefit of the Company. The Board of Directors shall strictly conform to the criteria and procedures or regulations set by SET whereby the Audit Committee shall provide information about the necessity and appropriateness of such transaction.

The Board of Directors has formulated measures and approval procedure of connected transactions between the Company and its subsidiaries or persons who may have conflict of interest. The persons who may have direct or indirect conflict of interest shall not be allowed to make decision on the matter. The Audit Committee is required to participate in the consideration and provide opinions on the necessity and reasonableness of the items proposed for the best benefits of the Company. The connected transactions are also required to be disclosed in the Notes to the Financial Statements prepared by using the generally accepted accounting principles published in the Annual Report.

5.5 Business ethics

The Board of Directors has prepared the Management and Employees' Code of Conduct for the Company's Management and employees to use as guideline in performing their duties and to strictly and consistently implement in terms of business operations, equitably with fair treatment towards stakeholders, including the matters related to conflict of interest, information confidentiality and possible fraudulent use of information, bribes, and gifts, including the anti-corruption. In this regard of the Code of Conduct, the Board of Directors assigned the Internal Audit Department to monitor and audit the implementation.

The Board of Directors itself intends to monitor and ensure that the Company's business operation, directors' ability to perform their duties, the Management's operation, and employees' work are within ethical framework in addition to the Company's regulations and related laws.

The Board of Directors has also formulated a policy requiring directors, executives and employees who are involved with inside information to avoid or not trade the Company's shares 1 month before the significant information, such as financial information which may affect the Company's share prices, is disclosed to the public.

5.6 Power balance of non-executive directors

The structure of the Company's Board of Directors comprises the Chairman who is an independent director and non-executive director, 4 independent directors, 3 non-executive directors and 4 executive directors, totaling 11 persons. The balance of power by non-executive directors is 64% which is over half the Board of Directors.

5.7 Integration or segregation of positions for managerial balance of power

The Board of Directors clearly divides scopes of roles and responsibilities among the Board of Directors, Executive Committee, Audit Committee, Nomination Committee, Remuneration Committee and Risk Management Committee, as well as the Chief Executive Officer with a clear stipulation that the Chairman of the Board of Directors shall not be the same person as the Chairman of the Executive Committee or Chief Executive Officer and shall not have any relations with the Management, in order to prevent any executive to have unlimited power, and the managerial balance can be checked.

5.8 Committees

The Board of Directors appointed committees to assist it in monitoring and controlling the operations, as well as screening the assigned tasks. Roles, authorities, duties and responsibilities are clearly set. At present, there are 4 committees, each with different roles and scopes of responsibility, as specified in the Annual Report under Management Structure.

5.9 Roles and responsibilities of the Board of Directors

In the past year, the Board of Directors reviewed and approved significant operational matters and directed the Management to efficiently implement the policies and plans, including to effectively managing the budget.

Further to the Board of Directors having stipulated and approved the written good corporate governance policy, a review is to be made at least once a year.

The Board of Directors provided and distributed the Code of Conduct in writing to the new directors, executives and employees; and reviewed other ethics for the existing directors, executives and employees to understand ethical standards applied to its business operation. The Board of Directors assigned the Internal Audit Department to closely monitor the execution of such Code of Conduct.

The Board of Directors, having carefully studied and considered conflict of interest and connected transactions which may cause conflict of interest to the Company taking into account the shareholders' best benefits, found none of such items.

The Board of Directors provided a financial statement control and regulations implementation. The Internal Audit Department independently performed its duty in monitoring the implementation of these regulations as well as the control measures. It is at least once a year to review such control.

5.10 The Board of Directors' meeting

The Board of Directors convened at least 4 times a year and arranged the meeting in accordance with the Company's rules, the Public Limited Company Act B.E. 2535, and SET's regulations. The Chairman of the Board of Directors, in the capacity of the meeting chairman, would promote prudence in any consideration; provide sufficient time for the Management to present significant information and for directors to discuss the matter. Meeting minutes for every meeting was made for future reference and checking. It is the duty of the Board members to attend every meeting, except for a certain unavoidable case.

At the meeting of the Board of Directors of the beginning of the year 2018, the Company Secretary prepared meeting agenda and schedule for whole year for the Board of Directors to be able to schedule their time for the meetings.

In considering the number of meetings, the Board of Directors considered the duty and responsibility of the Board of Directors. The Company Secretary shall prepare the whole year meeting agenda and matters to be considered in each meeting in order to provide sufficient detailed information for the Board of Directors. For example, in the March meeting, the Board of Directors shall approve the annual financial statements, and schedule the annual general shareholders' meeting as well as set the date of the closing of the Company's registration book to suspend the share transfer, while the meetings in May, August and December are scheduled for reviewing and approving financial statements for the first, second and third quarters, then the December meeting is organized to consider budget for the following year.

In each meeting, the Company Secretary provided the agenda and related information and distributed them to the directors as soon as possible prior to the meeting.

The meetings were strictly held in compliance with the Company's rules and regulations, and the Public Limited Company Act B.E. 2535. The directors were given opportunity to discuss carefully the important problems. The Company Secretary and legal advisors attended the meeting and prepared the recording, so as for the minutes of the meeting, which included also the directors' questions and recommendation in the meeting for future reference and cross-checking.

In each meeting, the Chairman of the Board of Directors would conduct the meeting to last for 1-2 hours, which was sufficient for the Management to present the matters for consideration and for the directors to carefully and equally discuss the important issues. The Chairman of the Board of Directors encouraged the attending directors to use their best consideration. The Chairman also asked whether there was any question or other opinion on each issue of the agenda in every meeting.

5.11 Self-Assessment of the Board of Directors

For year 2018, the Company Secretary has prepared the "CG Self-Assessment for year 2018", and submitted to individual directors for considering his/her achievement and for resolving problems individually, as well as for the work efficiency improvement.

5.12 Remuneration for directors and executives

In 2018, The Nomination and Remuneration Committee resolved, in accordance with the scope of duty and responsibility assigned and at the same range as that offered to directors in listed companies of similar size and in the same industry, and also the Company's performance, business environment and economy as a whole, to propose to the Board of Directors and to the Shareholders in the Annual General Shareholders' Meeting to approve the total amount of the Directors' remuneration 2018 same as rates 2016 year.

5.13 Directors and executives development

The Board of Directors encouraged and provided the training courses to develop and educate the Company's directors and members of committees so as for the continuous improvement in performing their tasks.

The Company Secretary prepared Directors' guidebook with criteria on information disclosure, profile, shareholdings, changes in shareholding of directors, etc. and distributed to new directors. The secretary shall also invite new directors to visit the Company's plant to introduce to them the hot rolled coil business as well as the Company's business operations.

The Board of Directors has stipulated that the Chief Executive Officer and Presidents prepare a regular report for the Board of Directors to update on the development and succession plans in case they could not perform their duties.

The Board of Directors, in parallel to the succession plan, implemented the executive development plan by assigning the Chief Executive Officer to report progress of executive development plan undertaken during the year.

In 2018, details of Directors' attendance of training are as follows:

No.	Name and Position	Course	By Organization
1	Mr. Chainarong Monthienvichienchai, Chairman of the Board of Directors	Role of the Chairman Program (RCP 43/2018)	Thai Institute of Directors (IOD)

No.	Name and Position	Course	By Organization
2	Mr. Yanyong Kurovat, Director	Boardroom Success through Financing and Investment (BFI 4/2018)	Thai Institute of Directors (IOD)
3	Ms. Soontareeya Wongsirikul, Director and Chief Financial Officer	Strategic Financial Leadership Program (SFLP) 2018 Ethical	Thai Listed Companies Association
4.	Mr. Richard Jim Yee	Director Accreditation Program (DAP) (146/2018),	Thai Institute of Directors (IOD)

Risk Factors

Production Risk

Risk factors to the Company's business that may materially affect its rates of return while its risk prevention guidelines can be summarized as follows:

Risk of Local Scrap Procurement

The scrap is the major raw materials for production of steel which company gets from both local and import sources. The local scrap was consumed at around 25 to 35% of total RM consumption depending upon process requirement and its availability. The company has a plan to buy a good quality of local scrap by expanding the vendor base of reliable and reputed supplier having own yard and processing facilities. This process will reduce the risk of non-availability and improve the reliability both in terms of quality. This is a continuous improvement effort from the company to mitigate the associated risk.

Import Scrap and Pig Iron

Risk

- Price and quantity depend on the world market situations affecting cost of production at times.
- The order must be placed 2-3 months in advance to maintain consistency in availability so there are risks on price fluctuation at the time of cargo arrival at the mill.
- The transportation sometimes takes over 30 days due to long voyage.
- Late delivery can be occurred affecting consistency in availability..
- There are possibilities of quality issues, weight loss, variance in specifications, etc. which gets found at the time of cargo arrival which leads to the claims/compensation

Protective and Corrective the Risk

- Tracking global market and follows up closely with the potential scrap suppliers/sources.
- Having optimum inventory for production with a focus on total cycle of procurement.
- Sourcing new reliable suppliers continuously including from new suppliers in nearby counties to leverage the transportation duration and can have less safety stock.
- Coordination with concerned agencies maintained in case of delayed delivery so that the readjustment of RM usage can be done in order to avoid stop production.
- Setting the safety stock level in order to avoid delay delivery or over stock.
- Specifying the claim conditions and compensation clearly in the sales/buying contracts.
- Stringent quality checks.

Risk of logistics management

The fuel price is one of the factors affecting transportation cost for delivery of the products to the customers and also operations for raw materials. Therefore, the company uses the transportation agencies by signing the long term contracts with more than one transportation companies. The price fluctuation is taken care by defining the price band with fluctuation of fuel prices.

Risk of Marketing and Distribution

Risk from product price volatility during the business downturn

Since the Company's products are used by related industries such as pipes and other infrastructure construction, the characteristics of which include upturn and downturn cycles, therefore, demands and prices of the Company's products will vary accordingly. Since this may affect the Company's future profit especially during the downturn, pricing volatility may affect its revenues in different periods and this could negatively affect its business, financial conditions, operation results, etc.

Besides, the Company's hot rolled coil can be used in several other industries. For example, cold rolled steel can be used in an automobile industry while galvanized steel and plates are widely used in various industries. However, with the Company's production efficiency and competitiveness, it expects that during the downturn where demands are less, it will be able to produce wider range of value added steel and also part quantity for exports. Company has already developed its export markets and would be expanding further..

In addition, the governmental supportive policies to enhance the domestic steel industry also is a welcome steps to mitigate part of the risks. These measure helps in reducing import of hot rolled coils and the gradual improvement on the domestic prices at optimum level.

All efforts are made by the company to neutralize the impact of lowering in price due to volatility in the market by optimizing purchase cost of RM, reducing cost of production, etc.

Financial Risk

Risk on foreign exchange fluctuation

The fluctuation of foreign exchange can directly affect the Company's cost and profit and loss as most of main raw materials, which are scraps and pig irons, were imported from overseas and paid in US Dollar, while the income is in Thai Baht. Even though the Company does not enter into hedging, forwards contracts, this risk is moderate as the selling price is referred to the world market price quoted in US Dollar. In addition, the Company started to do some export to other countries in US Dollar, this can also lowering the exposure of foreign exchange risk to the Company.

However, the liabilities of the Company in US Dollar is 5-year long term loan which the repayment is in the fourth and fifth year of the loan, thus, the foreign exchange fluctuation only affects in term of accounting basis, it does not affect the actual cash flow of the company.

Risks Concerning Environment and Personal

Risks from possible polluting production

The Company runs an industrial business of hot-rolled steel production, consisting of melting, casting and hot-rolling processes, which may cause pollutions in forms of air contamination, water contamination with metals, and the temperature of water outflows from the production line, high noise level etc. The Company has the protection systems for air pollution with dust collection system before discharging to the environment, water treatment for the cooling towers to treat the metals contaminated into the water outflows from the cooling towers. However, the said water outflows have not been disposed outside the plant, but reused in showering the hot metal slag and all evaporated into the air. Trees have been grown in a zigzag pattern round the plant area as barriers to dust and noise. The said protection measures have currently complied with the environmental laws and requirements. Anyhow, the Company is exposed to the risk of missing detection of some pollution that may damage the environment, thus may lead to the Company's increase in expense of improving the damaged environment, or the Company's increase in the pollution detection and control to be compliant with the possibly more strict laws or requirements in the future, thus may incur The Company higher expenses. These also include any possible expenses from prosecution(s) on the discharged pollutions that the Company cannot reduce.

Moreover, the Company has appointed an environmental-specialized firm to inspect the plant's environment quality every 6 months by EIA requirements, and continuously presented the inspection reports to Office of Natural Resources and Environmental Policy and Planning, Department of Industrial Works, Industrial Estate Authority of Thailand, and Department of Primary Industries and Mining; the Company is thus certain that no troubles would arise from the said environmental matters.

Risks from business operations that may cause harms to the employees

The Company has run a heavy industry business that may cause harms to its employees from the melting, casting and hot-rolling processes, and transportation of heavy materials, so these may incur the Company higher expenses in prosecutions on claims for the injured, including fines, which may impact the Company's business, financial position and performance in the future.

The Company, however, has had Emergency Plan and Measures for Workplace Safety up to standard as accepted by the government agencies and private organizations concerned, as well as the certificates for OHSAS 18001 standard on the prevention or mitigation from the risks to accidents at work, illness due to work . Based on the past records, the Company's accident rates have been low since establishment, and there has been no claim on infringement to its employees.

Risks related to public policy and the relevant regulations.

Risks from Free Trade Agreement (FTA), which covers hot rolled steel products

Thailand is obliged to comply with the following steel trade agreements:

- The Japan-Thailand Economic Partnership Agreement (JTEPA) ended at the end of 2016, allowing Japan to export hot rolled steel products to Thailand without further quota restriction and import tariff has been reduced to zero since January 1, 2017 which affected the market opportunities and sell volume of the company.
- In addition, the Free Trade Agreement “ASEAN and China”, “ASEAN and Hong Kong”, “ASEAN and South Korea” and other free trade agreements. Currently, there is a requirement to exempt import tariff (zero) for other alloy steel products, stainless steel, high-speed steel and silicon steel for electrical works in coil, sheet and plate (which are not sufficiently produced for domestic demand) from the partner countries since the end of 2009 resulted in the exemption of import tariffs favoring producers and exporters from the partner countries intend to export to Thailand increasingly. The importation of other alloy steel products such as boron or chromium or other additives have increased steadily to compete with hot-rolled steel (Carbon steel) that can be produced domestically.
- The risk of free trade agreements (FTAs) covering hot rolled steel products and the risk from Unfair trade can be managed, controlled and mitigated by requesting the government to apply trade interests and remedies measures. Currently, Thailand has two applicable laws as follows.

