The One Report 2023 (Form 56-1 One Report) is based on information disclosed on the Company's website, which is part of Form 56-1 One Report and the Board of Directors is responsible for the accuracy and completeness of the referenced information, as well as bringing the information to appear in this 56-1 One Report form.

Message from the Chairman

Dear Fellow Shareholders,

On 2023 G J Steel accelerated its growth as a premier provider of Hot Rolled Steel to our industry here in Thailand and abroad. Our environment was and continues to be challenging. From the outside it is clear that Mr. Bantoon Juicharern provides strong hands-on guidance to the team. In this environment, within which we operate, it is all about value creation for our shareholders.

As a board, we have a close working relationship with the CEO and his team. We provided oversight relative to strategic leadership appointments and continuing to strengthen our cultural advantages.

Looking inside the company the board has observed a priority on safety, treating employees with dignity and respect, maintaining the highest standards of governance and integrity and desire to be the best steel company to work for.

The Board's Vision is: we want to be seen from the outside as flexible and giving customers what they want when they want it. Inside the vision is perfect execution of operations including being seen as the preferred choice for market solutions even with constant competitive pressures.

Still it is an exciting time for G J Steel. We continue to reengineer our company with World Class Leadership and won't stand still. We are stepping up efforts to compete outside the Asian region, as we have the quality and marketing team to do so.

Be assured that we plan to uphold our intense scrutiny of corporate governance ethical behavior with a well balanced and experienced team lead by our CEO.

On behalf of the Board of Directors and myself, we respectfully thank the Thai Government, all Shareholders, supply chain partners and customers as we urgently move forward.

The Management team and employees deserve credit for their commitment to the success of G J Steel.

On behalf of the Board, thank you for your ongoing trust and support.

Stephen K. Stewart

Chairman of Board of Directors, G J Steel

Message from Chief Executive Officer

2023 was a challenging year marked by geopolitical tension in Europe and Middle East and the escalating energy cost. Thailand GDP has grown merely by 1.9 % in 2023 mainly due to weak exports and delayed government spending.

On the backdrop of this difficult operating environment, the Thai Steel Industry also suffered, with total steel consumption of Thailand declining and more particularly, the Hot Rolled Steel consumption falling by 2% to 5.55 million Mt in 2023 compared to 5.67 million Mt in 2022. Exports from China to overseas markets touched record

highs due to sharp decrease in demand amidst its ongoing real estate problems coupled with increased production. This put much pressure on the Company's sales volume and sales price.

Under such circumstances, the management has been taking countermeasures to improve the internal working which the company has more control over, mainly the cost reduction. The company succeeded in optimizing scrap mix by reducing expensive import pig iron and other cost reduction initiatives that saved cost significantly. However, due to price hike of energy cost especially in the first half of the year as well as the decline in sales volume in the second and the fourth quarter, the Company could not fully enjoy the cost reduction effect.

Thanks to the initiation of Anti-circumvention on Alloy HRC from China in September 2023 by the Department of Foreign Trade, the import of Alloy HRC from China decreased since the fourth quarter of 2023 giving some relief to the domestic producers.

As we cross to 2024, Thailand's GDP is expected to increase by 2.2-3.0 % which along with expected increase in government spending is likely to revive the steel demand from second half of the year. Also, we anticipate that the influx of unfair imports of HRC will be reduced and it will enable us to improve our sales volume. We will continue our self-controlling initiatives and implementation of CAPEX projects to improve product quality, stabilize operation and improve productivity to enhance profitability.

I would also like to take this opportunity to express my sincere thanks to the Thai Government, all our Stakeholders, Employees, Business Partners and Nippon Steel Corporation for supporting us during these challenging times and assure all our best endeavor to realize our vision of making the Company one of Asia's Top Competitive EAF/HRC Mill.

Mr. Bantoon Juicharern

Part 1

Business Operation and Operating Results

Business Overview

G J Steel Public Company Limited runs a business of producing and selling hot-rolled steel sheet in coils (or hot-rolled coils) as main products as per customers' orders. The Company's main products are used directly in construction works, water irrigation and civil engineering, and used as substrates or raw materials for steel sheet fabrication industry, e.g. making pipes, tubes and structural shapes for uses in construction, other downstream industries for making oil drums, gas cylinders, general industrial equipment or parts, etc.

The Company's hot-rolled coil plant has deployed state-of-the-art technologies that perfectly and efficiently integrate melting, casting and rolling processes in one plant, or known as "Compact Mini Mill", which consists of melting technology with Electric Arc Furnace (EAF), Continuous Casting Machine technology and Hot Strip Mill in tandem continuously throughout all the said processes.

The Company's production process, in brief, begins from taking ferrous scraps and pig iron to melt in the EAF to make liquid steel at 1,600 degrees Celsius, then refining the quality of liquid steel with ferro-alloys and other substances to meet the requirements of the standard or customer's specification, and casting the refined liquid steel into the continuous casting machine to make steel slabs of 60 mm thickness, and hot-rolled to reduce the thickness down to the range of 1.2 - 25.0 mm as per the customer's order. The said production process is thoroughly continuous and takes just 3 hours and a half to finish.

The Company's hot-rolled coil plant has a capacity of 1.5 million tons per year that meets the various product mixes by customers' orders. Our hot-rolled coil products are made to comply with the Thai industrial standards (TIS), and also international and foreign standards, for instances, Japanese standards (JIS), American or the U.S. standards (ASTM and SAE), European standards (EN), Malaysian standards (MS) etc.,

Vision

“Asia’s Top Competitive EAF/HRC Mill”

Mission

1. Establish high level of safety, environment and risk management.
2. Enhance customers’ satisfaction with quality and variety of products.
3. Sustain high level of stable operations.
4. Improve cost competitiveness and function competitiveness.
5. Contribution to Thai economy and society including contribution towards Thailand’s carbon neutrality goals.

Business Objectives:

The Company's Mission is as below:

1. Establish high level of safety, environment and risk management.
2. Enhance customers' satisfaction with quality and variety of products.
3. Sustain high level of stable operations.
4. Improve cost competitiveness and function competitiveness.
5. Contribution to Thai economy and society including contribution towards Thailand's carbon neutrality goals.

To achieve the above, the Company will take the following steps:

- The Company shall foremost comply with the safety, health and environment laws and rules.
- Continue its focus on strategic and sustainable cost optimization to generate reasonable returns through various cycles.
- To continue investment in improving the health of plant & machinery to ensure stable operations, quality consistency and continuous upgradation to new technologies.
- To implement Total Productive Maintenance/Management (TPM) activities in all areas of the Company to help us strengthen all the processes and improve productivity, quality, cost, delivery and environment preservation.
- To improve the quality of products and new product development.
- To continue working with various Steel Associations and Government Authorities.
- To strictly follow guidelines set up by the Collective Action against Corruption (CAC).

The significant change and development during the past 3 years

Key Events in 2023

- The Government of Thailand through the Ministry of Commerce has announced following steps to curb the unfair HRC imports –
 - ✓ Extension for enforcement of Anti-dumping measures for hot-rolled coils and non-rolled steel products originating from the Federal Republic of Brazil, Islamic Republic of Iran and the Republic of Turkey for a period of 5 years, effective from June 2, 2023 to June 1, 2028.
 - ✓ Extension for enforcement of Anti-dumping measures for hot-rolled steel flat products originating from the People's Republic of China and Malaysia for a further period of 5 years, effective from July 11, 2023 to July 10, 2028.
 - ✓ On September 15, 2023, the Department of Foreign Trade issued an announcement in the Royal Gazette to initiate the investigation on anti-dumping circumvention in the case of hot rolled steel sheets in coils and not in coils which originated from the People's Republic of China to extend the imposition of anti-dumping duty on imports of hot rolled alloy steel in coils and not in coil originated from the People's Republic of China.