1. Risk management by using Anti-dumping and Countervailing measures under the Anti-Dumping and Countervailing Act, 1999

Hot Rolled Steel Industry is a basic commodity for the development of the country and there are many large manufacturers around the world. So, under intense competition in the free trade world especially during the ongoing economic downturn for many years, the producers are struggling to survive by export the excess products to other countries in forms of price-dumping (ie, export selling price is cheaper than local selling price). As a result, the market price mechanism in importing countries has been distorted. It can be said that it destroys the market of domestic industry and leads to unfair competition. Therefore, anti-dumping policy is an important measure to alleviate the damage of the domestic steel industry and make fair trade to all parties.

In addition, the importers have been trying to circumvent from the anti-dumping measures to avoid paying additional anti-dumping duties on regular import tariffs. Make the measures ineffective and inefficient. Moreover, the countervailing measure is still lacking the sub-law so that cannot apply the measure at the moment.

The Department of Foreign Trade has proposed the amendment of this law to be effective enforcement by:

- Expand the scope to cover and prevent the circumvention of anti-dumping and countervailing measures.
- Increased the measures to control and collect anti-dumping and countervailing duty to be more effective.
- Legislation of sub-law for countervailing measures.

For Thailand, The Ministry of Commerce has implemented anti-dumping measures for hot rolled steel flat products as follows:

- Extension of anti-dumping measures for hot rolled steel flat products originating in the People's Republic of China and Malaysia for further 5 years, effective from June 23, 2017 to June 22, 2022.
- Extension of anti-dumping measures for hot rolled steel flat products - *boron added* originating in the People's Republic of China for a period of 5 years, effective from December 13, 2018 to December 12, 2023.
- Extension of the anti-dumping duty for hot rolled steel flat products imports from 14 countries for a further 5 years, effective from May 23, 2015 to May 22, 2020.
- Anti-dumping measures for hot rolled steel flat products originating in the Federal Republic of Brazil, Islamic Republic of Iran and the Republic of Turkey for a period of 5 years, effective from May 16, 2017 to May 15, 2022.
- Submitted an application to Department of Foreign Trade to consider the imposition of Anti-dumping measures for hot rolled steel flat products originating in Australia and Arab Republic of Egypt. DFT has launched its anti-dumping investigation and announced in the Royal Gazette on November 29, 2017. Later in November 7, 2018, DFT issued a draft of final result to terminate the investigation for such measure and arranged the public hearing to receive comments from stakeholders on November 27, 2018 to gather feedback for consideration prior to the announcement in the Government Gazette.

The use of anti-dumping measures by the government has resulted in a significant reduction of trade problems caused by dumping. Therefore, it can also support and protect local hot rolled steel industry from unfair trade.

Meanwhile, the company continues to monitor the dumping situation or in other ways that may arise from other countries to prevent the unfair trade that may occur to the hot rolled steel market in Thailand.

2. Risk management by using Safeguard Measures

Over the years, after the government has imposed anti-dumping measures, the imports price of hot rolled steel flat products have increased overall and are more difficult to import. Importers and exporters have changed their import patterns by trying to find a way out of enforcing anti-dumping measures by imported other alloy steel instead by adding only a small portion of alloy on the surface that is possible to change the Harmonized Code for imported or imported hot rolled steel

flat products with a width of more than 1,550 mm. This would result in the avoidance of current anti-dumping measures and also benefits from the reduction of import duties under the FTA as mentioned above. Imports of such products have increased steadily in recent years. This is a major cause of the impact on the domestic hot rolled steel manufacturers as well as the company. Therefore, the company has cooperated with other hot rolled steel manufacturers in the country filling a request to The Ministry of Commerce, consider of such effect and consider introducing safeguard measures to protect against increased imports to address the problem. At the moment, Ministry of Commerce has imposed safeguard measures for hot rolled steel flat products as follows;

- Safeguard measures for hot rolled steel flat products with alloy (Coil, Sheet, and Plate). Effective since February 2013 for a period of 3 years and has expired at the end of the February 2019 and renew the measure for another 3 years, it will continue to impose from February 27, 2016 - February 26, 2019.
 - In addition, the company cooperated with other local manufacturers submitted an application to Department of Foreign Trade to consider the extension of Safeguard measures for hot rolled steel flat products with alloy (Coil, Sheet, and Plate) for another 3 years (2019-2021). Later in January 11, 2019, DFT issued a draft of final result to terminate the extension for such measure and arranged the public hearing to receive comments from stakeholders on January 29, 2019 to gather feedback for consideration prior to the announcement in the Government Gazette.
 - Although the company is at risk of termination of Safeguard measures for hot rolled steel flat products with alloy (Coil, Sheet, and Plate), the company and other domestic manufacturers have worked together to track the progress with Ministry of Commerce in order to issue the counter measures to circumvent from the anti-dumping measures and subsidies (*Anti-Circumvention and Countervailing duty*) to replace the safeguard measures which will be expired end of February 2019. Once the AC and CVD are effective, domestic industry are able to apply counter-measures to those circumvent products from China under anti-dumping measures for hot rolled steel flat products - *boron added* originating in the People's Republic of China. Thus, this can reduce the amount of imported HRC alloy from China that circumvents the import tax and AD duty.
- Safeguard measures for hot rolled steel flat products with non-alloy (Coil, Sheet, and Plate - Width > 1,550 mm.). Effective from June 2014 onwards for a period of 3 years, and extended the measure by end of June 2016 for another 3 years, it will continue to impose from June 7, 2017 - June 6, 2020.

The safeguard measures have contributed to help hot rolled steel industry in Thailand. It also alleviates the problem and help domestic manufacturers to adjust to compete with imported products.

Risks from price control by the government

Throughout the year 2560, hot rolled steel product is one of many items controlled by the Ministry of Commerce. In practice, it tracks the volume and price movements of domestic products. The company also cooperated with the Department of Internal Trade to provide information on products and prices. In case of each hot rolled steel manufacturer including the company would like to adjust the price of the product, must informing the Department of Internal Trade and provide all the details as requested or in case of Ministry of Commerce applies price fixation measure for consumer goods or commodities. This may affect the ability to generate revenue and profit slightly some time in the future. It can be said that the company has low risk in price control by the government.

However, when the company needs to raise prices to the required level, the details of raw material cost and production cost can be clarified in line with the actual sales price, which is reasonable and can be further increased.

Risks from government policies that affect business operations and revenues of the company

The Company operates in the steel industry, a major industrial base of the country. There is an enormous amount of investment and have hundreds of employment rates. Therefore, government policies may affect the operation or performance of the company.

ยุทธศาสตร์การพัฒนาอุตสาหกรรมไทย 4.0 ระยะ 20 ปี (พ.ศ. 2560 - 2579)

รูปที่ 1-7 การปรับโครงสร้างอุตสาหกรรมไทย

Source: Ministry of Industry

In October 2016, the Government announced the Strategic Plan for Thai Industrial Development 4.0 for a period of 20 years (2017 - 2036), targeting the future development of Thailand’s industry by focus on Group 1, First S-Curve and Group 2, New S-Curve. However, the steel industry is in the third group (industries that should be reformed) which are high investment and difficult to change technology in production.

Therefore, the company and other steel manufacturers are necessary to reduce the risk by joining with building materials cluster, Machine cluster and the automotive cluster because steel is the raw material of these target industries. In order to reduce the risk of business operations that may be affected by the policy and to allow the steel industry for further development.

However, the Company is promoted by the Board of Investment and protected under the anti-dumping measures and safeguard measures. Therefore, the company may have a risk from business operations that may be affected if the government changes its policy. The company expects that changes in the policy regarding the Board of Investment will not affect the business operations because the company has already received the promotional certificates and is currently effective.

For anti-dumping measures, it is a policy that the government may consider canceling if there is justifiable reason but Ministry of Commerce is focusing on the steel industry, which is the basic industry of the country and providing assistance when the industry is facing problems. Therefore, the company believes that there is no risk in cancellation of anti-dumping measures in the future. However, the company has the potential to produce standardized products which able to compete with competitors in the market in case of fair trade competitive.

General Risks

Risks caused by disruption in operations due to uncontrollable factors

The Company might face the business risks caused by several uncontrollable factors, such as major breakdowns, industrial accidents, technical problems and faults, sabotage, natural disasters and terrorism,.

Though the above factors were uncontrollable, the Company was confident in protection and solution to restrain the problems from leveling up so much as to result in significant loss of revenue by, for instances, regular trainings for the employees to be skillful and specialized, continuous training for them with knowledge to safely operate the equipment and machines, as well as the security serviced by both the Company's employees and a hired professional security firm in charge and strictly monitor the entrances and exits 24 hours a day. And the Company has been insured for the losses of or damages to the properties in case of actions with bad will and all natural disasters. In the Labor Relations Committee, the Company has involved committee members from the employees' side and the employer's side, as well as the Corporate and Social Responsibilities Committee, as representatives who have taken care of the employees' proper and fair working conditions and welfares.

Supply of natural gas, oxygen and power are also sensitive to price escalation having impact on cost of production for the company for which company enters in long term contract with suitable escalation formula.

Risk Regarding Corruption

Risks caused by disruption in operations due to uncontrollable factors

The Company carries on the business of manufacturing and distributing Hot Rolled Coil both domestically and internationally, the factory located in Chonburi Province. By the nature of operations causing the company to contact the government agencies, accordingly such contact may result in a risk regarding corruption, such as payment of facilitation charges, payment of moneys to or calls for moneys by government officials in the case where the Company might have acted improperly or needs urgency etc., or a risk that may result from dishonest acts relating to cash or property, purchases or procurement, payment of salaries or labor fees, revenues and expenses included the information technology system. The Company has set up a risk management committee to make assessments and analyses and formulate measures to manage the risk in terms of both business and corruption and has also made available an efficient and effective system of internal control and audit.

Moreover, the Company has been certified as a member of the Thailand's Private Sector Collective Action Coalition against Corruption (CAC) by the Thailand's Private Sector Collective Action Coalition against Corruption. This certification indicates its determination and intention to resist all forms of corruption and has prepared an anti-corruption policy, determining responsibilities and guidelines for appropriate action against corruption in all activities, and communicated the policy to directors, management, employees and both internal and external stakeholders so that it serves as guidelines for mutual practice of business with transparency.

Internal Control and Audit System

Internal Control

The Company have to provide the assessment of adequacy of internal control system, comprising the 5 sections: 1. Control Environment, 2. Risk Management, 3. Control Activities, 4. Information and Communication, and 5. Monitoring Activities. The Company's Board of Directors deems that the Company provides an adequacy of Internal Control. There is also has the Risk management Committee to review the system and evaluate the effectiveness of risk management throughout the year.

The Company not only has had sufficient internal control on its transactions related to the major shareholders, directors, executives or their related parties, but also its Board of Directors have encouraged the management to continuously improve the quality of the internal control to strengthen Good Corporate Governance.

The Risk Management Committee prepared an Assessment of Adequacy of Internal Control Questionnaire for the year 2018 to be responded by the Company's management, and was already reviewed by The Audit Committee.

Assessment of Adequacy of Internal Control System

The Board of Directors considered the assessment of the Company's adequacy of internal control for 2018, as described under of the following 5 sections:

Section 1 Control Environment

The Company's Board of Directors were responsible for directing the Company's business operations, setting business targets for short term (1 year), medium term (5 years) and long term (10 years), along with annual budgeting process, with periodical follow-ups, and also reviews or revisions on the business plan during the implementation in accordance with the situations over time, meanwhile brought to the Board of Directors for consideration and approval.

The Board of Directors has considered setting the target on the operations with circumspection and review that it can comply with the actual targets by analyzing the incentive and remuneration for its employees to be justified.

The Company has clearly defined its organizational structure, separating the administration into two parts, which are the production and maintenance functions, and the support functions, for the management's convenience and optimal efficiency in operations.

In 2018, the Company revised the Company's Business Code of Conduct, which laid out the ethical policy and business code of conduct and with regard to ethics for the management and employees to be prohibited from actions that would cause any conflicts of interest with the Company and its business partners, including establishing policies and practices guide in anti-corruption according to the company has adoption to the Thai Institute of Directors as a member of the Private Sector Collective Action Coalition against Corruption Program as well as the determination of penalties for violations.

The Company has made out the concise written policy and work procedures concerning financial transactions, procurement and general administration that have prevented frauds, also with authorization limits clearly stated.

The Company has continuously developed the information systems as a tool to control possible frauds as well.

To lay out the policy and action plans, the Company has taken fair treatment to the business partners into consideration, by stating the policy and practical principles in the Company's Business Code of Conduct for the management and employees to keep good relationship with all business partners, as well as a measure on treating the business partners honestly, equally, keep confidentiality, and prohibited to receive gifts from the business partners.

Section 2 Risk Management

The Company stipulated that the Management to have a meeting every week. Management of each area will present operation performance together with problem and risk facing in order to find solution and prevention

The Risk Management Committee will analyze and report progress of characteristics of risk and direction of risk management to maximize benefit to the Company.

The Risk Management Committee stipulated measures to appraise the efficiency of risk control in various areas and to reduce possible risks that may affect the Company's operation.

The Risk Management Committee has defined the Annual Risk Management Plan and assigned the Management to proceed with the actions in accordance with the Plan and then report back to the Risk Management Committee.

Section 3 Control Activities

The Company clearly separated the responsibilities of each function with work flow provided, clearly reviewed the regulation on approval authorization in financial and operational matters for the Management to manage the operations with most efficiency. The Company is aware of the importance of a good system of internal control because the good system will be well able to help prevent, administrate and manage a variety of risks or damages which may occur to the Company and its stakeholders.