Key Events in 2022

- During the year, Nippon Steel Corporation (NSC), whose shares are listed in Stock Exchange in Japan and whose core business is steel making and steel fabrication, acquired 40.45% of the shares of the Company and launched Mandatory Tender Offer and acquired 7.70% of the total shares of the Company. Consequently, NSC now holds 57.60% directly and indirectly including shares held by G Steel PLC and its subsidiary.

Please refer to Note number 1.2 of the Financial Statements for the year ended 31 December 2022 for further details.

- During the year, the Company obtained uncommitted and unsecured short-term credit facilities from a local related party and various local financial institutions to fund its working capital (including bank guarantee, letter of credit, trust receipt, and foreign exchange facilities) and cash management requirements.

Please refer to Note number 26 of the Financial Statements for the year ended 31 December 2022 for further details.

- The Company has launched Cost Reduction Program as a counter measure for increasing prices of all inputs especially utilities. The Company has further rolled out Total Productive Maintenance activities in all areas of the Company. This will help us strengthen all the processes and improve productivity, quality, cost, delivery and environment preservation.
- The Company has engaged technical experts to carry out a review of the Galvanizing line lying under construction in progress. Based on such technical review, the additional investment required for making the Galvanizing line operational was estimated at USD 44.25 million to USD 47.25 million (equivalent to approximately Baht 1,534 million to Baht 1,638 million). The management further noted that in spite of this additional investment, it would be very unlikely that such Galvanizing line could achieve the desired production capacities, quality parameters, and subsequent guarantee figures. If the old and rusted parts are not replaced, the risk of operational stability, frequent breakdowns due to cracks and jamming, which resulted

in high maintenance/operational costs and importantly quality and safety issues will remain major concerns and finally, the Company's product image will significantly be damaged. After considering various factors, the Management Committee resolved not to continue with the commissioning of the existing Galvanizing line but to set up additional an impairment loss on such Galvanizing line (using the market scrap price) amounting to Baht 3,617 million in the books. Subsequently, the Audit Committee and Board of Directors meeting held on February 23, 2023, approved to record impairment loss on unusable machines held for sale amounting to Baht 3,617 million in the statement of comprehensive income for the year ended December 31, 2022.

Key Events in 2021

- The Company recorded significant profits during the year due to global uptrend in HRC prices and improved raw material mix. The cashflows were mainly utilized in repayment of loans to Link Capital and reducing the several other liabilities. Thus, G J Steel has become a fully debt free company.
- The Company has been following the strategy to reduce pig iron (which is imported) and imported scrap and increase the percentage of local scrap. Through several process changes over last few years the Company has succeeded in increasing the local scrap percentage to 70.4% in 2021 compared to 45.7% in 2017. This not only helps to reduce the costs (since local scrap is cheaper) but also helps in reducing the risk of price and forex fluctuations.

2024

February

21 February 2024: The Board of Directors Meeting No. 1/2567 has resolved the following significant matters.

- 1) Acknowledged the resignation of Mr. Yoshifumi Tokita as Authorized Director of the Company, with effect from 1 March 2024 onwards.
- 2) Approved the appointment of Mr. Takatsugu Koyanagi as Authorized Director of the Company replacing Mr. Yoshifumi Tokita, with effect from 1 March 2024 onwards.
- 3) Approved the amendment of the Directors' Signatory Authorization as follows;
“(1) (a) either Mr. Takatsugu Koyanagi or Mr. Somchai Leeswadtrakul jointly signs with (b) either Mr. Takayuki Suzuki or Mr. Takashi Sekino or Mr. Bantoon Juicharern, totaling 2 persons (one from each of (a) and (b)), together with the Company's seal being affixed or (2) Two out of Mr. Takayuki Suzuki or Mr. Takashi Sekino or Mr. Bantoon Juicharern jointly signs with the Company's seal being affixed.”
- 4) Acknowledged the resignation of Mr. Toshikazu Mukaiyama, Head of CEO Office & Corporate Planning, Chief Marketing Officer, and Acting Chief Procurement Officer, from the position of Chief Marketing Officer and approve the appointment of Mr. Toshikazu Mukaiyama as Chief Procurement Officer. Consequently, Mr. Toshikazu Mukaiyama will be Head of CEO Office & Corporate Planning and Chief Procurement Officer of the Company, with effect from 1 March 2024.
- 5) Approve the appointment of Mr. Yoshifumi Tokita, as Chief Marketing Officer of the Company replacing Mr. Toshikazu Mukaiyama, with effect from 1 March 2024.

2023

August

9 August 2023: The Board of Directors Meeting No. 6/2566 has resolved the following significant matters.

- 6) Acknowledged the resignation of Mr. Nobuo Okochi as Authorized Director and Nomination and Remuneration Committee Member of the Company, with effect from 10 August 2023 onwards.
- 7) Approved the appointment of Mr. Takayuki Suzuki as Authorized Director and Nomination and Remuneration Committee Member of the Company replacing Mr. Nobuo Okochi, with effect from 10 August 2023 onwards.
- 8) Approved the amendment of the Directors' Signatory Authorization as follows;
“(1) (a) either Mr. Yoshifumi Tokita or Mr. Somchai Leeswadtrakul jointly signs with (b) either Mr. Takayuki Suzuki or Mr. Takashi Sekino or Mr. Bantoon Juicharern, totaling 2 persons (one from each of (a) and (b)), together with the Company's seal being affixed or (2) Two out of Mr. Takayuki Suzuki or Mr. Takashi Sekino or Mr. Bantoon Juicharern jointly signs with the Company's seal being affixed.”

April

28 April 2023: The 2023 Annual General Meeting of Shareholders has resolved the following significant matters.

- 1) Approved the Appointment of Mr. Yoshifumi Tokita to be an Authorized Director of the Company in replacement of Mr. Yanyong Kurovat as he has expressed his intention not to renew his term.
- 2) Approved the amendment of the Directors' Signatory Authorization with the details as follows: “(1) (a) either Mr. Yoshifumi Tokita or Mr. Somchai Leeswadtrakul jointly signs with (b) either Mr. Nobuo Okochi or Mr. Takashi Sekino or Mr. Bantoon Juicharn, totaling 2 persons (one from each of (a) and (b)), together with the Company's seal being affixed or (2) Two out of Mr. Nobuo Okochi or Mr. Takashi Sekino or Mr. Bantoon Juicharn jointly signs with the Company's seal being affixed.”

March

27 March 2023: The Board of Directors Meeting No. 3/2566 has resolved the following significant matters.

- 1) Acknowledged the resignation of Mr. Kenichi Hoshi as Authorized Director and Corporate Governance and Risk Management Committee Member of the Company, with effect from 1 April 2023 onwards.
- 2) Approved the Appointment of Mr. Takashi Sekino as Authorized Director and Corporate Governance and Risk Management Committee Member of the Company replacing Mr. Kenichi Hoshi, with effect from 1 April 2023 onwards.
- 3) Approved the amendment of the Directors' Signatory Authorization as follows; “(1) (a) either Mr. Yanyong Kurovat or Mr. Somchai Leeswadtrakul jointly signs with (b) either Mr. Nobuo Okochi or Mr. Takashi Sekino or Mr. Bantoon Juicharn, totaling 2 persons (one from each of (a) and (b)), together with the Company's seal being affixed or (2) Two out of Mr. Nobuo Okochi or Mr. Takashi Sekino or Mr. Bantoon Juicharn jointly signs with the Company's seal being affixed.

February

23 February 2023: The Board of Directors Meeting No. 1/2566 has resolved the following significant matters.

- 1) Acknowledged the resignation of Mr. Yingsak Jenratha as Independent Director, Audit Committee Member and Corporate Governance and Risk Management Committee Member of the Company, with effect from 24 February 2023 onwards.
- 2) Approved the Appointment of Dr. Prasit Kanchanasakdichai as Independent Director, Audit Committee Member and Corporate Governance and Risk Management Committee Member of the Company replacing Mr. Yingsak Jenratha, with effect from 24 February 2023 onwards.
- 3) Approved the Appointment of Mr. Toshikazu Mukaiyama, Head of CEO Office & Corporate Planning and Chief Marketing Officer as an Acting Chief Procurement Officer of the Company as another position, with effect from 1 March 2023.

2022

June

24 June 2022: The Board of Directors Meeting No. 6/2565 has resolved to approve the appointment of Mr. Rajeev Jhavar, Chief Financial Officer as a Chief Compliance Officer* of the Company as another position, with effect from 1 July 2022.

* The name of the position has changed from “Chief Compliance and Legal Officer” to “Chief Compliance Officer”, with effect from 9 August 2022

April

4 April 2022: The Company has received the Report on the Result of the Tender Offer of G J Steel Public Company Limited (Form 256-2) from NIPPON STEEL CORPORATION (the “Offeror”).

As the Offeror has made a mandatory tender offer for the securities of G J Steel Public Company Limited (the “Business”) in the amount of 25,487,134,896 shares or 100.00% of the total issued and paid-up ordinary shares of the Business with the tender offer period of 25 business days from 23 February 2022 to 29 March 2022, which has now ended, the resulting of the Tender Offer as follow;

Name	Class of shares	Number of shares	Percentage in comparison with the total number of outstanding shares of the Business*	Percentage in comparison with the total voting rights of the Business
I. The Offeror	Ordinary	1,962,277,175	7.70	7.70
II. Parties in the Same Group as the Offeror	-	-	-	-
III. Parties under Section 258 of the Persons in I and II				
1. Asia Credit Opportunities I (Mauritius) Limited	Ordinary	10,310,359,336	40.45	40.45
	NVDR	204,485	0.00	-
2. G Steel Public Company Limited	Ordinary	2,100,427,209	8.24	8.24
3. GS Securities Holding Company Limited	Ordinary	307,000,000	1.21	1.21
Total	Ordinary	14,680,063,720	57.60	57.60
	NVDR	204,485	0.00	-
	Total	14,680,268,205	57.60	57.60

*The total number of outstanding shares = ordinary shares + preferred shares - shares repurchased by the business and are outstanding at the end of the month prior to the one in which the tender offer is submitted

February

16 February 2022: The Board of Directors’ Meeting No. 1/2565 which resolved the following significant matters.

- 1) Acknowledged the resignation of the directors, with effect from 17 February 2022 at 11.00 a.m. (Bangkok time).

– Mr. Andreas	Rizal Vourloumis	Director
– Mr. Richard	Jim Yee	Director and Corporate Governance and Risk Management Committee Member
– Mr. Sudhir	Maheshwari	Director and Nomination and Remuneration Committee Member
- 2) Approved the Appointment of Directors in replacement of the Directors that have resigned, with effect from 17 February 2022 at 11.00 a.m. (Bangkok time).

– Mr. Ichiro	Sato	Director replacing Mr. Andreas Rizal Vourloumis
– Mr. Kenichi	Hoshi	Director replacing Mr. Richard Jim Yee and Corporate Governance and Risk Management Committee Member
– Mr. Nobuo	Okochi	Director replacing Mr. Sudhir Maheshwari and Nomination and Remuneration Committee Member
- 3) Acknowledge the resignation of Mr. Kanit Sukonthaman as Director, Chief Executive Officer and Chairman of the Executive Committee of the Company, and approve the appointment of Mr. Bantoon Juicharern as a new Director and the new Chief Executive Officer of the Company replacing Mr. Kanit Sukonthaman, with effect from 17 February 2022 at 11.00 a.m. (Bangkok time).
- 4) Approved the amendment of the Directors' Signatory Authorization as follows;
 “(1) (a) either Mr. Yanyong Kurovat or Mr. Somchai Leeswadtrakul jointly signs with (b) either Mr. Nobuo Okochi or Mr. Kenichi Hoshi or Mr. Bantoon Juicharern, totaling 2 persons (one from each of (a) and (b)), together with the Company's seal being affixed or (2) Two out of Mr. Nobuo Okochi or Mr. Kenichi Hoshi or Mr. Bantoon Juicharern jointly signs with the Company's seal being affixed.”

17 February 2022: The Company acknowledged the entry into the Sale and Purchase Agreement executed on 21 January 2022 between, amongst others, Kendrick Global Limited (“Shares Seller”) and NIPPON STEEL CORPORATION (“Shares Purchaser”). In this regard, the Sale and Purchase of Shares in ACO I has been completed. As a result of the transaction, the shareholding structure of ACO I has been changed as follows:

Shareholders in ACO I	Prior to the Sale and Purchase of Shares in ACO I		After the Sale and Purchase of Shares in ACO I	
	No. of shares	Percentage of shares with voting rights of ACO I	No. of shares	Percentage of shares with voting rights of ACO I
Kendrick Global Limited	19,885,955	100	0	0
NIPPON STEEL CORPORATION	0	0	19,885,955	100

24 February 2022: The Board of Directors' Meeting No. 2/2565 which resolved the following significant matters.

- 1) Approved the change of the Company's organization chart with effect from 1 April 2022 onwards.

- 2) Approved the appointment of the following names as a Company's Management and Management Committee members with effect from 1 April 2022 onwards.

- Mr. Yasuhiro	Sakamoto	Chief Operating Officer
- Mr. Toshikazu	Mukaiyama	Head of CEO Office & Corporate Planning and Chief Marketing Officer

The Management Committee shall comprise the following 4 members:

- Mr. Bantoon	Juicharern	Chairman of the Management Committee
- Mr. Yasuhiro	Sakamoto	Management Committee Member
- Mr. Toshikazu	Mukaiyama	Management Committee Member
- Mr. Rajeev	Jhawar	Management Committee Member

January

21 January 2022: The entry into the Sale and Purchase Agreement between, amongst others, Kendrick Global Limited ("Shares Seller") and NIPPON STEEL CORPORATION ("Shares Purchaser"), a company whose shares are listed on the stock exchanges in Japan and whose core business is steelmaking and steel fabrication, and other contractual parties in order to sell 100 percent ordinary shares in Asia Credit Opportunities I (Mauritius) Limited ("ACO I") in the amount of 19,885,955 shares in ACO I ("Sale and Purchase of Shares in ACO I"). Currently, ACO I owns 40.45 percent of the total voting shares of the Company and is a major shareholder of the Company.

Such Sale and Purchase of Shares in ACO I will not affect the number of shares which ACO I holds in the Company in any way but it will be the case of a change in the Company's indirect major shareholder and is the case where the Shares Purchaser acquires significant control over a juristic person who already owns shares in the business in accordance with the Chain Principle under the Notification of the Capital Market Supervisory Board No. TorJor. 12/2554 Re: Rules, Conditions and Procedures for the Acquisition of Securities for Business Takeover dated May 13, 2011 (including any amendments). Therefore, the Shares Purchaser will be required to conduct the mandatory tender offer in order to acquire all securities of the Company from all existing shareholders afterwards.

However, completion of the Sale and Purchase of Shares in ACO I and the mandatory tender offer will not happen until conditions precedent as set out under the SPA, which include, among others, the Company and G Steel Public Company Limited having obtained the specified permissions from the relevant Thai government authorities, are satisfied or waived pursuant to the terms of the SPA, which is expected to be in February 2022.

2021

February

23 February 2021: The Board of Directors' Meeting No. 1/2564 has resolved to approve the termination of Strategic Steering Committee, with effect from 23 February 2021. The termination, however, have no impact on the business operation.