The Company has determined the measure and procedure for related transactions, and the policy for conflicts of interest altogether in the codes of conduct for the management and employees, with assigning the internal audit department to continuously perform audits and report direct to Audit Committee. Moreover, the Company prohibits any interested parties from approving transactions that would lead to conflicts of interest. In decision making to approve any transactions, the Company mainly viewed the most benefits in a long run. If any transactions were likely to cause conflicts of interest, they had to be reported to Audit Committee or brought to Audit Committee for opinions, as the case may be.

The Company followed up the actions to be taken under the bound contracts and agreements continuously. The Company has had the measures to keep its operations in conformity to the laws to minimize its business risks by employing an external specialized legal counsel to help review documents and give consultation on several proceedings. The Company also has internal audit department to perform audits based on the rules, regulations and laws concerned.

Section 4 Information and Communication

The Company gives importance to the quality of information and communication systems that are crucial support to efficient internal control performance, with the following administrative guideline for information system:

In the Board of Directors' Meetings, Secretary to the Board and the management prepared documents and details of the important agenda for Board of Directors' consideration in advance as information for decision making. And if there were additional details afterwards, the Company provided them as supplemental meeting materials sent to the Board of Directors before or on the day of meeting.

The Company sent the Board of Directors' Meeting invitation letters and the minutes of the previous meetings together with the meeting materials to the Company's Directors for their information each meeting in advance, on average 7 days prior to the day of meeting.

The Company made out minutes of the Board of Directors' Meetings, recording the significant information as well as suggestions, comments and objections (if any), and brought the minutes to the Board of Directors for acceptance in the following meetings. Chairman of the Board gave chances to the Directors to independently rectify or add contents to the minutes.

The Company arranged storing places for accounting entries documents and important documents by category

The Company has applied the accounting policy of Generally Accepted Accounting Principles, under the control and audit by external certified auditors.

The Company has had proper internal communication systems and channels. In addition, the Company has provided the external interested parties with communication channels via its website and e-mail.

Section 5 Monitoring Activities

The management reported the performance results to Executive Committee and the Company's Board of Directors every quarter. In addition, the Company prepared the annual budget for the following year, and would use it as benchmark for the performance appraisal and make systematic comparative analysis report to the Board of Directors.

The Company arranged management meetings weekly to follow up operation results and comparison with the targets and discuss the ways for corrective actions in case the targets were not achieved. Moreover, the Project Committee was appointed to support the Company's targets aiming at development of the operational systems to control the operations as targeted.

The Company arranged for audits on conformity to the established internal control system regularly by the internal audit department making a yearly audit plan that covered finance, operations and the actions taken under the regulations and laws concerned to evaluate efficiency and effectiveness, and also to audit the conformity to the existing internal control system.

The audit result report and progress report. The internal audit department was assigned to report direct to the Audit Committee, follow up and evaluate the significant corrective actions in order to present to Audit Committee and the Board of Directors.

The Company has a policy that its management to have duty and responsibility to report to the Board of Directors regarding the decisions made that significantly affected or might affect the Company's reputation and financial position, including the problems found, such as frauds or illegal actions.

Related Transactions

The Company has transactions with person who may have conflict of interest for related transactions are transactions with the shareholders and/or the management of the Company that can summarize the relations as follows:

Name of Company and Person who may have Conflict of Interest	Nature of Relationships
G Steel PCL (“G Steel”)	Parent company
Oriental Access Co., Ltd. (“OAC”)	Subsidiary of G Steel
Siam Professional Holdings Co., Ltd.	Subsidiary of G Steel
GS Securities Holdings Co., Ltd.	Subsidiary of G Steel
GS Notes Holdings 2 Co., Ltd.	Subsidiary of G Steel (registered the dissolution of the company on 22 September 2017)
Asia Credit Opportunities I (Mauritius) Limited	Since 21 September 2017, major shareholders which is a wholly-owned subsidiary of SSG Capital Partners III, L.P.
Link Capital I (Mauritius) Limited	Since September 21, 2017, Related party which is a wholly-owned subsidiary of SSG Capital Partners III, L.P. (“SSG III”)
SSP Place Co., Ltd.	Common executive
Asia Metal PCL	Common shareholder and director of G Steel
Panichsawad Co., Ltd.	Directors related to major shareholders of G Steel
Arnoma Hotel Bangkok Co., Ltd.	Common director and executive
Felix River Kwai Resort (Kanchanaburi) Co., Ltd.	Common executive
Mahachai Steel Center Co., Ltd.	Related party of the shareholder of G Steel
Metal Inter Co., Ltd.	Related party of the shareholder of G Steel
M & L Steel Co., Ltd.	Related party of the shareholder of G Steel (registered the dissolution of the company on 23 April 2018)
The Steel PLC.	Related party of the shareholder of G Steel
Liberty Steel Siam Co., Ltd.	Related party of the shareholder of G Steel

Related transactions in 2018 and 2017 as detail below:

1. Transaction with G Steel PCL

Characteristics of the Transactions	Size of Transaction/Balance (Million Baht)		Necessity and Justification of the Item

Management's Discussion and Analysis

The company's net loss amounted to THB 836 million and net profit amounted to THB 990 million for the years 2018 year 2017 in respectively, and its earnings before interest, taxes, depreciation and amortization (EBITDA) for the years 2018 and 2017 amounting to THB 612 million and THB 1,062 million respectively, due to:

- Sale volumes (Coil tons) and production volumes in year 2018 were significantly higher than last year due to the Company entered the Tolling agreement with G Steel for producing of HRC to increase the normal capacity during off peak power usage commencing in 4th Quarter of 2017 till to present, which can demonstrate as the following:

	Year 2018			Year 2017		
	Own production	Tolling	Total	Own production	Tolling	Total
HRC Sales (k tons)	805	642	1,447	764	48	812
HRC Production Volume (k tons)	808	629	1,436	786	90	876
HRC Average Selling Price (THB/ton)	20,617	20,722	20,663	18,591	20,247	18,690

- Increasing of HRC price: the average selling price of HRC in year 2018 was THB 20,663/ton, increased by 11% as compared with last year (THB 18,690/ton) according to HRC market price worldwide trend.
- HRC cash margin (excluding depreciation) in year 2018 was achieved at THB 886/ton, lower by 58% from last year due to the increase in the cash conversion cost which has increased by 18% from the last year which are mainly caused by the increasing price of graphite electrode and higher repair and maintenance cost.

Operating results

Revenue from sales and cost of sale of goods

The Company had total sales volumes and total production volumes were higher than last year mainly due to increased capacity according to Tolling agreement with G Steel during off peak power usage in year 2018.

The Company had revenue from sale of goods and profit margin for year 2018 of THB 29,910 million and THB 282 million in respectively whereas in year 2017 the Company had revenue from sale of goods and profit margin of THB 15,178 million and THB 859 million in respectively.

Selling Expenses

Selling expenses for year 2018 and 2017 amounting to THB 362 million and THB 185 million respectively. The increase is mainly due to increased volume and delivery charge per ton was recorded at the same level.

Financial costs

The Company had the financial costs for the year 2018 and 2017 amounted to THB 475 million and THB 271 million in respectively. The increased of financial costs of THB 204 million resulted from the Company had a short-term loan for purpose of increasing working capital commencing in 4th Quarter of 2017.

Net foreign exchange gain

The Company had a net gain on foreign exchange for year 2018 amounted to THB 105 million derived from the strengthen of the Thai Baht against the US dollar.

Net gain from write-off expired legal prescription of debts

The Company had a net gain from write-off expired legal prescription of debts for year 2018 amounted to THB 119 million according to the resolve approval from the Company's Board of Directors on 9th and 19th November 2018.

Statement of financial positions

Assets

As of 31 December 2018, the Company has total assets amounted to THB 18,824 million which decreased from the year ended 2017 by THB 721 million. From the total assets divided into the current assets amounted to THB 4,438 million, increased by 1% from the year ended 2017 and total non-current assets amounted to THB 14,386 million, decreased by 5% from the year ended 2017. The increase in current assets mainly derived from the increasing in inventories of THB 582 million and partially offset with the decrease in cash & cash in banks and other current assets whereas the decrease in non-current assets mainly due to the depreciation for property, plant and equipment.

- **Cash and cash equivalent**

At the end of year 2018 the Company had cash and cash equivalent of THB 201 million which 65% below from the year 2017. This caused from the Company had net cash inflows from operating activities of THB 835 million, net cash outflows from investing activities of THB 81 million, and net cash outflows by financing activities of THB 1,130 million resulting in decrease of cash and cash equivalent.

- **Trade accounts receivable**

Whereby as of 31 December 2017 it had trade accounts receivable of THB 450 million with deductions in the allowance for doubtful accounts of THB 417 million, the net trade accounts receivable remained at THB 33 million. The net trade accounts receivable was reduced by THB 19 million in this year mainly due the Company was monitoring debt for other trade accounts receivable not to exceed credit terms in regular.

- **Inventory**

As of 31 December 2018 and 2017 the Company had inventories amounted to THB 3,861 million and THB 3,279 million in respectively, which increased by THB 582 million due to in Q4 - 2018, the demand of HRC was relatively low, therefore causing productions and sales to be slowed down and resulting to scraps to higher remain in the stock.

- **Other Current assets**

As of 31 December 2018 and 2017 the Company had other current assets of THB 268 million and THB 394 million in respectively, which decreased by THB 126 million due to the reduction in advance to suppliers for purchase of raw materials.

- **Property, plant and equipment**

As of 31 December 2018 and 2017 the Company had net property, plant and equipment of THB 13,839 million and THB 14,638 million in respectively, which decreased by THB 799 million, or 5% below due to depreciation for the year.

- **Other non-current assets**

As of 31 December 2018 and 2017 the Company had other non-current assets of THB 540 million and THB 523 million in respectively, which increased by THB 17 million due to an increasing in deposit payment for guarantee of electricity usage THB 33 million and an increasing in advance payment for purchase of goods THB 40 million partial offset with a decreasing in work roll THB 35 million and a decreasing in other deposits and cash seized for execution THB 21 million.

Liabilities

As of 31 December 2018 and 2017 the Company had total liabilities of THB 5,607 million and THB 5,492 million in respectively, which increased by THB 115 million or 2% below, due to:

- **Trade accounts payable**

As of 31 December 2018 and 2017 the Company had trade accounts payable of THB 2,033 million and THB 870 million in respectively, which increased by THB 1,163 million due to in late 2018 the Company had the contracts of imported scrap increasing.

- **Other payables and accrued expenses**

As of 31 December 2018 and 2017 the Company had other payable and accrued expenses of THB 719 million and THB 956 million in respectively, which decreased by THB 237 million due to the Company had repayment to some other payables and accrued expenses and some portion was causing from the write-off expired legal prescription.

- **Advance from customers**

As of 31 December 2018 and 2017 the Company had advance from customers of THB 33 million and THB 192 million in respectively, which decreased by THB 159 million due to late of 2018 the Company has a decreased in sales volume as compared to late of last year resulting to the advance from customers was reduced.

- **Short-term loan from related party**

As of 31 December 2018 and 2017 the Company had short-term loans from related party amounted to THB 1,239 million and THB 1,476 million in respectively, which decreased by THB 237 million due to there was a repayment of short-term loan in during the year.

- **Accrued interest expenses**

As of 31 December 2018 and 2017 the Company had accrued interest expenses amounted to THB 132 million and THB 201 million in respectively, which decreased by THB 69 million due to the Company had repayment to some accrued interest expenses.

- **Liabilities under the rehabilitation plan**

As of 31 December 2018 and 2017 the Company had debts under the business rehabilitation of THB 180 million and THB 204million in respectively, which decreased by THB 24 million. It was mainly due to the repayment had been made according to the debt compromise agreement and partial reduction from write-off expired legal prescription of debts.

- **Long-term loan from related party**

As of 31 December 2018 and 2017 the Company had long-term loan from related party amounted to THB 1,118 million and THB 1,479 million in respectively, which decreased by THB 361 million due to the Company had repayment long-term loan in during the year.

Equity

As of 31 December 2018, the Company has total equity amounted to THB 13,218 million decreased THB 836 million from year ended 2016 mainly due to the net loss for the year 2018 contributed.

Significant financial ratios

	As of 31 December	
	2018	2017
Liquidity Ratio		
Current Ratio	1.02	1.18
Quick Ratio	0.07	0.19
Cash flow from Operating Activity Ratio	0.21	(0.29)
Receivable Turnover Ratio	68	29
Days for Collection in Receivable Ratio	5	13
Inventory Turnover Ratio	23	16
Days for Sales in Inventory Ratio	16	23
Account Payable Turnover Ratio	20	10
Days for Payment in Debts Ratio	18	37
Cash Cycle	3	(1)
Profitability Ratio		
Gross Margin Ratio	1.90%	5.68%
Operating Margin Ratio	0.94%	5.65%
Non-Operating Income Margin Ratio	0.89%	6.69%
Cash Flow from Operating Activity Margin Ratio	295.83%	(150.99%)
Net Profit Margin	(2.77%)	6.09%
Return on equity	(6.32%)	7.05%
Efficiency Ratio		
Return on Assets	(4.36%)	5.30%
Return on Fixed Assets	1.11%	13.40%
Assets Turnover Ratio	1.57	0.87
Financial Leverage Ratio		
Debt to Equity Ratio	0.42	0.39
Times Interest Earned	2.76	(3.78)
Dividend Payout Ratio	-	-

In year 2018, the Company has the liquidity ratio results in a good liquidity management in some areas such as the selling policy mainly in cash and follow-up collection of debts from trade accounts in regularly, monitoring the production and selling plan that serves the needs of the customer and ordering raw materials with the suppliers who can provide credit term, etc.

- Current Ratio achieves greater than 1 which is fairly (the Company has the current assets greater than current liabilities)
- Quick Ratio achieves lower than 2017 due to the Company has the assets which can turn into cash in the low proportion as compared to the existing current liabilities.
- Cash Flow from Operating Activity Ratio improves over 2018 due to the Company has the cash inflow from the operating activities in year 2018 whilst last year the Company had the cash outflow from the operating activities.
- Account Receivable Turnover Ratio achieves higher value and Days for Collection in Receivable Ratio achieves low value due to the Company has a proper and improvement in sale management resulting to the account receivable turnover is high and the days for collection in receivable is also fasten.
- Inventory Turnover Ratio achieves high value and Days for Sales in inventory Ratio achieves low value due to the Company can sell goods more frequently and the number of days waiting for sales to drop, which indicates that the goods is marketable and the management of inventory is efficiency.
- Account Payable Turnover Ratio achieves high value and Days for Payment in Debts Ratio achieves low value due to The Company has a cash management to pay off debt in the number of rounds more often and a period of debt repayment has reduced.
- Cash Cycle achieves a low number of days, indicates that the Company still needs to manage and plan financially carefully.

Profitability ratio for the year 2018 compares with 2017 has been lower due to :-

- Gross Margin Ratio and Operating Margin Ratio is lessen, due to increase in electrode price, maintenance cost and in year 2018, the steel industry in domestic has received the impact from international trade war in between China and USA, combination with the slowdown in global economic growth from such trade war resulting in reduced HRD's selling price in late 2018.
- Non-Operating Income Margin Ratio is lessen due to in year 2017 there was a gain from restructuring debt for debt conversion to equity in total amount of THB 734 million.
- Cash Flow from Operating Activity Margin Ratio is higher due to in year 2018, the Company has cash inflow from operating activities of THB 835 million whilst last year the Company had cash outflow from operating activities of THB 1,296 million. This is mainly due to increase in trade account payables to purchase of imported scrap.

- Net Profit Margin and Return on Equity is lessen due to the Company get loss in year 2018, therefore it is worsen to net profit margin and return on equity is not good.

Efficiency ratio for year 2018 compares with 2017 has been lower due to:-

- Return on Assets and Return on Fixed Assets is lessen due to the Company get loss resulting to return on assets and return on fixed assets is worsen.
- Assets Turnover Ratio is higher due to in year 2018 the Company entered the Tolling Agreement in order to increase the production capacity available from G Steel, therefore it will impact the assets turnover ratio is high in year 2018. If excluding the revenue from sale of HRC – Tolling, then assets turnover ratio shall not different and will get at 1.18.

Financial leverage ratio for year 2018 compares with 2017 has resulted that the Company is low risk.

- Debt to Equity Ratio is at 0.42 whereas last year 0.39, which is not different from last year.
- Times Interest Earned is at 2.76 whilst last year (3.78) due to in year 2018 the Company has cash inflow from the operating activities that sufficient to reserve and pay the interest.

Cash flow in year 2018

The Company has a net loss of THB 836 million, after adjusting for non-cash items of depreciation expense and amortization of THB 994 million, net gain from write-off of the expired legal prescription of THB 119 million and net changes in operating assets and liabilities of THB 134 million, the Company has the cash inflow from the operating activities of THB 835 million.

In the year the Company has cash outflow from investment activities for purchase of fixed assets THB 81 million.

For the financial activities, the Company has cash outflow for repayment of short-term and long-term loan from related party of THB 591 million and payment of interest expenses of THB 532 million.

In the bottom the Company has net cash outflow in year 2018 of THB 377 million when combine with the cash in the beginning of THB 578 million, the Company has the cash balance at the year end of THB 201 million.

Commitments as of 31 December 2018 can summarize in below:

Commitments	Total	Payment in period			
		within 1 st year	in year 2 nd and 3 rd	in year 4 th and 5 th	in year 6 th onwards
Operating lease liabilities	9.65	5.77	3.60	0.28	-
Purchase contracts liabilities	1,851.35	1,509.88	141.30	141.30	58.87
Other commitment liabilities	178.70	178.70	-	-	-
Total	2,039.70	1,694.35	144.90	141.58	58.87

Factor effect to the future operation

As due to the Company has major imported raw materials for both scrap and pig iron from oversea, therefore there are major expenses in US dollar currency in which the exchange rate is uncontrollable factor. As a result, the exchange rate is the major factor effect to the future operation of the Company. In case of Thai Baht is devalued as compared to US dollar, then the production cost will be increased. However, the Company manages the risk of exchange rate by benchmarking the selling price with the world market selling price, which primary refers to US dollar. It likewise purchase and sell in the same currency which could reduce risk from exchange rate fluctuation in a certain level. Besides, the Company has the adaptation plan in respect of various projects aiming to reduce production cost in order to be able to competitive with the competitors and the importers. These projects are in the form of energy cost saving, increase efficiency as well as minimize loss in the production process, etc.

Audit Committee Report

Audit Committee Report

To the Shareholders of G J Steel Public Company Limited

G J Steel Public Company Limited's Board of Directors has appointed the Audit Committee consisting of three honorable independent directors as follows:

	Name	Position	Number of Attendance	Remark
1	Assoc. Prof. Niputh Jitprasonk	Chairman of the Audit Committee	5 / 5	Appointed on 29 Apr 2016
2	Mr. Stephen Karl Stewart	Member of the Audit Committee	5 / 5	Appointed on 30 Aug 2017
3	Mr. Yingsak Jenratha	Member of the Audit Committee	3 / 3	Appointed on 26 Jun 2018
4	Dr. Narumon Saardchom	Member of the Audit Committee	1 / 1	(Resigned on 2 Apr 2018)

The duties of the Audit Committee have independence in performance of duties as assigned by the Board of Directors. The scope of duties includes review of financial statements, review the internal audit report, approve the report or disclose information, consideration of the transactions that may pose conflict of interest, present matters to the Board of Directors for acknowledgement, consent or approval, coordinate with the accounting department in case of trouble or hindrance, coordinate with the certified public accountant for acknowledgement of the audit results, notes and recommendations of such certified public accountant, then present to the Board of Directors for rectification and improvement of the business, including to suggest the shareholders as to the appointment and the remuneration of the certified public accountant.

In the fiscal year ending 31 December 2018, The Audit Committee verified the correctness and sufficiency in the essence according to the generally accepted accounting principles. It includes the consideration on the internal audit, risk rating and various job performances to comply with the legitimate requirements and the requirements of the Stock Exchange of Thailand. This verification did not verify all items, but use the method of testing on the items that deemed to have importance according to the work plan of the audit section. The audit committee did not find any essential shortcomings in the internal audit with impact on the financial statement significantly

The Audit Committee will be compliance with the requirements of the regulatory bodies to ensure the company's transparent operation in order to enhancement of the good corporate governance principles.

(Assoc. Prof. Niputh Jitprasonk)
Chairman of the Audit Committee

G J STEEL PUBLIC COMPANY LIMITED

THAILAND

FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2018

AND

INDEPENDENT AUDITOR'S REPORT

EXPRESSED IN

THAI BAHT

INDEPENDENT AUDITOR'S REPORT

**To The Shareholders and Board of Directors of
G J Steel Public Company Limited**

Opinion

I have audited the statements of financial position of G J Steel Public Company Limited as of December 31, 2018, the related statements of changes in equity, income, comprehensive income and cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In my opinion, the accompanying financial statements present fairly, in all material respects, the financial position of G J Steel Public Company Limited as of December 31, 2018, and its financial performance and its cash flows for the year then ended in accordance with Thai Financial Reporting Standards ("TFRSs").

Basis for Opinion

I conducted my audit in accordance with Thai Standards on Auditing ("TSAs"). My responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of my report. I am independent of the Company in accordance with the Federation of Accounting Professions's Code of Ethics for Professional Accountants together with the ethical requirements that are relevant to my audit of the financial statements, and I have fulfilled my other ethical responsibilities in accordance with these requirements. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Key Audit Matters

Key audit matters are those matters that, in my professional judgment, were of most significance in my audit of the financial statements of the current period. These matters were addressed in the context of my audit of the financial statements as a whole, and in forming my opinion thereon, and I do not provide a separate opinion on these matters. I have determined the matters described below to be the key audit matters to be communicated in my report.

Key Audit Matters included Audited Procedures are as follows:

Impairment of property, plant and equipment

As describe in Notes 4(e), 4(h) and 12 to the financial statement, the Company's property, plant and equipment which are stated at cost less accumulated depreciation and impairment losses are significant amount. The management exercise judgment in determining the impairment loss due to the recoverable amount of the property, plant and equipment is determined on value in use by estimate future cash flows that the entity expects to derive from the assets which related to the projection of future operating performance, future plan and determination of an appropriate discount rate and key assumptions. Therefore, I have identified that considering the impairment loss of property, plant and equipment is the significant matter that requires special attention in the audit.

My audit procedure on such matter

I verified the impairment of property, plant and equipment by consider and assess the reasonable and supportable assumptions and approaches in preparation of the estimate of future cash inflows or outflows which the Company expected to derive from the continuing use of the property, plant and equipment. Including assess the Company's reasonable discount rate which used for calculation of the recoverable amount of the property, plant and equipment and considered the adequacy of the information disclosure related to impairment of property, plant and equipment.

Other Information

Management is responsible for the other information. The other information comprise the information included in the annual report of the Company, but does not include the financial statements and my auditor's report thereon, which is expected to be made available to me after the date of this auditor's report.

My opinion on the financial statements does not cover the other information and I do not express any form of assurance conclusion thereon.

In connection with my audit of the financial statements, my responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or my knowledge obtained in the audit, or otherwise appears to be materially misstated.

When I read the annual report, if I conclude that there is a material misstatement therein, I am required to communicate the matter to those charged with governance and the management of the Company.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with TFRSs, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with TSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with TSAs, I exercise professional judgment and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide those charged with governance with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, I determine those matters that were of most significance in the audit of the financial statements of the current year and are therefore the key audit matters. I describe these matters in my auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, I determine that a matter should not be communicated in my report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

G J Steel Public Company Limited
Notes to the financial statements
For the year ended 31 December 2018

The accompanying notes to financial statements an integral part of these financial statements.

The financial statements were approved and authorized for issue by the Board of Directors on 26 February 2019.

1 General information, going concern and the Company’s debt restructuring

1.1 General information

G J Steel Public Company Limited (the “Company”), is incorporated in Thailand and has its registered office as follows:

Head office : 88 Paso Tower, 24th Floor, Silom Road, Suriyawong, Bangrak, Bangkok.

Factory : 358 Moo 6, Hemaraj Industrial Estate (Bowin) Highway 331, Tambol Bowin, Amphur Sriracha, Chonburi.

The Company was listed on the Stock Exchange of Thailand (the “SET”) on 2 July 1996.

As at 31 December 2018, the Company’s major shareholders were Asia Credit Opportunities I (Mauritius) Limited (“ACO I”) (24% shareholding) was incorporated in overseas. G Steel Public Company Limited (“G Steel”) (15.08% shareholding), Superior Overseas (Thailand) Company Limited (2.96% shareholding) and GS Securities Holdings Co., Ltd. (“GS Securities”) (2.20% shareholding). Those companies were incorporated in Thailand. And GS Securities are 99.99% owned by G Steel.

The principal business of the Company is the manufacturing of various flat - rolled steel products.

1.2 Going concern

As at 31 December 2018 and 2017 part of financial position of the Company are as follows:

Risk effected to the going concern	Million Baht	
	As at 31 December	
	2018	2017
(1) Profit (loss) for the years	(836)	990
(2) Deficit	21,457	20,621
(3) Current assets exceed current liabilities	89	672

As at 31 December 2018 and 2017 there was no factors may cause significant doubt on going concern due to the Company has accomplished its plan by negotiating debt restructuring with major creditors by which of conversion debts-to-equity in successfully as described to the financial statement in Note 1.3 and Note 26 combination with the providing credit facility for additional working capital as described to the financial statement in Note 42 resulting to enhancing the financial position as at 31 December 2018 and 2017 the Company had current assets exceeding current liabilities of Baht 89 million and Baht 672 million respectively. Besides, the Company still has various plans to increase the profitability in future as followings:

G J Steel Public Company Limited
Notes to the financial statements
For the year ended 31 December 2018

a) The production

The Company has the production utilized the off-peak period (which has lower demand for electricity and hence lower tariff rate). In 2017, the Company increases the production to nearly full capacity for off-peak and in the second half of year 2018 the Company has a test run to extend the 24-hour production capacity for 6 days a week in order to ensure that the machinery is a good condition for running the 24-hour production capacity in year 2019, in order to reduce the production unit cost. The Company has adjustment plan in respect of various projects aiming to reduce production cost in order to be competitive with the competitors and the importer. Projects are in the form of energy reduction, increase efficiency as well as minimize loss in the production process, etc.

b) The Governmental support

The Company has cooperated with the other hot-rolled flat steel producers (collectively called “the domestic industry”), filed the petitions for trade remedies to the Thai government, led by Ministry of Commerce, as consequences to serious injuries caused by unfair trade practice in the forms of dumping import hot - rolled steel flat products and import surge to Thailand that also have impacted the stability of Thailand’s economy. Up to the present, Ministry of Commerce had made several determinations and notifications of antidumping measures and safeguard measures in order to help the domestic industry to stand and compete with the import goods on a fair trade basis and to adjust themselves to further stand for increasing competition with the import goods in the domestic market as follows:

Antidumping Measures (5-year term)

	Import Goods	Origin	AD Duty Rate	Effective
1	Hot-rolled steel flat products in coil and not in coil	14 countries	Various rate up to 128.11% of C.I.F. value	23 May 2015 to 22 May 2020
2	Hot-rolled steel flat products in coil and not in coil	China and Malaysia	China 30.91% of C.I.F. value Malaysia 23.57 - 42.51% of C.I.F. value	23 Jun 2017 to 22 Jun 2022
3	Hot-rolled steel flat products in coil and not in coil	Brazil, Iran and Turkey	Brazil 34.40% of C.I.F. value Iran 7.25 - 38.27% of C.I.F. value Turkey 6.88 - 38.23% of C.I.F. value	16 May 2017 to 15 May 2022
4	Boron-added steel hot rolled flat products in coil and not in coil	China	14.28 - 19.47% of C.I.F. value	12 Dec 2018 to 11 Dec 2023*

G J Steel Public Company Limited

Notes to the financial statements

For the year ended 31 December 2018

- * The domestic industry filed petition to Department of Foreign Trade along with the evident information concerned requesting for continuation review of the imposition of antidumping measure for the next 5 years. The Department later issued on 30 November 2017 (published on the royal gazette on 13 December 2017) the “Notification for Initiation of Necessity Review for Continuation of the Antidumping Measure on Boron-added Steel Hot Rolled Flat Products Originated from the People’s Republic of China”, as the start of the antidumping measure continuation review procedure, in which several interested parties were participating. During the review, there is further anti-dumping duty imposed for a period of more than 1 year and the latest dumping and subsidy consideration processes has announced the results of the review to extend the enforcement of anti-dumping measures dated 11 December 2018, as published on the royal gazette on 12 December 2018 that determine to impose the antidumping duties, at the rate unchanged, on Boron-added Steel Hot Rolled Flat Products Originated from the People’s Republic of China for the next 5 years, with effect from 12 December 2018 through 11 December 2023.