Product Characteristics

The Company has operated the business as the manufacturer of hot-rolled steel plate and related products, which can be divided into the product line as follows:

- 1) Hot Rolled Coil
- 2) Skin-passed Hot Rolled coil
- 3) Hot Rolled Pickled & Oiled Product *

These products are used in the related industries as follows:

Type	Utilization
Hot Rolled Coil	Mechanical tube, electrical conduits, water pipe, construction, C-section, construction scaffold, electrical pole, gas cylinder, black steam pipe, product used in anti-corrosion from atmosphere and cold-rolled steel sheet.
Skin-passed Hot Rolled Coil	Agricultural tools, general construction and profile sheets.
Hot Rolled Pickled & Oiled Product *	Chassis, wheel, compressor, refrigerator frame, microwave frame.

Remark * Not available as of now.

Marketing and Competitions

Products Range

The Company is focusing on the production of products that ensure production stability and quality. Also developing special quality grades that the market still has to depend on import, such as steel quality for cold-rolling, gas cylinder, welding and high-tensile steel.

The Company has a plan to improve the strategy on product development as follows:

1. To focus on products on demand of the market and of regular use.
2. To develop products to support the market not only for the general construction industry and Tube sector, but also for manufacturing and large construction industry, including the industries of household, electrical appliances and automotive.
3. To supply hot rolled coil for production of cold-rolling and galvanizing steel.
4. To develop product with special thickness in the form of coil which is in the niche and the upscale market.

Pricing Strategies

1. The Company sets the price by base on world steel market price and production cost that is suitable for the general steel grades to be able to compete with the competitors and still can maintain the market share. This is included a method of expanding market share.
2. The Company improves the existing technology to help support low production cost to have the opportunity to enter new domestic and foreign markets.
3. The Company can produce goods with difference from the competitors on the quality and grade, so it can set the sales price that is higher. This strategy involves building an effective after-sales service.
4. The Company gives more information and confidence on the consumption of steel to the customer, including building good relations with the customers continuously.

Target Customer Groups

The customer target groups of the Company can be divided into three groups as follows:

1. Steel service centres, which are the buyers of steel products, such as hot rolled coil and cold rolled coil. They process to cut to sizes (cut sheet) for sales to the downstream customers.
2. Pipe makers such as the steel pipe manufacturers for use in the pipe work.
3. Other direct users and traders.

The Company focuses on production and distribution of hot rolled coil mainly for cut sheet usage, based on customer's preference and policy.

Channels of Distribution

For domestic sales the Company shall distribute its goods via the two channels as follows:

1. Direct Sales

The Company's sales to direct manufacturers stands at 10.5% in 2023.

2. Sales Through the Wholesalers

For other groups of the customers, which are the small customers and have numerous numbers, the Company shall distribute through the wholesalers, which can make the Company to reduce the expense on hiring the salesmen and the expense on marketing activities. Moreover, it is to shift the risk on credit in this group of customers to the wholesalers to be responsible for it. The Company sell through this channel at 89.5 percent of the domestic turnover for the year 2023.

The Company proposes to export its products in the international market to maintain domestic price and supply balance, bench mark its quality with best producers in the world, help build the Company's profile globally.

Marketing Strategies

1. The Company's customers are in various industries such as the pipe manufacturing, the domestic and foreign cold-rolled manufacturers, the steel service center, the auto industry, the large construction projects with the demand to use special quality steel.
2. The Company has developed and improved the quality of its products all the time by investing in the tools for modernization to increase potential and quality improvement and reduce cost of the production.
3. The Company has sent the working team with capability and expertise on using steel in the various applications and give support on the knowledge on the steel with the customers in the various industries for safety and optimization on the use of steel suitably.
4. The Company has succeeded very much in building confidence in the delivery of the goods to the customers punctually, so the customers can plan and manage the inventory suitably.
5. The Company has given prioritization on the improvement and development of the goods and service of the Company regularly with a survey and listening to the opinion of the customers periodically, so the Company knows of the correct and suitable demand of the customers clearly.

Steel Industry situation

Thailand's 2023 steel industry situation

From statistical information obtained from the Iron and Steel Institute of Thailand (ISIT), the volume of finished steel production in Thailand from January to December 2023 totaled 6.60 million tons, decreased 7.00% compared to the previous year (2022). If categorized by product groups, long steel products represent 4.56 million tons, decreased 1.67% compared to the previous year whilst the production volume of flat steel products stood at 2.04 million tons, decreased 17.07% compared to the previous year. The most produced in flat steel products belongs to cold rolled sheet where, in 2023, it totaled 2.00 million tons, decreased 7.98%, followed by hot rolled sheet (thickness ≤ 3 mm.) and coil at 1.89 million tons, decreased 18.18% year on year and coated steel, at 1.68 million tons, decreased 3.36% year on year.

Total Apparent Finished Steel (Unit : Tons)	2022	2023	% Change
Production	7,099,238	6,602,026	-7.00%
Import	10,780,695	11,206,898	3.95%
Export	1,487,192	1,478,118	-0.61%
Consumption	16,392,741	16,330,806	-0.38%

Long Product Finished Steel Consumption (Unit : Tons)	2022	2023	% Change
Production	4,639,908	4,562,569	-1.67%
Import	2,498,583	2,631,107	5.30%
Export	972,970	1,001,504	2.93%
Consumption	6,165,521	6,192,172	0.43%

Flat Product Finished Steel Consumption (Unit : Tons)	2022	2023	% Change
Production	2,459,330	2,039,458	-17.07%
Import	8,282,112	8,575,791	3.55%
Export	514,222	476,614	-7.31%
Consumption	10,227,220	10,138,635	-0.87%

Source : Iron and Steel Institute of Thailand, by Steel Business Intelligence

The finished steel consumption in Thailand in 2023 stood at 16.33 million tons, decreased 0.38% year on year. If categorized by product group, long steel products increased 0.43% compared to the previous year, to 6.19 million tons whereas the consumption of flat steel products decreased 0.87% compared to the previous year, to 10.14 million tons. The most consumed in flat steel products is hot rolled steel flat product, at 5.83 million tons followed by coated steel at 4.76 million tons and cold rolled at 3.22 million tons (respectively).

Import of finished steel into Thailand in 2023 stood at 11.21 million tons, increased 3.95% over the previous year. The highest imported product is hot rolled steel flat product at 3.82 million tons followed by coated steel at 3.18 million tons and cold rolled steel at 1.33 million tons (respectively). The ratio of imported steel consumption versus local steel consumption is at 68.62% against 31.38%, reflecting that Thailand still heavily relies on imported steel.

Thailand exported steel products 1.48 million tons in 2023, decreased 0.61% year on year. The most exported steel products are structural steel, at 310,161 tons followed by seamless pipe, at 306,296 tons.

Hot rolled steel flat product situation in Thailand in 2023 (not include Hot Rolled Stainless steel)

There is no upstream iron and steel industry in Thailand which starts with the melting of iron ore. As such, the structure of Thailand's iron and steel industry begins at the middle stream by melting steel scraps using electrical arc furnace (EAF) of local manufacturers. From there, the outputs are sent to the downstream production facilities, consisting of long steel products, for example, bar, hot-rolled section, wire rod, cold-drawn bar, steel wire, seamless pipes etc. and flat steel products, for example, hot rolled plate, hot rolled sheet and coil, cold rolled sheet, coated, cold-formed section, welded pipe etc. From there, the output is distributed to connected industry comprising users of steel products. As for the state of hot rolled steel flat product industry in Thailand, the statistical information obtained from ISIT i.e. production volume, import volume, export volume and consumption volume during January to December 2023 reveal the followings.

The local production volume of hot rolled steel flat product, coil and non-coil, in 2023 totaled 2.04 million tons, decreased 17.07% over the prior year. It consists of hot rolled sheet (thickness ≤ 3 mm.) and coil at 1.89 million tons, decrease 18.18% whereas the production of hot rolled plate remained stable at 149,951 tons.