Safeguard Measures (3-year term)

	Import Goods	Origin	SG Duty Rate	Effective
1	Other-alloy steel hot-rolled flat products in coil and not in coil	any countries (except the developing countries that account for less than 3% of share in total import volume to Thailand)	- Imported 27 Feb 2016 - 26 Feb 2017 41.67% of C.I.F. value - Imported 27 Feb 2017 - 26 Feb 2018 40.42% of C.I.F. value - Imported 27 Feb 2018 - 26 Feb 2019 39.21% of C.I.F. value	27 Feb 2016 to 26 Feb 2019
2	Non-alloy steel hot-rolled flat products in coil and not in coil	any countries (except the developing countries that account for less than 3% of share in total import volume to Thailand)	- Imported 7 Jun 2017 - 6 Jun 2018 21.00% of C.I.F. value - Imported 7 Jun 2018 - 6 Jun 2019 20.87% of C.I.F. value - Imported 7 Jun 2019 - 6 Jun 2020 20.74% of C.I.F. value	7 Jun 2017 to 6 Jun 2020

c) Local demand of Hot-Rolled Steel Flat Products (Sourced : Iron and Steel Institute of Thailand)

Hot Rolled Steel (million metric tonnes)	Year 2018	Year 2017	Increase / (decrease)
Production	3.20	2.92	0.28
Import	3.96	3.87	0.09
Export	0.074	0.010	0.064
Consumption	7.09	6.78	0.31

For the trend of the steel industry, World Steel Association forecasts that the demand of ASEAN steel consumption in the year 2019 will increase by 6.2% per annum. For Thailand, local demand for steel consumption is expected to increase around 8.2% per annum following the demand from local downstream industry.

G J Steel Public Company Limited

Notes to the financial statements

For the year ended 31 December 2018

1.3 The Company's debt restructuring

Major Trade Creditors Restructuring

Previously, the Company has three Major Trade Creditors with aggregated claims of USD 83 million (Baht 3,004 million) as at 31 December 2016 which the Company has defaulted on the compromise agreement.

On 31 January 2017, the Company received the notice of assignment to debtor from such three Major Trade Creditors and another trade creditor including all amount payable under the contracts up until 31 January 2017 in amount of USD 91 million to new foreign company (hereinafter referred to as "new creditor"). On 3 February 2017, the Company has repayment for some portion of principal and interest payable to new creditor in amount of USD 40 million from the drawn down of loan facility as described to the financial statement in Note 17.

Later on 10 February 2017, new creditor has agreed to reduce interest payable to the Company in amount of USD 15 million, the outstanding debt is remaining to USD 36 million (principal was amounting to USD 33 million and interest payable was amounting to USD 3 million). The Company agrees to restructure the debt which shall be completed by 31 March 2017, the new creditor has agreed on interest chargeable on such principal in the rate of 4% p.a. and if the debt restructuring has not yet completed within 31 March 2017 then the interest rate shall be adjusted to 7.5% p.a. from the date of 31 March 2017 until the debt restructuring completed or has already repayment in full amount.

On 24 March 2017 and later on 14 June 2017, the Company and new creditor has agreed to extend the period of debt restructuring until to 30 September 2017, whereby the interest chargeable on principal still at the rate of 4% p.a. and if the debt restricting has not yet completed within 30 September 2017 then the interest rate shall be adjusted to 7.5% p.a. from the date of 30 September 2017 until the debt restructuring completed or has already repayment in full amount.

On 26 May 2017, the Company had entered the Memorandum of Understanding ("MOU") with the foreign company in which who is the shareholder of the new creditor. Under the said MOU, the plans for the debt restructuring of the Company are as follow:

- a) The Company had a total debt of USD 36.70 million including debts of USD 32.35 million and interest payable of USD 4.35 million which calculation until 30 August 2017.
- b) The new creditor agreed to waive the partial of interest payable of USD 3.77 million as a result the Company's net outstanding debt before the debt-to-equity conversion shall be USD 32.93 million. By mean of under the its condition that the allocation and offering of the newly issued ordinary shares of the Company under to the debt-to-equity conversion scheme must get the approval from the Extraordinary Shareholders' meeting no.1/2017 on 30 August 2017 before.

On 30 August 2017, the Extraordinary Shareholders' meeting no.1/2017 had approved the allocation and offering of the newly issued ordinary shares of the Company under to the debt-to-equity conversion scheme as described to the financial statement in Note 26.1.

On 11 September 2017, the Company entered to Share Subscription Agreement with Asia Credit Opportunities I (Mauritius) Limited which is the new creditor whereby the agreement stipulated debt conversion conditions and the requirements to be complied before the capital increase, and the deadline for completion is 30 September 2017. On 21 September 2017, the Company has already converted its debt to equity under the agreement as described to the financial statement in Note 26.2.

G J Steel Public Company Limited

2 Basis of preparation of the financial statements

(a) Statement of compliance

The financial statements are prepared in accordance with Thai Financial Reporting Standards (TFRS); guidelines promulgated by the Thailand Federation of Accounting Professions (“TFAC”); and applicable rules and regulations of the Thai Securities and Exchange Commission.

During the year, the Company have adopted accounting standards, financial reporting standards, accounting standard interpretations and financial reporting standard interpretations which issued and revised by the TFAC which are effective for financial statement year beginning on or after 1 January 2018. However, the adoptions of said financial reporting standards in the current year does not have material effect on the financial statements.

G J Steel Public Company Limited

Notes to the financial statements

For the year ended 31 December 2018

In addition to the above new and revised TFRS, during the year, the TFAC has issued a number of other new and revised accounting standards, financial reporting standards, accounting standard interpretations and financial reporting standard interpretation which are effective for financial statements beginning on or after 1 January 2019 and 1 January 2020 and have not been adopted in the preparation of these financial statements. Those new and revised TFRS that are relevant to the Company's operations are disclosed to the financial statement in Note 3.

An English language version of the financial statements has been prepared from the statutory financial statements that were issued in Thai language. In case of conflict of difference in understanding, the interim financial statements in Thai language shall prevail.

(b) Basis of measurement

The financial statements have been prepared on the historical cost basis except as stated in the accounting policies.

(c) Functional and presentation currency

The financial statements are presented in Thai Baht. Which is the Company's functional currency. All financial information presented in Thai Baht has been rounded in the notes to the financial statements to the nearest million unless otherwise stated.

(d) Use of estimates and judgments

The preparation of financial statements in conformity with TFRS requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. Actual results may differ from estimates.

Estimates and underlying assumptions are reviewed on an on going basis. Revisions to accounting estimates are recognised in the period in which estimates are revised and in any future periods affected.

Information about significant areas of estimation uncertainty and critical judgements in applying accounting policies that have the most significant effect on the amount recognised in the financial statements is included in the following notes:

Note 7	Allowance for doubtful accounts
Note 8	Allowance for devaluation of inventories
Note 11	Appraisal valuations and allowance for impairment of advance payment for purchase of property, plant and equipment
Note 12	Appraisal valuations and allowance for impairment of property, plant and equipment

TFRIC 21 Levies (revised 2018)	2019

The management of the Company has assessed TAS, TFRS, TSIC and TFRIC which are effective for financial statements year beginning on or after 1 January 2019 that TAS 1, TAS 2, TAS 7, TAS 8, TAS 10, TAS 12, TAS 16, TAS 17, TAS 19, TAS 21, TAS 23, TAS 24, TAS 33, TAS 34, TAS 36, TAS 37, TAS 38 and TFRS 8, TFRS 13 and TFRS 15 will not have material impact on the financial statements when it is applied. For the other TAS, TFRS, TSIC and TFRIC are not relevant to the Company's business, therefore they do not have impact on the financial statement when they are applied.

And the management of the Company is currently evaluating the impact of TAS, TFRS and TFRIC which are effective for financial statements year beginning on or after 1 January 2020 to the financial statements when they are adopted.

G J Steel Public Company Limited
Notes to the financial statements
For the year ended 31 December 2018

4 Significant accounting policies

The accounting policies set out below have been applied consistently to all periods presented in these financial statements.

(a) Foreign currencies

Foreign currency transactions

Transactions in foreign currencies are translated to the functional currency at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies at the reporting date are translated to the functional currency at the foreign exchange rates ruling at that date. Foreign exchange differences arising on translation are recognised in profit or loss.

Non-monetary assets and liabilities measured at cost in foreign currencies are translated to the functional currency using the foreign exchange rates ruling at the dates of the transactions.

Foreign currency differences arising on retranslation are generally recognized in profit or loss.

(b) Cash and cash equivalents

Cash and cash equivalents in the statements of cash flows comprise cash balances, call deposits and high liquidity short-term investments. Bank overdrafts that are repayable on demand are a component of financing activities for the purpose of the statement of cash flows.

(c) Trade and other accounts receivable

Trade and other accounts receivable are stated at their invoice value less allowance for doubtful accounts.

The allowance for doubtful accounts is assessed primarily on analysis of payment histories and future expectations of customer payments. Bad debts are written off when incurred.

(d) Inventories

Inventories are stated at the lower of cost and net realisable value.

Cost is calculated using the weighted average method cost principle, and comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition. In the case of finished goods and work-in-progress, cost includes an appropriate share of production overheads based on normal operating capacity.

G J Steel Public Company Limited
Notes to the financial statements
For the year ended 31 December 2018

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs to complete and to make the sale.

An allowance is made for all deteriorated, damaged, obsolete and slow-moving inventories.

The Company recognises an asset and corresponding liability in respect of consignment inventories once the Company obtains the rights and responsibilities of legal and economic ownership.

(e) Property, plant and equipment

Recognition and measurement

Owned assets

Property, plant and equipment are stated at cost less accumulated depreciation and impairment losses.

Cost includes expenditure that is directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials and direct labour, any other costs directly attributable to bringing the assets to a working condition for their intended use, the costs of dismantling and removing the items and restoring the site on which they are located, and capitalised borrowing costs. Cost also may include transfers from other comprehensive income of any gain or loss on qualifying cash flow hedges of foreign currency purchases of property, plant and equipment. Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment.

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Gains and losses on disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment, and are recognised net within other income in profit or loss.

Subsequent costs

The cost of replacing a part of an item of property, plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company, and its cost can be measured reliably. The carrying amount of the replaced part is derecognised. The costs of the day-to-day servicing of property, plant and equipment are recognised in profit or loss as incurred.

G J Steel Public Company Limited
Notes to the financial statements
For the year ended 31 December 2018

Depreciation

Depreciation is calculated based on the depreciable amount, which is the cost of an asset, or other amount substituted for cost, less its residual value.

Depreciation is charged to profit or loss on the straight-line basis over the estimated useful lives of each component of an item of property, plant and equipment. The estimated useful lives are as follows:

Land improvements	20 years
Buildings	20 - 50 years
Machinery and equipment	15 - 30 years
Furniture and fixtures	5 years
Office equipment	5 - 10 years
Vehicles	5 years

No depreciation is provided on freehold land or assets under construction.

Depreciation methods, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

(f) Intangible assets

Intangible assets represent the cost of computer software and a production license. These intangible assets that are acquired by the Company and have finite useful life are measured at cost less accumulated amortisation and impairment losses.

Subsequent expenditure

Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure, including expenditure on internally generated goodwill and brands, is recognised in profit or loss as incurred.

Amortisation

Amortisation is calculated over the cost of the asset, or other amount substituted for cost, less its residual value.

Amortisation is recognised in profit or loss on a straight-line basis over the estimated useful lives of intangible assets, from the date that they are available for use, since this most closely reflects the expected pattern of consumption of the future economic benefits embodied in the asset. The estimated useful lives for the current and comparative periods are as follows:

Computer software licences	10 years
Production licences	25 years

Amortisation methods, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

(g) Deferred costs of rolls

Deferred costs of rolls are stated at cost less accumulated amortisation. Amortisation is based on consumption.

G J Steel Public Company Limited
Notes to the financial statements
For the year ended 31 December 2018

(h) Impairment

The carrying amounts of the Company's assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, the assets' recoverable amounts are estimated.

An impairment loss is recognised if the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. The impairment loss is recognised in profit or loss unless it reverses a previous revaluation credited to equity, in which case it is charged to equity.

Calculation of recoverable amount

The recoverable amount of non-financial assets is the greater of the asset's value in use and fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For an asset that does not generate cash inflows largely independent of those from other assets, the recoverable amount is determined for the cash-generating unit to which the asset belongs.

Reversals of impairment

An impairment loss in respect of a financial asset is reversed if the subsequent increase in recoverable amount can be related objectively to an event occurring after the impairment loss was recognised in profit or loss.

Impairment losses recognised in prior periods in respect of non-financial assets are assessed at each reporting date for any indications that the losses have decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

(i) Interest-bearing liabilities

Interest-bearing liabilities are recognised initially at fair value less attributable transaction charges. Subsequent to initial recognition, interest-bearing liabilities are stated at amortised cost with any difference between cost and redemption value being recognised in profit or loss over the period of the borrowings on an effective interest basis.

(j) Trade and other accounts payable

Trade and other accounts payable are stated at cost.

G J Steel Public Company Limited
Notes to the financial statements
For the year ended 31 December 2018

(k) Employee benefits

Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution pension plans are recognised as an employee benefit expense in profit or loss in the periods during which services are rendered by employees.

Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The Company's net obligation in respect of defined benefit pension plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value. Any unrecognised past service costs and the fair value of any plan assets are deducted. The discount rate is the yield at the reporting date on AA credit-rated bonds that have maturity dates approximating the terms of the Company's obligations and that are denominated in the same currency in which the benefits are expected to be paid.

The calculation is performed by a qualified actuary using the projected unit credit method. When the calculation results in a benefit to the Company, the recognised asset is limited to the total of any unrecognised past service costs and the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. In order to calculate the present value of economic benefits, consideration is given to any minimum funding requirements that apply to any plan in the Company. An economic benefit is available to the Company if it is realisable during the life of the plan, or on settlement of the plan liabilities.

When the benefits of a plan are improved, the portion of the increased benefit relating to past service by employees is recognised in profit or loss on a straight-line basis over the average period until the benefits become vested. To the extent that the benefits vest immediately, the expense is recognised immediately in profit or loss.

The Company recognises all actuarial gains and losses arising from defined benefit plans in other comprehensive income and all expenses related to defined benefit plans in profit or loss.

(l) Provisions

A provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost.

G J Steel Public Company Limited
Notes to the financial statements
For the year ended 31 December 2018

Onerous contracts

A provision for onerous contracts is recognised when the expected benefits to be derived by the Company from a contract are lower than the unavoidable cost of meeting the Company's obligations under the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established, the Company recognises any impairment loss on the assets associated with that contract.

(m) Revenue

Revenue excludes value added taxes and is arrived at after deduction of trade discounts.

Sale of goods

Revenue is recognised in profit and loss when the significant risks and rewards of ownership have been transferred to the buyer. No revenue is recognised if there is continuing management involvement with the goods or there are significant uncertainties regarding recovery of the consideration due, associated costs or the probable return of goods.

Interest income

Interest income is recognised in profit or loss as it accrues.

(n) Finance costs

Finance costs comprise interest expense on borrowings, unwinding of the discount on provisions and contingent consideration, losses on disposal of available-for-sale financial assets, dividends on preference shares classified as liabilities, fair value losses on financial assets at fair value through profit or loss, impairment losses recognised on financial assets (other than trade receivables), and losses on hedging instruments that are recognised in profit or loss.

Borrowing costs that are not directly attributable to the acquisition, construction or production of a qualifying asset are recognised in profit or loss using the effective interest method.

(o) Lease payments

Payments made under operating leases are recognised in profit or loss on a straight line basis over the term of the lease. Lease incentives received are recognised in profit or loss as an integral part of the total lease expense, over the term of the lease.

Contingent lease payments are accounted for by revising the minimum lease payments over the remaining term of the lease when the lease adjustment is confirmed.

G J Steel Public Company Limited
Notes to the financial statements
For the year ended 31 December 2018

Determining whether an arrangement contains a lease

At inception of an arrangement, the Company determines whether such an arrangement is or contains a lease. A specific asset is the subject of a lease if fulfilment of the arrangement is dependent on the use of that specified asset. An arrangement conveys the right to use the asset if the arrangement conveys to the Company the right to control the use of the underlying asset.

At inception or upon reassessment of the arrangement, the Company separates payments and other consideration required by such an arrangement into those for the lease and those for other elements on the basis of their relative fair values. If the Company concludes for a finance lease that it is impracticable to separate the payments reliably, an asset and a liability are recognised at an amount equal to the fair value of the underlying asset. Subsequently the liability is reduced as payments are made and an imputed finance charge on the liability is recognised using the Company's incremental borrowing rate.

(p) Income tax

Income tax expense for the year comprises current and deferred tax. Current and deferred tax are recognised in profit or loss except to the extent that they relate to a business combination, or items recognised directly in equity or in other comprehensive income.

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognised for the following temporary differences: the initial recognition of goodwill; the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss; and differences relating to investments in subsidiaries and jointly-controlled entities to the extent that it is probable that they will not reverse in the foreseeable future.

The measurement of deferred tax reflects the tax consequences that would follow the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date.

In determining the amount of current tax, the Company takes into account the impact of uncertain tax positions and whether additional taxes and interest may be due. The Company believes that its accruals for tax liabilities are adequate for all open tax years based on its assessment of many factors, including interpretations of tax law and prior experience. This assessment relies on estimates and assumptions and may involve a series of judgements about future events. New information may become available that causes the Company to change its judgement regarding the adequacy of existing tax liabilities; such changes to tax liabilities will impact tax expense in the period that such a determination is made.

G J Steel Public Company Limited
Notes to the financial statements
For the year ended 31 December 2018

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

A deferred tax asset is recognised to the extent that it is probable that future taxable profits will be available against which the temporary differences can be utilised. Deferred tax assets are reviewed at each reporting date and reduced to the extent that it is no longer probable that the related tax benefit will be realised.

(q) Earnings (loss) per share

The Company presents basic and diluted earnings (loss) per share data for its ordinary shares. Basic earnings (loss) per share is calculated by dividing the profit (loss) attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period, adjusted for own shares held. Diluted earnings (loss) per share is determined by adjusting the profit (loss) attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding, adjusted for own shares held, for the effects of all dilutive potential ordinary shares, which comprise convertible notes and share options granted to employees.

(r) Segment reporting

Segment results that are reported to the Group’s CEO (the chief operating decision maker) include items directly attributable to a segment as well as those that can be allocated on a reasonable basis.

5 Connected persons or related parties

For the purposes of these financial statements, connected persons or related parties are considered to be related to the Company if the Company has the ability, directly or indirectly, to control or joint control the party or exercise significant influence over the party in making financial and operating decisions, or vice versa, or where the Company and the party are subject to common control or common significant influence. Connected persons or related parties may be individuals or other entities.

Significant agreement with related parties

Tolling Agreement

On 14 November 2017 the Company entered into Tolling Agreement with G Steel whereby the Company (the metallic owner) shall supply the primary metallic and delivery to the plant and G Steel (the operator) shall process and convert metallic to Hot Roll Coils (HRC) extend to deliver such HRC to the Company's customers in according to the Company's sale order. Tolling agreement is valid one year from the contract date and automatically renew for another year if there is no notice of termination prior to expiration of 90 days. Its service fee shall be charged based on contractual prices. Later on 17 December 2018 the Company made a written notice of cancellation in advance with the agreement effective until 31 January 2019.

Other contracts

In year 2013, the Company entered into a memorandum with OAC to accept the liabilities arising from the compromise debt agreement with Master Steel Co., Ltd. amounting to Baht 17.91 million by exchange with the transfer G Steel's shares of 35.82 million shares which held by OAC at the agreed price of Baht 0.50 per share to Master Steel Co., Ltd.

In addition, the Company settled a labour case with a former employee at the Central Labour Court. Under this agreement, the Company agreed to transfer G Steel's shares of 33 million shares which held by OAC to the former employee at an agreed price of Baht 0.45 per share, amounting to Baht 14.85 million and OAC agreed to guarantee the share price at Baht 0.45 per share in 90 days from the transferred share date ("guarantee period").

Therefore, the Company entered into a memorandum with OAC to accept the liabilities arising from the compromised debt agreement in amounting of Baht 32.76 million. The such debt shall be mature on 30 June 2014. On 5 June 2015, the Company paid to OAC for the amount of Baht 29.54 million which the outstanding debts remained at Baht 3.22 million.

G J Steel Public Company Limited
Notes to the financial statements
For the year ended 31 December 2018

On 13 January 2014, OAC deposited the G Steel's shares of 102.3 million shares to Legal Execution Department as a guarantor under the compromise debt agreement to transfer additional G Steel's shares of 102.3 million shares at market price of Baht 0.10 per share to the former employee (the market price based on at the end of guarantee period date).

In addition, on the same date (13 January 2014), the Company entered into a memorandum with OAC to accept additional liabilities of Baht 10.23 million. This obligation will be due on the date of 30 June 2014. Currently, the Company is on the process of extension period of the memorandum with OAC.

Significant matter with related parties

On 7 May 2014, OAC enters into a transfer of assets for debt repayment contract with Shareholder of G Steel to agree for partial debt repayment against with the transferring ownership of the Company's shares of 4,125 million shares and the Company's warrants of 687 million units which were held by OAC. In September 2014, G Steel had transferred ownership of the Company's shares of 1,500 million shares to other non-related company, resulting to G Steel held 20.79% shareholding in the Company.

In June and July 2017, G Steel sold the shares held in the Company of 100 million shares as a result G Steel shareholding in the Company reduced to 20.05% before the share capital increase. After the share capital increase, as at 31 December 2017 the percentage of shareholding in the Company of G Steel and GS Securities is 18.72%.

Later in March 2018, G Steel's a financial supporter compulsory pledge shares held in the Company of 200 million shares by GS Securities to guarantee G Steel to repay G Steel's liabilities. After the forced sale of shares, as at 31 December 2018 the percentage of shareholding in the Company of G Steel and GS Securities is 17.29 %.

G J Steel Public Company Limited
Notes to the financial statements
For the year ended 31 December 2018

In year 2013, an account receivable due from related party subrogated the amounts, the receivable owed to a creditor of Baht 172 million in exchange with another receivable in the same amount. The account receivable subrogated also is the creditor of the Company in the greater amount than the receivable amount owe to the Company. On 20 November 2017, the Company entered into a debt settlement agreement with such debtor (“Party”). The Party agreed to pay the debt of Baht 172 million, which the Party was debtor, to settlement from debt of Baht 181 million, which the party was creditor and the Company agreed to pay the remaining amount of Baht 9 million within 7 March 2018.

The gross and net balance due from the Non-performing Domestic Customer as at 31 December 2018 and 2017 are shown in the table below:

	As at 31 December	
	2018	2017
	(in million Baht)	
Account receivables		
- Customer 1	352	352
- Customer 2	65	65
	417	417
<u>Less</u> allowance for doubtful accounts	(417)	(417)
Net	-	-

The Company had no sales transactions for the years ended 31 December 2018 and 2017 with the Non-Performing Domestic Customers.

In July 2013, the Company filed complaints against the Non-performing domestic Customers with Civil Court for breach of sale and purchase agreements.

On 21 October 2013 the Civil Court ordered the Customer 1 to pay the amount of Baht 423 million and interest at 7.5% p.a. of the principal of Baht 352 million since filing date until the settlement date. However the Customer 1 could not paid as per the judgment debt. On 17 November 2016, the Customer 1 had a registration for dissolution. The Company has been sent the first notice of debt repayment on 29 June 2018 and the second notice of debt repayment on 7 August 2018. Later on 24 August 2018 the Company filed the a lawsuit to the Customer 1 against the Central Bankruptcy Court to ask the court to order and seize the Customer 1’s asset and request the Customer 1 is bankruptcy. On 1 November 2018 the Court had ordered to seize the Customer 1’s asset, which on December 28, 2018, the Company has already filed an application for payment of debt and the Official Receiver has ordered an appointment to inspect the application of payment on 25 February 2019.

G J Steel Public Company Limited
Notes to the financial statements
For the year ended 31 December 2018

On 3 March 2014, the Company had made the compromise agreement with Customer 2 to pay the amount of Baht 78 million (principal amount of Baht 65 million and interest amount of Baht 13 million) by installation payment commencing on 25 March 2014 to 25 August 2016. However, the Customer 2 was defaulted the payments. However from year 2015 to the present the Company traced the land of the Customer 2 with Land Department, and not found their property. On 27 October 2017, the Company filed a lawsuit to Customer 2 against the Bankruptcy Court to ask Customer 2 to pay the debts to the Company in the amount of Baht 78 million and interest at 7.5% p.a. of the principal from the date of 25 March 2014. On 18 December 2017, the Court has ordered to seize the Customer 2's asset. On 24 January 2018, the Company has filed a request for payment with the Official Receiver and the official debt investigation was completed on 8 May 2018, and the Customer 2 did not come to the meeting of the creditor as informed by the Official Receiver. And the creditors who filed an application for payment of debt have voted to request the Court to adjudge the debtor to be bankrupt.

In June 2018, the Company filed a lawsuit against to a debtor who is a related party to the Civil Court, which had paid in partial payment and ignore the payment of the remaining debt to the Company in amount of Baht 62 million together with the interest 7.5% p.a. counting from the filing date until the payment is completed. During in 3rd quarter of 2018, the Company and the debtor could not be finalized the mediation therefore the Company had set up the allowance for doubtful accounts in a full amount of in the 3rd quarter of 2018. Later during the Court's trial, the debtor agreed to pay the debt to the Company in amount of Baht 62 million. The Company therefore filed a petition to withdraw the lawsuit on 24 December 2018 and reversed the allowance for doubtful accounts of the debtor in a whole amount in the 4th quarter 2018.

9 Short-term loan to related party

On March 30, 2017, the Company has entered to short-term loan agreement to G Steel in the credit facilities of Baht 94 million by which the principal and interest are to be repaid within the period of 6 months with interest rate at 12.5% p.a. On 22 September 2017, the Company agreed to extend repayment period for principal and interest within 15 November 2017.

On 14 November 2017, G Steel has filed a petition for business rehabilitation with the Central Bankruptcy Court to prevent G Steel from falling into bankruptcy due to G Steel has been in default since the economic crisis in 2008 and there is a risk of being sued or bankrupt by judgment of the creditor. The Central Bankruptcy Court accepted the petition for business rehabilitation on 15 November 2017. Later on 24 December 2018 the Court ordered the dismissal of the request for rehabilitation of G Steel. At present, G Steel is in the process of procuring external sources of funds. G Steel therefore wishes to extend the term of the new loan to 15 May 2019. Subsequently, on 14 January 2019, the Company agreed to extend the repayment period with interest within 15 May 2019. For such financial assistance to G Steel by extending the term of the original loan is according to the resolution of the Company's Board of Directors meeting on 14 January 2019. By the way, the management believes that G Steel will be able to repay the loan back to the Company. Therefore, the Company does not consider the allowance for doubtful accounts.

However, the Company still ceases to recognize interest income since 15 November 2017, whereby the Company will recognize interest income only when the Company receives interest payments from G Steel.

Suspended construction in progress

Suspended construction in progress represented the Direct Reduced Iron plant (“DRI Facility”). The management of the Company decided to suspend this project in 1999. The carrying value of this investment was written down to its independently appraised forced sale value based on the market price of steel scrap of Baht 44 million. On 29 July 2014, the Board of investment (“BOI”) had ordered the revocation of privilege in the production of Direct Reduced Iron. However there is no burden of import duty on machinery and raw materials. And in year 2015, the management had reconsidered the estimated recoverable amount of assets the recoverable amount is lower than the net book value in the amount of Baht 11 million which had already recorded as loss on impairment.