Total Hot Roll (Unit : Tons) (Excluding Stainless Steel)	2022	2023	% Change
Production	2,459,330	2,039,458	-17.07%
Import	3,416,602	3,585,765	4.95%
Export	24,311	24,592	1.16%
Consumption	5,851,621	5,600,631	-4.29%

Total Hot Roll Plate Thickness > 3 mm. (Unit : Tons) (Excluding Stainless Steel)	2022	2023	% Change
Production	149,945	149,951	0.00%
Import	293,117	207,643	-29.16%
Export	3,518	8,089	129.93%
Consumption	439,544	349,505	-20.48%

Total Hot Roll Coil & Sheet Thickness ≤ 3 mm. (Unit : Tons) (Excluding Stainless Steel)	2022	2023	% Change
Production	2,309,386	1,889,506	-18.18%
Import	3,123,485	3,378,122	8.15%
Export	20,793	16,503	-20.63%
Consumption	5,412,078	5,251,125	-2.97%

Source : Iron and Steel Institute of Thailand, by Steel Business Intelligence

The local consumption of hot rolled steel flat product, both coil and non-coil in 2023, stood at 5.60 million tons, decreased 4.29% consisting of hot rolled sheet (thickness ≤ 3 mm.) and coil of 5.25 million tons, decreased 2.97% and hot rolled plate 349,505 tons, decreased 20.48%.

Import of hot rolled steel flat product in 2023, both coil and non-coil, increased 4.95%, to 3.59 million tons divided into hot rolled sheet (thickness ≤ 3 mm.) and coil of 3.38 million tons, increased 8.15% and hot rolled plate of 207,643 tons, decreased 29.16%.

Export of hot rolled steel flat product in 2023, both coil and non-coil, stood at 24,592 tons, increased 1.16% compared to the previous year, divided into hot rolled sheet (thickness ≤ 3 mm.) and coil of 16,503 tons, decreased 20.63% from the same period last year and hot rolled plate of 8,089 tons, increasing by 129.93% from last year.

Production Process

The Company uses the production method of the mini mill instead of the integrated plant. The plant of the Company has the advantage over the other mini mill by using the technology of ConSteel ® process. It is developed by Intersteel Technology Inc. and the thin slab casting developed by SMS Group. The cast steel goes to the tunnel furnace to the hot-rolled process via the six rolling stands. Then it goes to the cooling process by using the Laminar cooling and to the coiler. The method of production by SMS that integrates the cast of steel slab and hot roll together called the Compact Strip Production (“CSP”)

The production process that uses the technology on continuous feeding steel scrap and/or the CSP has been installed in other plants in the USA, Japan and Italy. The advantages of the said technology and the technique are as follows:

1. The technology of continuous feeding steel scrap helps to reduce energy consumption in the Electric Arc Furnace (“EAF”), due to no need to open the EAF roof to receive the steel scrap, so less energy loss. While conveying the steel scrap to the furnace, the steel scrap receives heat from the EAF flue/waste gas and is preheated before entering EAF, that can reduce the electrical energy consumption.

2. Production of hot-rolled steel by hot charging the thin cast slab can reduce the cost. The first is the cost of energy by reducing the loss of energy in the process of conveying the thin slab through the tunnel furnace to enter the hot-rolled process directly, while the steel slab still has the temperature at 900-1,000 °C. Another aspect is the size of the thickness that starts rolling from the reduction at the thickness of 50-60 mm instead of starting at the 200-250 mm as in the conventional slab casting.

3. Continuous production process from the conversion of raw material to hot-rolled steel within less than 5 hours, so no work in process left during the production, and then the production process has flexibility and punctuality.

The production process of the Company after deriving of the hot-rolled steel can be further processed by 2 independent stages which are:

- 1) Skin-pass mill line.
- 2) Pickled and Oiled line. (Utilizing only the Tension leveler mode for flatness improvement)

Raw Materials used in the production process

There are four main raw materials used in the production process which are Pig Iron, Import Scrap, Local Scrap and Return Scrap (scrap from production process).

In the past year, The Company uses raw materials in the production process can be divided as follows;

- 1) Pig iron 0-5%
- 2) Import scrap 5-10%
- 3) Local scrap 80-90%
- 4) Returned scrap 3-5%

Raw Materials procurement

The demand for raw materials (Pig Iron and Steel Scrap) is still high and the supply of domestic raw materials are insufficient compared with the domestic demand. Therefore, the Company still needs to keep import raw materials.

In the past year, the Company procured raw materials as follows:

- Procurement of Local scrap approximately 90%.
- Procurement of Pig Iron and Import scrap approximately 10%

Assets used in a business

Main fixed assets are classified in table below:

Unit: Million Baht

Asset Category	Ownership	Net Book Value 31 Dec 2023	Obligation****
Land and land improvement (*)	Own	1,010	No
Building (*)	Own	1,340	No
Machinery and equipment(*)	Own	5,701	On process to release mortgage
Office equipment	Own	65	No
Vehicles (**)	Operating lease	9	No
Construction in progress	Own	120	No
Total		<u>8,245</u>	

Remark:

(*) The Company's assets consisted of land, building, machinery and equipment, construction in progress which are located in the factory.

(**) The right-of-use assets includes Vehicles which are acquired by lease liabilities with various local leasing and private companies for which the Company has a right for obtaining the right to control and use right-of-use assets and the Company have to comply with certain restriction as specified in the lease contracts.

(***) Obligations see more details in attachment 4. Assets used for business.

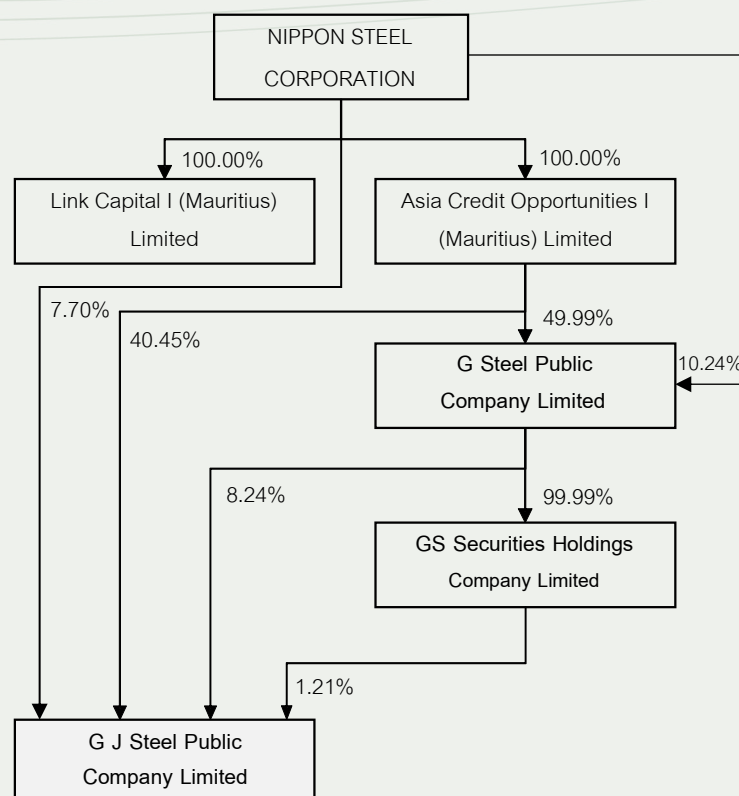

The major intangible assets used in business operations are:

Unit: Million Baht

Asset Category	Net Book Value 31 Dec 2023	Obligation
Software	5	No

Relationship with major shareholders' business

Diagram showing Structure as of 31 December 2023

Conflict of interest between NIPPON STEEL CORPORATION (“Major shareholder”) and the Company

The Major shareholder’s business operations in Thailand and the Company conduct different businesses while the Major shareholder’s business operations in Thailand focuses on (1) rerolling hot-rolled coil for automobiles, cans, and building and construction, (2) pickled and oiled hot-rolled coil for automobiles and (3) other hot-rolled coil for automobiles, the Business focuses on hot-rolled coil for general use.

Because of the differences in product applications and customers as well as product characteristics, the Major shareholder’s business operations in Thailand has no conflict of interest with the Company.