23 Liabilities under rehabilitation plan

	As at 31 December	
	2018	2017
	(in million Baht)	
Balance - beginning of the year	204	226
Paid during the year	(6)	(13)
Exchange rate adjustments during the year	(1)	(9)
Transfer to gain on debt restructuring	(1)	-
Write-off the expired legal prescription of liabilities	(16)	-
Balance - end of the year	180	204

Liabilities under rehabilitation plan as at 31 December 2018 and 2017 were included in the financial statements as follows:

			As at 31 December	
			2018	2017
			(in million Baht)	
Creditors		Due date		
Class 4	Employee	July 2015	4	4
Class 5	Equipment Claims	October 2011	10	10
Class 11	Operating Fund Creditors	October 2003		
	Provided in the Form of Overdraft		-	16
Class 13	Other Creditors	October 2011	166	174
	Total		180	204

The repayment schedules of each creditor under Class 5 and Class 13 are not entirely consistent in terms of date, as they depend on the date of the conclusion of the debt. However, the first due date of creditors under Class 5 and Class 13 is 31 October 2011.

Although a repayment of creditors under Class 11 was due in October 2003, the repayment schedule of these creditors was conditional upon those creditors continuing to provide overdraft facilities to the Company equal to the total debt under Class 11. However, the Company has not received any such overdraft facility from the creditors under Class 11, and therefore, the repayment condition imposed on these creditors has not been satisfied.

G J Steel Public Company Limited
Notes to the financial statements
For the year ended 31 December 2018

The Company's rehabilitation plan liabilities were duly on 31 October 2011 but fell into default. The Company entered into negotiations with the creditors to extend the payment period. Accordingly, the Company presented the outstanding liabilities under rehabilitation plan as at 31 December 2018 and 2017 as current liabilities in the Company's statement of financial position. As a consequence of this default, the outstanding balances are payable on demand and accrue interest at a rate of 7.5% per annum from the date of default.

Since year 2015 to the date of the report, 5 suppliers filed a complaint against the Company for breach of the rehabilitation plan. 1 supplier with the litigation amount of Baht 1 million together with interest at the rate of 7.5% per annum from the date of filing the complaint until the date of full repayment is on the Court process and 4 suppliers with the litigation amount of Baht 5 million have been compromised and settled.

Sensitivity analysis of significant actuarial assumptions

Significant actuarial assumptions for sensitivity analysis are discount rate, salary increase rate and employee turnover rate, while holding all other assumptions constant. The sensitivity analysis of change in the relevant actuarial assumption that were reasonably possible as of 31 December 2018 as follows:

- If the discount rate increases (decreases) by 1.0%, the employee benefit obligation decrease Baht 8.35 million (increase Baht 9.85 million).
- If the salary increase rate increases (decreases) by 1.0%, the employee benefit obligation increase Baht 9.52 million (decrease Baht 8.26 million).
- If the employee turnover rate increases (decreases) by 10.0%, the employee benefit obligation decrease Baht 4.72 million (increase Baht 5.11 million).

In presenting the above sensitivity analysis, the present value of the employee benefit obligation has been calculated by using the same method that applied in calculating the employee benefit obligation recognized in the statement of financial position.

On December 13, 2018, the National Legislative Assembly approved draft of Labour Protection Act. The main point is increasing the rate of benefit of an employee who has past service 20 years or more from 300 days to 400 days. At the present, the draft is in the process of announcement in the Government Gazette. If the Act is effective, the provisions for employee benefits of the Company which calculated up to December 31, 2018 will increase by approximately amount of Baht 19.2 million. The amount shall be recorded as expense in the statement of income on the effective date of the Act.

Defined benefit plans

Details of the defined benefit plans are given to the financial statement in Note 25.

Defined contribution plans

The defined contribution plan comprises a provident fund established by the Company for its employees. Membership in the fund is on a voluntary basis. Contributions are made monthly by the employees at rates ranging from 2% to 10% of their basic salaries and by the Company at rates ranging from 3% to 10% of the employees' basic salaries. The provident fund is registered with the Ministry of Finance as a juristic entity and is managed by a licensed Fund Manager.

37 Income tax expense

The Company did not record income tax expense in the statement of income because the Company has significant losses brought forward from prior years. Deferred tax assets have not been recognised in respect of these losses as disclosed to the financial statement in Note 14.

The Company used the income tax rate of 20% in the value measurement of deferred tax assets and liabilities as at 31 December 2018 and 2017.

38 Earnings (loss) per share

Basic earnings (loss) per share

The calculations of basic earnings (loss) per share for the years ended 31 December 2018 and 2017 were based on the profit (loss) for the years attributable to equity holders of the Company and the weighted average number of ordinary shares outstanding during the years as follows:

		2018	2017
		(in million Baht / million shares)	
Profit (loss) for the year attributable to ordinary shareholders of the Company		(836)	990
Number of ordinary shares outstanding at 1 January		13,928	10,585
Effect from debt-to-equity conversion	26	-	934
Weighted average number of ordinary shares outstanding		13,928	11,519
Basic (earnings) loss per share (in Baht)		(0.060)	0.086

Diluted earnings (loss) per share for the years ended 31 December 2018 and 2017 are not presented because the exercise price of the Company's warrants was higher than the market price of the Company's ordinary shares and these potential shares would decrease the earnings (loss) per share.

G J Steel Public Company Limited
Notes to the financial statements
For the year ended 31 December 2018

39 Financial instruments

As at 31 December 2018 and 2017, the Company had not entered into any derivative contracts to hedge its exposure to foreign currency exchange risk.

Financial risk management policies

The Company is exposed to normal business risks from changes in market interest rates and currency exchange rates and from non-performance of contractual obligations by counterparties. The Company does not hold or issue derivative financial instruments for speculative or trading purposes.

Capital management

The Board's intention is to return to a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. The Board is presently seeking additional capital investment in order to secure the ongoing viability of the Company.

Interest rate risk

Interest rate risk is the uncertainty in value of financial assets and liabilities or net interest income as a result of the fluctuation of the market interest rate. Most of the interest rates of financial assets and liabilities of the Company are fixed rates, which are based on contract rates.

The effective interest rates of financial assets and financial liabilities as at 31 December 2018 and 2017 and the periods to maturity or re-pricing were as follows:

Credit risk

Credit risk is the potential financial loss resulting from the failure of a customer or counterparty to settle its financial and contractual obligations to the Company as and when they fall due.

At the reporting date there were no significant concentrations of credit risk because the Company has seized to give credit terms to customers (Refer to the financial statement in Note 7). The maximum exposure to credit risk is represented by the carrying amount of each financial asset in the statement of financial position.

Liquidity risk

Liquidity risk arises from the difficulty in mobilizing funds for timely and adequately meeting commitments under financial obligations. Liquidity risk may arise from failure to sell financial assets at a price close to the fair value.

The Company has liquidity risk as the Company needs to generate sufficient operating cash flows to meet both its working capital requirements and its operating obligations.

G J Steel Public Company Limited
Notes to the financial statements
For the year ended 31 December 2018

Determination of fair values

A number of the Company's accounting policies and disclosures require the determination of fair value, for both financial and non-financial assets and liabilities. The fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's-length transaction. Fair values have been determined for measurement and/or disclosure purposes based on the following methods. When applicable, further information about the assumptions made in determining fair values is disclosed in the notes specific to that asset or liability.

The fair value of trade and other short-term receivables is taken to approximate the carrying value.

Maturities of financial assets and liabilities

Details of the maturities of financial assets and liabilities have been provided in the relevant notes to the financial statements.

Six suppliers filed a complaint against the Company for breach of several agreements related to sales and purchases and rehabilitation plan. Presently one supplier with the litigation amount of Baht 1 million together with interest at the rate of 7.5% per annum from the date of filing the complaint until the date of full repayment are on the Court process and five suppliers with the litigation amount of Baht 6 million have been compromised and settled.

41.2 The Second Section of Labour Court

A former employee filed a complaint to the Second Section of the Labour Court against the Company for the lay-off and demands the Company to pay him together with interest at the rate 7.5% per annum from the date of filing. On 12 July 2017, the Company received the Court's order that the Supreme Court has the judgment to dismiss the claim and the Company do not pay compensation.

42 Credit facilities for operation

42.1 Presently the Company get collaboration from various raw material suppliers both local and oversea with Supplier Credit in term of Collateral Management Agreement ("CMA"), the Company gets CMA from 2 oversea raw material suppliers amounting to USD 30 - 120 million and CMA from 1 local raw material supplier in term of supporting production tonnage by 240,000 tons per year.

The Company has used the supplier credit facilities as working capital for many years to purchase of scrap which is the main raw material of the production.

G J Steel Public Company Limited
Notes to the financial statements
For the year ended 31 December 2018

42.2 On 25 February 2016, the Company and G Steel have executed the amendment credit facilities with the local bank in which the Company received the Bank Guarantee (BG) in the amount of Baht 252 million. In respect this agreement, the Company and G Steel have to provide securities under the aforementioned credit facilities to a local bank as below:

- G Steel will increase the mortgaged amount of the existing mortgaged machine from formerly Baht of 475.6 million to the new mortgage of Baht 510 million.
- The Company will mortgage the machinery in 2 items; the Recoil Temper Mill (RTM) and the Acid Regeneration Plant (ARP), for the mortgaged amount of Baht 480 million.

As at 31 December 2018, Company has utilized the bank guarantee in amounting of Baht 145 million (2017: Baht 156 million).

42.3 On 6 January 2017, the Company's Board of Directors meeting had approved for entering the long-term loan agreements in the facilities amount not exceeding of USD 111 million not only to solve the default long outstanding debt since in year 2012 but also to spend for working capital as the summarized transactions in following:

42.3.1 On 22 January 2017, the Company (borrower) has entered the long term loan agreement in the facilities amount of USD 71 million with Link Capital I (Mauritius) Limited (lender) (previously was non-related party and on 21 September 2017 onwards is considered as related party) with the fixed interest rate at 12 p.a., in a period of 5 years and collateral with second ranking in mortgage most of land, plant and machinery. The loan facilities are separately in 2 groups as described below.

1. The first loan facility of USD 41 million for the purpose of repayment of new creditor and includes all reimbursement expenses from lender such as due diligence expenses and other expenses related the processes to ensure the long term loan agreement completed. On 1 February 2017, the Company had drawn down the loan of USD 41 million in order to repayment principal and interest payable to new creditor as described to the financial statement in Note 1.3.

Later on 7 March 2018 there was an amendment of the loan agreement for the first loan facility and the second loan facility on that the Company may prepay the loan before the first anniversary of the first draw down in which the Company must give the lender not less than 30 days' written notice of the prepayment, or after the first anniversary of the first draw down. After repaid of the first loan facility, the outstanding available of the first loan facility allow to transfer and increase in the second loan facility. By the way, the time frame that can proceed to increase the second loan facility must be done no later than 7 June 2018 for the purpose of working capital (Non-Tolling) and no later than 28 February 2019 for the purpose of Non-Tolling Standby Letter of Credit for Metallic Purchase Contract.

On 28 March 2018 and 4 April 2018, the Company had repaid the first loan facility in total amount of USD 11 million and it transfers and increases in the second loan facility for the purpose of Non-Tolling Standby Letter of Credit for Metallic Purchase Contract.

G J Steel Public Company Limited
Notes to the financial statements
For the year ended 31 December 2018

2. The second loan facility of USD 30 million for the purpose of working capital and capital expenditure. On 10 October 2017, the Company had drawn down the loan of USD 5 million. Subsequent on 19 December 2017, the new loan facility has been reduced to USD 25 million and additional the purpose of draw down as described in Note 42.3.2 Moreover as described in Note 42.3.1.1 There was an amendment of the loan agreement for the prepayment of the loan before the first anniversary of the first draw down in which the Company must give the lender not less than 30 days' written notice of the prepayment, or after the first anniversary of the first draw down.

As at 31 December 2018, the Company has drawdown the second loan facility in the purpose of Non-Tolling Standby Letter of Credit and Metallics Purchase Contract of USD 35 million.

- 42.3.2 For another credit facility of USD 40 million on 6 November 2017, the Company's Board of Directors meeting had approved for entering the loan agreements in the period not over 2 years which revised the existing facilities to USD 50 million for the purpose of increasing working capital for operation and purchasing of raw material, and increasing the capacity of the Company with the interest rate in between 2% - 12% p.a. depend on the loan facilities. On 13 November 2017 and 19 December 2017, the Company entered to amend the loan agreement from original contract as mentioned in Note 42.3.1 to revise the total loan facility not exceeding USD 121 million by applied the same collateral as mentioned in Note 42.3.1 with the followings:

1. Second loan facility reduced to USD 25 million (and later as mentioned in Note 42.3.2.3 after the Company repaid the fourth loan of USD 5 million, the second loan facility has revert to USD 30 million) and additional the purpose of drawdown for Metallic Purchase Contract and for Non-Tolling Standby Letter of Credit.
2. Third loan facility of USD 50 million as short-term period of one year, interest rate of 12% p.a. for the purpose of supporting to tolling with G Steel, Metallic Purchase Contract and Tolling Standby Letter of Credit. During in November 2017, the Company had drawdown the loan of USD 40 million. On 24 December 2018, the Company has repaid the third loan facility in total amount of USD 2 million

As at 31 December 2018, the Company has drawdown the third loan facility for Tolling Standby Letter of Credit in the purpose of Metallics Purchase Contract of USD 4.2 million.

3. Fourth loan facility of USD 5 million as short-term period of three-month, interest rate of 12% p.a. for the purpose of purchase of raw material. If there is a fully repaid of fourth loan facility, then the fourth loan facility shall be closed and divert to the second loan facility. On 20 December 2017, the Company had drawdown the loan of USD 5 million.

Later on there was a fully repaid of fourth loan facility on 9 March 2018, as a result the fourth loan facility had been closed and divert to the second loan facility.

43 Events after the reporting period

43.1 The capital restructuring of the Company

On 14 January 2019, the Extraordinary Shareholders' Meeting No.1/2019 had approved the important matters as follows:

- 43.1.1 Approved the transfer of legal reserve in the amount of Baht 18,507,421.67 to compensate the retained losses.
- 43.1.2 Approved the reduction of the Company's registered capital from Baht 6.90 to Baht 0.96 to compensate the Company's retained losses resulting to the Company's registered capital decreased from the original amount Baht 129,298,350,418.50 to Baht 17,989,335,710.40 and the Company's paid-up capital shall reduce from Baht 96,104,091,707.70 to Baht 13,371,004,063.68, in which the Company shall apply the reduced paid-up capital to clear the discount on share capital of Baht 61,757,357,060.14 and the retained losses of Baht 20,975,730,583.88, respectively. And approved the amendment of clause 4 of the Company's memorandum of association to be in line with the reduction of registered capital by reducing the par value to compensate the Company's retained losses.
- 43.1.3 Approved the reduction in the registered capital of the Company in the amount of 1,957,748,965 shares, with a par value of Baht 0.96 per share, from the existing registered capital of Baht 17,989,335,710.40 to Baht 16,109,896,704 by cancelling the Company's authorized but unissued shares, prior to the increase of the Company's registered capital, and approve the amendment clause 4 of the Company's memorandum of association to be in line with the reduction of registered capital by cancelling the Company's authorized but unissued shares.

Such cancelling of authorized but unissued shares does not include the ordinary shares of the Company allocated to accommodate the exercise of the warrants to purchase the ordinary share no. 3 ("GJS-W3"), in the amount of 1,606,677,915 shares which was approved by the Extraordinary General Meeting of the Shareholders No. 1/2017 which was held on 30 August 2017 and the warrants to purchase the ordinary share no. 4 ("GJS-W4"), in the amount of 1,246,335,252 shares which was approved by the Extraordinary General Meeting of the Shareholders no. 1/2017 which was held on 30 August 2017.

- 43.1.4 Approved the rights adjustment of GJS-W3 Warrant and GJS-W4 Warrant according to the rate and price of rights adjustment are as follows:
- 43.1.4.1 Adjustment of rights in case there is a change in the par value of the Company's ordinary shares.

	Before adjustment	Adjustment from capital reduction
<i>GJS-W3 Warrants</i>		
- Exercise Ratio	1 Unit : 0.437 Share	1 Unit : 0.437 Share
- Exercise Price	1.3722 Baht/Share	0.1909 Baht/Share
<i>GJS-W4 Warrants</i>		
- Exercise Ratio	1 Unit : 0.437 Share	1 Unit : 0.437 Share
- Exercise Price	1.3722 Baht/Share	0.1909 Baht/Share

G J Steel Public Company Limited
Notes to the financial statements
For the year ended 31 December 2018

43.1.4.2 Adjustment of rights in case the Company allocates the newly-issued ordinary shares of the Company share to the existing shareholders of the Company in proportion to their respective shareholding (Right Offering) at the calculated net price for newly issued stock below 90 percent of the Market Price for Ordinary Share.

	Adjustment from capital reduction	Adjustment from issued newly shares to existing shareholders
<i>GJS-W3 Warrants</i>		
- Exercise Ratio	1 Unit : 0.437 Share	1 Unit : 0.500 Share
- Exercise Price	0.1909 Baht/Share	0.1668 Baht/Share
<i>GJS-W4 Warrants</i>		
- Exercise Ratio	1 Unit : 0.437 Share	1 Unit : 0.500 Share
- Exercise Price	0.1909 Baht/Share	0.1668 Baht/Share

43.1.5 Approved the increase in registered capital by the amount of Baht 11,490,928,047.36 from the existing registered capital of Baht 16,109,896,704 to Baht 27,600,824,751.36 by issuing 11,969,716,716 newly issued ordinary shares with a par value of Baht 0.96 per share to accommodate the allocation and offering of newly-issued shares to existing shareholders of the Company in proportion to their respective shareholding (Right Offering) and accommodate the adjustment of right under GJS-W3 and GJS-W4 and approve the amendment of clause 4 of the Company's memorandum of association to be in line with the increase in the Company's registered capital.

43.1.6 Approved the allocation of the Company's newly-issued shares in the amount of not exceeding 11,969,716,716 shares, at a par value of Baht 0.96 per share to accommodate:

43.1.6.1 The allocation of the newly-issued ordinary shares of the Company in the amount of not exceeding 11,560,347,263 shares, with a par value of Baht 0.96 per share to the existing shareholders of the company in proportion to their respective shareholding (Right Offering) with the price of Baht 0.13 per share, in the allocation ratio of 1 existing shares per 0.83 new shares where the fraction of shares shall be discarded.

In this regard, since the Company has accumulated losses in the statement of financial position and the profit and loss statements for the three-month and nine-month periods ended 30 September 2018, the Company is able to determine the offering price of newly-issued ordinary share with the price of Baht 0.13 per share, at a price lower than the par value, and as such require the Company to comply with Section 52 of the PLC Act (as amended). This issuance and offering of newly-issued ordinary shares of the Company will be the offering of newly-issued ordinary shares in proportion to the respective shareholding. In case there are decimals arisen from the calculation, such decimals shall be rounded down. The existing shareholders are entitled to subscribe for the shares exceeding their shareholding proportion. In case there are ordinary shares left from the allocation to the existing shareholders in accordance with their shareholding proportion, the Company will allocate such remaining shares to the shareholders who intend to subscribe for the newly-issued ordinary shares in excess of their shareholding proportion, at the same price. Such allocation of shares shall be proceeded until there is no ordinary

G J Steel Public Company Limited
Notes to the financial statements
For the year ended 31 December 2018

shares left or there is no more shareholder who intends to subscribe for the newly-issued ordinary shares. In case there are ordinary shares left from this increase of capital, such remaining ordinary shares will be cancelled.

In case any shareholder intends to subscribe the newly-issued ordinary shares in the amount exceeding his shareholding proportion and such subscription causes the total holding of Company's shares by such a shareholder and his related persons under Section 258 of the PLC Act to exceed 25 percent of the total voting shares of the Company, such a shareholder is obliged to proceed the tender offer of the total securities of the Company according to the Notification of the Capital Market Supervisory Board No. ThorJor. 12/2554 Re: Rules, Conditions and Procedures for the Acquisition of Securities for Business Takeovers (the "Notification on Acquisition of Securities for Business Takeovers"), unless such a shareholder is granted the exception to proceed the tender offer of all the securities of the Company, as prescribed in the Notification on Acquisition of Securities for Business Takeovers.

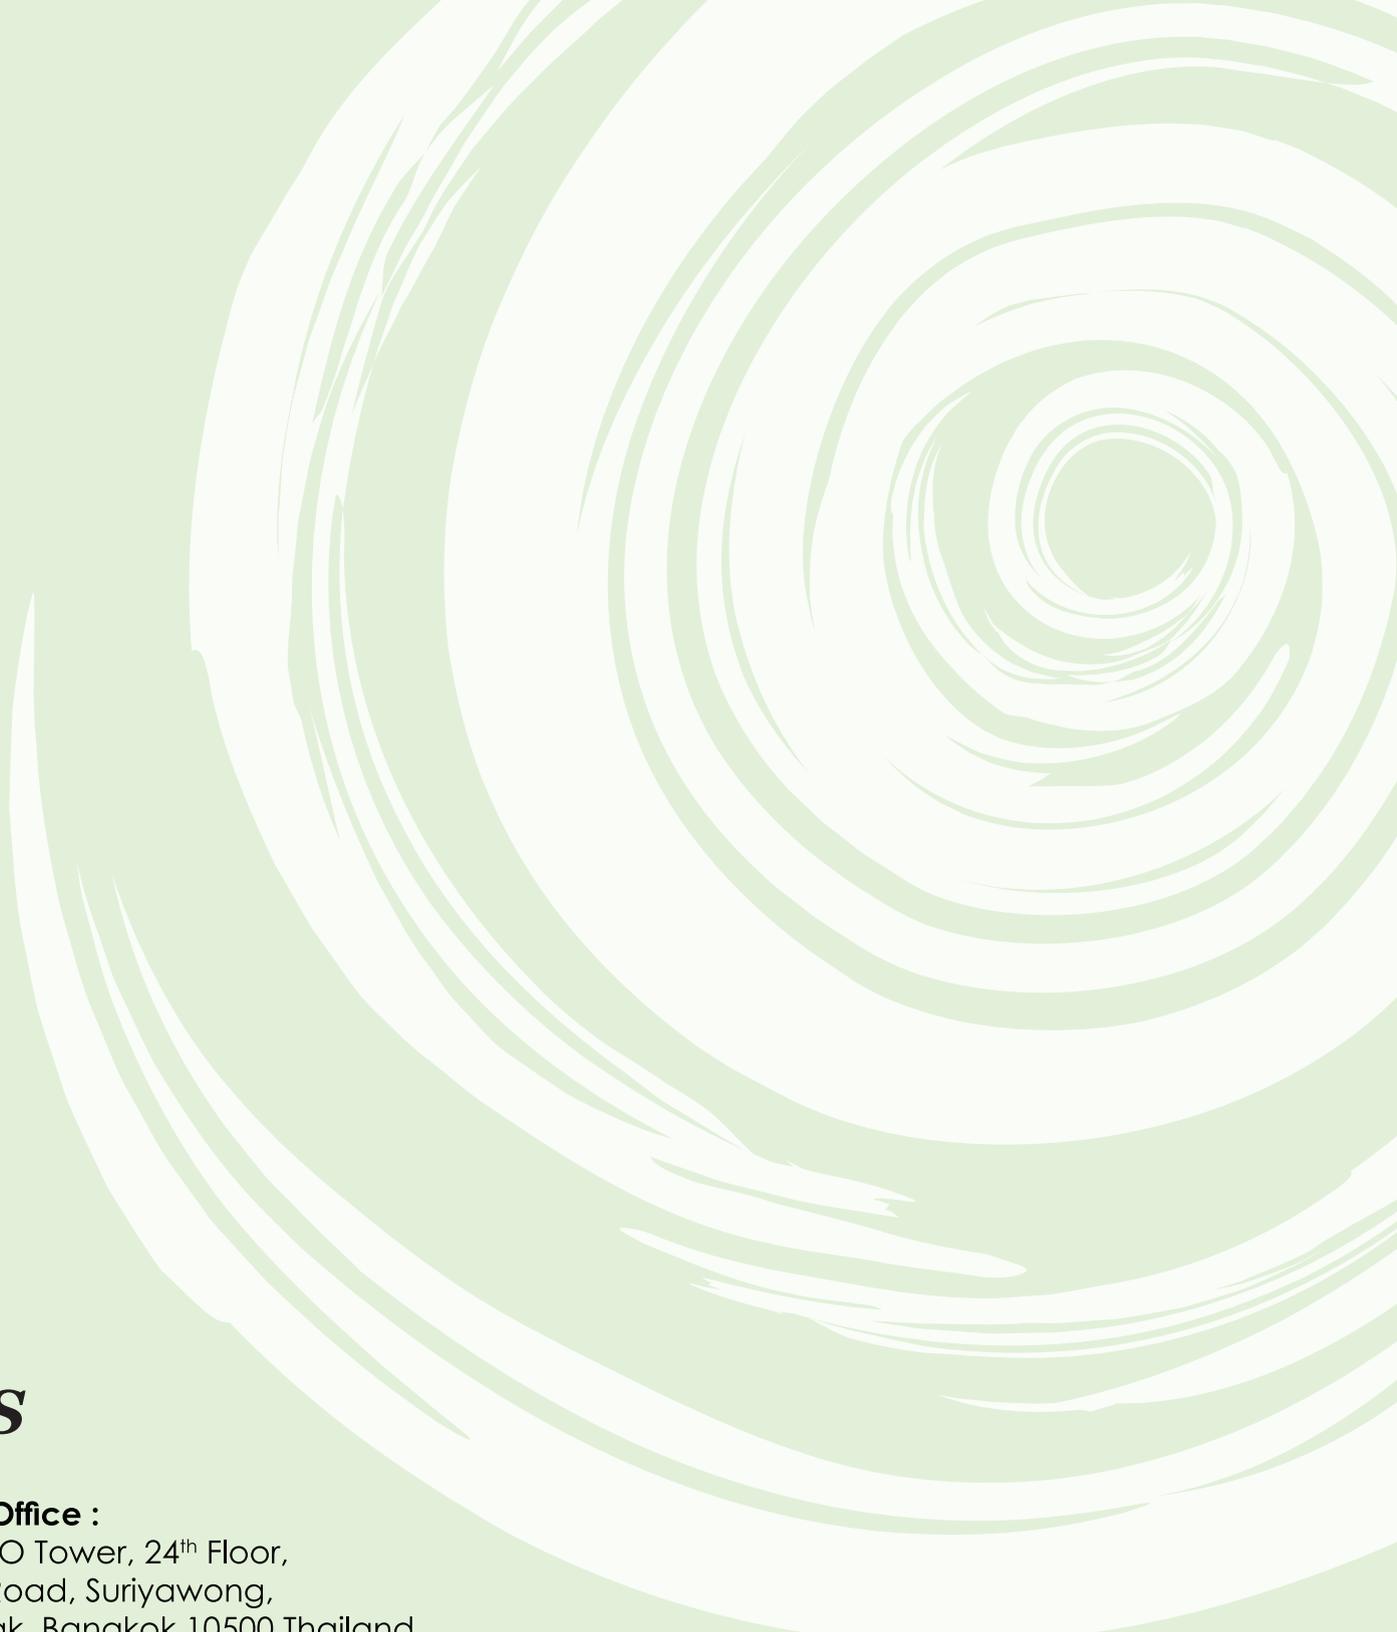

In this regard, the date specified for determining the names of shareholders entitled to the allocation of newly-issued ordinary shares to existing shareholders in proportion to their respective shareholding (Right Offering) (Record Date) shall be 27 March 2019.

43.1.6.2 The allocation of newly-issued shares from capital increase to accommodate the rights adjustment of GJS-W3 Warrant and GJS-W4 Warrant as follows:

- 1) The allocation of newly-issued shares from capital increase to accommodate the rights adjustment of GJS-W3 Warrant in the amount of 230,536,917 shares at the par value of Baht 0.96.
- 2) The allocation of newly-issued shares from capital increase to accommodate the rights adjustment of GJS-W4 Warrant in the amount of 178,832,536 shares at the par value of Baht 0.96.

43.2 Loan from related party

Since 1 January 2019 to the reporting date, the Company has repaid third loan facility in amount of USD 20 million.