Conflict of interest between the Company and G Steel Public Company Limited (“GSTEEL”)

In order to prevent the conflict of interest in the future between the Company and GSTEEL, the Company and GSTEEL have set the guideline of measurements for conflict of interest between the Company and GSTEEL with details as shown below;

- 1) Maintain the current customer-driven policy of production based on orders received independently from the customers of each company separately whereby the purchase quantity of each company are decided by the existing and/or new customers themselves. Though the Company and GSTEEL have production capability to produce similar product range, based on the customer’s preferences the Company focuses on producing HRC mainly for the cut sheet usage and GSTEEL focuses on producing HRC mainly for pipe making industry. The Company uses such guideline for preparing its business plan which will be monitored by the Audit Committee on quarterly basis.

- 2) Reduction of chance of the business competition between the Company and GSTEEL: The management of the Company and of GSTEEL shall plan and prepare the guidelines on future business expansion on the principle of its respective expertise, production process, the present customer target group, avoid the redundant investment and encourage the economies of scale in terms of both production and purchase of raw materials based on the current customer driven production policy as explained in No. 1 above in the best interest of each of the Company and GSTEEL.
- 3) Independence of the board of directors and the management: The Company and GSTEEL have its own independent boards and audit committees to maintain the interest of minority shareholders on both sides, and each company's management has their own business policy to maintain an independent management approach in the best interest of each of the Company and GSTEEL.
- 4) The authority to approve business plan lies with the board of directors of each company which includes of independent directors. The CEO and the management team do not have the authority to carry out the business operation without a business plan approved by the board of directors. The board of directors review the market environment, customers requirements, procurement and operational costs and other factors before approving such business plan. Further, in the event of a tie vote, the chairman (who is an independent director) of the meeting shall have a casting vote.
- 5) Making related transaction between the Company and GSTEEL: Both Companies have policies to maintain the commercial arm's length basis in making any related party transaction between the Company and GSTEEL. In case there is a related transaction between the two companies, both companies shall have transparent reviewing procedure with the auditor in order to be able to verify and comment on such related transactions and make sufficient disclosure in the Companies' financial statements.

To prevent conflict of interest between the Company and GSTEEL, the Company focuses on producing HRC mainly for the cut sheet usage while GSTEEL focuses on producing HRC mainly for pipe making industry. From the Policy and customer orders per production capability and quality of each company, the proportion for 2022 and 2023 are as below

Production - End Use Wise	The Company	
	2022	2023
Pipe	26%	21%
Cut Sheet	59%	68%
Other	15%	11%
Total	100%	100%

Name list of Shareholders

As of 28 December 2023, top ten shareholders and stock holding proportion based on paid-up capital are as follows:

No.	Name of shareholders	Number Shares	% of paid-up capital
1.	NIPPON STEEL CORPORATION GROUP	14,680,063,720	57.60
	ASIA CREDIT OPPORTUNITIES I (MAURITIUS) LIMITED* ⁽¹⁾	10,310,359,336	40.45
	G STEEL PUBLIC COMPANY LIMITED ⁽²⁾	2,100,427,209	8.24
	NIPPON STEEL CORPORATION ⁽³⁾	1,962,277,175	7.70
	GS SECURITIES HOLDINGS COMPANY LIMITED ⁽⁴⁾	307,000,000	1.21
2.	QUAM SECURITIES LIMITED A/C CLIENT	1,493,269,228	5.86

2.	Ms. Methikan Chutipongsiri	8,299,999	16.60
3.	Mr. Manit Chiachuabsilp	8,000,000	16.00
4.	Mrs. Patum Chiachuabsilp	5,200,000	10.40
Total		<u>50,000,000</u>	<u>100.00</u>

Other Securities

For the year 2023, the Company does not issue other securities.

Dividend Policy

The Company has a policy in relation to dividend payment to the shareholders. As a normal practice which the Company does not require to use the fund for additional investment or expansion project and have sufficient cash flow, the Company has its policy in relation to dividend payment the rate of approximately 50 percent of the net profit from operations after corporate income tax and legal reserves. However, the Board of Directors may determine the dividend payment to be differed from the aforesaid policy as the Company's appropriateness and necessity, such as in the case that the Company requires fund for investment or business expansion, or in the event of changing in economic or market conditions or any other events that impact to the Company's liquidity, etc.

Risk Management Plan and Policy

G J Steel Public Company Limited has confidence and is aware of the importance of effective risk management and the principles of good corporate governance. Therefore, risk management plays an important role in promoting the stable operation of the Company. It helps to increase the chances of success for the company as much as possible and reduce losses to an acceptable risk level. There is a management process to prevent risks, events or uncertainties that may occur and cause damages which may clearly affect the achievement of the Company's objectives.

The Company is therefore determined to carry out risk management tasks that cover the entire organization and in accordance with good and international practice. The framework for internal control practices according to international standards of COSO (The Committee of Sponsoring Organizations of the Treadway Commission) was used to improve and develop in conjunction with the Enterprise Risk Management (ERM) framework to be a tool in developing internal controls and managing risks which will increase the chances of success in business, minimize failures including losses and uncertainty in the Company's performance.

For clarity in risk management, the Company's Risk Management Committee has established a policy framework for risk management including the guidelines for operation and the Company's risk management plan as follows:

1. Conducting risk management in the most efficient way, at an acceptable level and involves all employees in the risk management process.
2. Establishing measures to assess the effectiveness of risk control in various fields as well as determining methods to mitigate risks that will cause losses to the organization.
3. Determining an annual risk management plan and following up on the operations along with reporting on various progress to the Audit Committee.
4. Encouraging employees throughout the organization to be aware and help prevent risks that may arise as well as campaigning for risk management to be part of the culture that leads to creating value for the organization.

Risk Assessment

It is an assessment to determine the level of risk by considering the likelihood of an event, risks and impact to the Company as well as assessing how likely such risks are to occur; and what level of severity it will be if it happens. This is in order to prioritize using criteria set by the Company or criteria set by the segment within the context of the segment but should be consistent with the criteria of the Company. The risk assessment uses a combination of historical data and future forecasts to be considered together.

In the Company's risk assessment process, these two components will be considered:

1. Likelihood means the likelihood or frequency of risky events that are likely to occur.

Likelihood	Description	Risk Rating
Almost Certain	Happening now or will occur at least monthly	5
Likely	May occur every 6-12 months	4
Possible	May occur every 1-5 years	3
Unlikely	May occur every 5-10 years	2
Rare	May occur every 10 or more years	1

- Severity of the impact of risks (Consequence) means the severity of a risk event that, if it occurs, will affect various aspects. The Consequence can be both quantitative impacts such as financial damage or operational impact; and qualitative impacts such as the impact on the reputation and image of the Company, impact of safety on life and property of personnel and the effectiveness of work.

Consequence	Description	Risk Rating
Catastrophic	Wide damage, lasting weeks, impact high	5
Major	Requires urgent attention, impact days	4
Moderate	Requires attention, inconvenience	3
Minor	Isolated case, some small disruptions	2
Insignificant	Minor issue of little concern to community	1

Risk Rating

Risk rating is the process to consider risks under the dimension of likelihood and impact. The impact assessment must consider the impact in all aspects. Then, choose the impact that is consistent with the objectives of the Company to prioritize and to decide what risk(s) should be addressed first.

Ranking		Consequence				
		1-Insignificant	2-Minor	3-Moderate	4-Major	5-Catastrophic
Likelihood	5-Almost Certain	(5)	(10)	(15)	(20)	(25)
	4-Likely	(4)	(8)	(12)	(16)	(20)
	3-Possible	(3)	(6)	(9)	(12)	(15)
	2-Unlikely	(2)	(4)	(6)	(8)	(10)
	1-Rare	(1)	(2)	(3)	(4)	(5)

A risk ranking table is a tool that is used during the risk rating process. It defines the level of each risk by considering the probability or likelihood of an event against the severity of the consequence to the business if it was to occur.

The risk ranking table is calculated by multiplying the score level between the Likelihood and the consequence. The risk ranking table will show the extent of the severity that the company can accept in order to set a goal that must be achieved until the level of severity is reduced.

Acceptable risk (Risk Appetite) is an event of uncertainty that the Company accepts to occur and remain with the Company's business operations while still achieving the goals. All units are assigned to determine the cause and effect of the risk including assessing measures to manage such risks.

Rating Scales –The definition and risk level of each performance score

This process is an interpretation of the score obtained so as to consider the course of action that takes into consideration the acceptable risks and costs incurred and compare with the benefits that the Company will obtain by reducing the likelihood of impact or limiting the potential losses. In this regard, the Company has set acceptable risk boundaries at various levels as follows:

Risk Level	Score	Color	Meaning (recommendation)
Low Risk	1-2	Green	Acceptable risk without risk control and no additional management
Medium Risk	3-6	Yellow	Acceptable risk without risk control and prevented to move into unacceptable level
High Risk	7-12	Orange	Unacceptable level and Company must manage the risk to reduce it into the acceptable level
Extreme Risk	13-25	Red	Risk Level is unacceptable and Company needs to manage the risk and accelerate to reduce it into acceptable level

Risk responses can be implemented based on the following guidelines:

1. Risk avoidance is to avoid chances, including risk-prone events, by stopping, canceling, changing, modifying, reducing the size of the activity or project to be undertaken or choosing another activity or project that is more acceptable.
2. Risk diversification is the distribution or transfer of all or part of the risks to others who are confident that they can control them such as insurance, contracts, outsourcing, etc.
3. Risk reduction and control is to reduce the likelihood of a risk or the severity of its impact by using additional methods to manage risk such as internal audits and controls, performance tracking, contingency plans, personnel training to develop skills, etc.
4. Risk acceptance is to accept the risks that will occur which is the risk that the organization can accept or risk management costs are higher than benefits or the resources are insufficient for the operation. However, the Company must take measures to monitor such operations closely.

Monitoring and Evaluation

In the risk management process, the Company's Risk Management Committee has a follow-up evaluation to ensure that operations are appropriate and within acceptable risk limits. In this regard, the risk management plan is used to analyze the risks of the operation process. Moreover, the Company has reviewed and evaluated the existing risk management plan in order to correct any deficiencies and supervise the risk management plan to be consistent with the ever-changing situation.

Risk Factors

Risk factors involved in the Company's business that may have a significant effect on the return on investment and ways to prevent risks can be summarized as follows.

Risks arising from Production, Transportation and Scrap Purchasing

Production risks involving procurement and repair of spare machinery to replace worn out machinery.

Due to the unique characteristics of large machines, risk factors occur when the plant carries out repair arrangements or orders a replacement machine as time is extremely important. Therefore, the maintenance schedule and plan on procuring the new replacement machine must be on time so that the production is not interrupted. If it is necessary to stop production, it must be for the shortest period of time.

Risks arising from domestic scrap procurement

Domestic scrap is the main raw material for production. It accounts for more than 80% of all major raw materials used in production. The proportion of its use depends on the scrap procurement

process and the amount of scrap available in the country. The company has planned to acquire more good quality scrap by continuously expanding the domestic scrap distributors and procurement base. The company plans to maintain the proportion of domestic scrap at 80% of the main raw materials in production so that there is a regular supply for scrap used in production. Purchasing foreign scrap would take a longer time to process and there is price uncertainty from foreign exchange rates causing the production cost to fluctuate. Therefore, the use of more domestic scrap increases the certainty in terms of quantity and price.

The risks of goods delivery to customers

To deliver the goods to customers, the Company employs third-party transportation services. In order to have a sufficient volume of transport vehicles and be able to deliver the products to customers in full as scheduled with a higher delivery rate and can control the shipping cost, the company then entered into a long-term contract with transportation agencies by specifying transportation rates for each period of oil prices that have fluctuated. If the transportation company is unable to deliver the goods to the customer or the product is damaged during transportation, the Company shall be entitled to reimburse the value of damage from the transportation company.

Purchasing of scrap and raw iron from abroad (Import Scrap and Pig Iron)

The main raw material for production is pig iron purchased from abroad and steel scrap procured both domestically and internationally. In the purchase of main raw materials from abroad, the company must plan for orders carefully to avoid problems with insufficiency of raw materials for use in production. Due to uncertainty of transportation, the volume and the prices of raw materials are constantly moving according to the world market conditions. Therefore, the company closely follows the movements of the world iron and steel market and coordinates with the production department in order to plan for procurement to ensure sufficient raw materials for continuous production.

In addition, the company has specified appropriate and concise conditions for the claim and compensation in the raw material purchase agreement in the event that the Company is receiving inferior raw materials, or the quality of the raw materials does not meet the agreed condition in order to minimize the damage.

Marketing and Distribution Risks

Risk from market share gain by imported products

According to the statistics of imported steel products, domestic HRC manufacturers currently supply only 37% of the total demand while the remaining 63% of the supply is imported; especially imports from China which has a very high influence on production and pricing in the market. Therefore, it is a challenge that the Company will have to face in the fight to regain its market share occupied by foreign substitutes.

Risks from the fluctuation of product demand and price arising from a downward business cycle

Some downstream industries using the Company's products such as steel pipe industry and construction industry, such as infrastructure construction projects, are characterized by fluctuations in the business cycle. As a result, the demand and product prices of the Company fluctuate accordingly. This could affect the Company's future profits during business downturns.

Hot-rolled coils are widely used in other downstream industries such as cold-rolled steel industry, automobile industry, galvanized steel and steel plates used in various industries. Therefore, the Company expects to be able to produce other types of value-added products with support from the parent company abroad. The Company plans to develop higher quality products, diversify and expand its customer base and increase the volume of exports to foreign countries.

The company supports government policies that promote the domestic steel industry which will help reduce the company's risks at the same time. As a result, there should be less imported hot-rolled steel coils and the price of hot-rolled steel coils would stabilize at an appropriate level.

Though the Company has no control over the difference between the selling price and the cost of production. However, it monitors the raw material costs, both in terms of quantity and pricing, compared to the orders received from customers. The Company also takes into consideration the impact of rising raw materials prices in 2023 which will inevitably affect the cost of hot-rolled steel production in 2024.

Financial Risks

Foreign exchange volatility risks

The Company purchases raw materials (both steel scrap and pig iron) and few items of sub raw materials also from abroad causing expenditures in foreign currency while it earns most of its sales in Thai Baht currency.

The Company has reduced purchasing of main raw materials from abroad which also helps in reducing the impact of foreign currency fluctuations. The Company will consider hedging the forex transactions on a case-to-case basis by using the foreign exchange facility obtained from local commercial banks after considering the cost benefit.

Risks in providing credit to customers

The Company's normal sales terms granted to the customers are cash advance and credit not over 3 working days for domestic sales, and cash advance and letter of credit at sight for export sales. The Company also analyzes the performance and financial status of new customers before granting a credit limit. Also, the financial status of each customer is reviewed on a periodic basis to confirm their credit limit.

Financial liquidity risks

The Company has maintained and reviewed its monthly financial projection and its cash flow projection to regularly monitor the financial status. The Company has also obtained credit facility from commercial banks and entered into a cash management agreement with a local related company to supply fund for the cash flow to the Company in case of insufficient funds in the Company's bank accounts.

Risks of default on payment of debt, fee, interest under the loan agreement with creditors

The Company has repaid all its debts, and this is no longer a risk for the company considering the current improvements in the cash flow position of the Company. In future, the Company will continue to monitor the cash flows to avoid such risk as and when debts are drawn from the commercial banks.

Environmental and personnel risks

Production risks that may cause pollution

The Company engages in the production of hot rolled coils including melting, casting and rolling processes which may cause pollution in terms of dust contaminants in the air, heavy metals that may contaminate the water, the temperature of the processed water and the noise level that may exceed the standard value. The Company has provided an air pollution prevention system to trap the dust before releasing into the atmosphere. There is a cooling tower water treatment system to treat heavy metals that may contaminate the cooling tower system effluent. The company has used the wastewater to spray over the hot steel slag where the water would evaporate into the atmosphere. It has also planted tree

fences to prevent dust and noise around the factory which is in line with current environmental laws and regulations.

The Company maintains its pollution treatment machinery in proper condition otherwise due to the deterioration of the machinery, the work efficiency decreases which may cause the pollution to escape to the outside environment and may cause damage or impact on the community or the environment which will increase the cost of the company to renovate and restore the environment for the community. The company may need to add a pollution monitoring and control system to comply with potentially more stringent laws or regulations in the future resulting in increased costs which includes the costs that may arise from being prosecuted if the company is unable to reduce the pollution that occurs. Ultimately, it may affect the business, financial condition and future performance of the Company.

Therefore, the company hires a company that specializes in the environmental issues to conduct factory environmental quality audits every six months according to the EIA measures and presented the audit report to the Office of Natural Resources and Environmental Policy and Planning, Department of Industrial Works, The Industrial Estate Authority of Thailand and the Department of Primary Industries and Mines on an ongoing basis. In addition, the Company has also been certified with ISO 14001 environmental quality standards. Therefore, the Company is confident that it will not face any problems in this regard.

Business operation risks that may cause insecurity to employees

The Company operates a business that is considered a heavy industry. As a result, the employees of the company may be exposed to hazards arising from the forging, casting, rolling processes and loading and unloading of heavy materials. This may result in the Company incurring additional costs from being prosecuted by the injured persons, including the expenses incurred from fines which may affect the business financial status and future performance of the company.

However, the company has prepared an emergency plan and safety measures for safety while working to meet the standards accepted by government agencies and related private sectors. It is also certified to the Standard Occupational Health Management (ISO 45001) to prevent or reduce the risk of accidents and impact on the health of workers while working. From historical data, it was found that the accident statistics of the company since the establishment of the factory are low. Moreover, there has never been a case of complaint or claim for compensation or reimbursement under employee violation at all.

Risks related to public policy and the relevant regulations.

Risk management by using Anti-dumping and Countervailing measures under the Anti-Dumping and Countervailing Act, B.E. 2542 and (No.2) B.E. 2562

Hot Rolled Steel Industry is a basic commodity for the development of the country and there are many large manufacturers around the world. Therefore, under intense competition in the free trade world especially during the ongoing economic downturn for many years, the producers are struggling to survive and cannot exporting the excess products to foreign countries since export selling price is much cheaper than local selling price. As a result, the market price mechanism in importing countries has been distorted. In other words, it destroys the market of domestic industry and leads to unfair competition. Therefore, anti-dumping policy is an important measure to help mitigate the damage of the domestic steel industry and create fair trade for all parties.

It is found that few importers have made efforts to evade the anti-dumping measures to avoid having to pay anti-dumping duties in addition to regular import duties which makes the enforcement measures ineffective and inefficient.

For this reason, the Government by the Department of Foreign Trade has proposed the following amendments of this law to be more efficient and effective in enforcing it.

- Expand the scope and prevent the circumvention of anti-dumping and countervailing measures.
- Increase measures to control the collection of anti-dumping duties and countervailing measures to be more effective.
- Legislation on adoption of sub-laws for countervailing measures.

In this regard, the revision of Anti-Dumping and Countervailing Act (No.2) B.E. 2562 has added the above provisions and was announced in the Government Gazette on 22 May 2019 and coming into effect on 18 November 2019 which will help prevent the import of hot rolled steel products that circumvent the anti-dumping and countervailing measures and will also help alleviate damage from termination of Safeguard measures for hot-rolled steel flat products with alloy as well.

For Thailand, the Government by the Ministry of Commerce has implemented anti-dumping measures for hot-rolled steel flat products as follows:

- Extension for enforcement of Anti-dumping measures for hot-rolled steel products imported from 14 countries for a period of 5 years, effective from June 9, 2021 to June 8, 2026.
- Anti-dumping measures for hot-rolled steel products originating from the Socialist Republic of Vietnam and the Arab Republic of Egypt for a period of 5 years, effective from December 1, 2021 to November 30, 2026.
- Extension for enforcement of Anti-dumping measures for hot-rolled coils and non-rolled steel products originating from the Federal Republic of Brazil, Islamic Republic of Iran and the Republic of Turkey for a period of 5 years, effective from June 2, 2023 to June 1, 2028.
- Extension for enforcement of Anti-dumping measures for hot-rolled steel flat products originating from the People's Republic of China and Malaysia for a further period of 5 years, effective from July 11, 2023 to July 10, 2028.
- On September 15, 2023, the Department of Foreign Trade issued an announcement in the Royal Gazette to initiate the investigation on anti-dumping circumvention in the case of hot rolled steel sheets in coils and not in coils which originates from the People's Republic of China to extend the imposition of anti-dumping duty on imports of hot rolled alloy steel in coils and not in coil originating from the People's Republic of China
- Extension for enforcement of Anti-dumping measures for boron-added hot-rolled steel products originating from the People's Republic of China for a further period of 5 years, effective from December 13, 2018 to December 12, 2023. And on December 4, 2023, the Department of Foreign Trade issued an announcement in the Royal Gazette to open a review of the necessity of applying anti-dumping duties and the duty payment collateral shall be collected during the review at the rate originally specified from December 13, 2023 for a period not exceeding 1 year.

The implementation of such Anti-dumping measures by the Government can help alleviate the trade problems arising from the dumping actions by few countries. As a result, the hot-rolled steel industry still can continue to move forward. In addition, the company has cooperated with other domestic manufacturers in following up on the dumping situation that may occur from other countries

or in other ways continually to deter or prevent unfair trade from dumping that may occur on the hot-rolled steel market in Thailand.

Risks from price control by the government

Hot-rolled steel product is one of many items monitored and controlled by the Ministry of Commerce. In practice, it tracks the volume and price movements of domestic products. The company also cooperated with the Department of Internal Trade to provide information on products and prices. Therefore, the company has low risk that the price increase may be inhibited if the domestic selling price rises rapidly or in case the Ministry of Commerce applies price fixation measure for consumer goods or commodities.

However, when the Company needs to raise prices to the required level, it does so in line with in relation to raw material cost, production cost and international selling prices.

General Risks

The risks of inability to operate due to uncontrollable factors

The Company's business may be at risk from several uncontrollable factors such as sabotage, natural disasters, industrial accidents, terrorism, machinery malfunctions, other technical problems and epidemics.

Although each of the above factors may be uncontrollable, the company is confident in prevention and correction of these problems from causing significant loss of income by providing regularly trainings and knowledge on how to safely operate the machine tools to its employees. In addition, the company has a security system run by its own staff and it also employs an efficient security company to supervise and monitor strictly 24 hours a day. In 2023, more than 40 additional CCTV cameras were installed in various risky spots both in the working areas and around the factory fences. Moreover, the company has an insurance policy that covers the loss or damage of property in specific cases. In terms of labor relations, the Company has set up a committee comprising members from employees and the employer. Apart from this, the Corporate Social Responsibility Committee, CSR, will be the representative to take care of the welfare of employees in a proper and fair manner.

In the event of COVID-19 outbreak, the Company has taken several proactive measures in risk management, such as raising awareness of self-protection among employees, providing alternative vaccines to all employees, regular random checking of infection among high-risk employees and contractors including planning for a replacement of personnel in the event an infected person is found in the workplace, etc.

Corruption Risks

The Company has announced an anti-corruption policy on November 13, 2017 with an emphasis on anti-corruption actions as well as supporting and promoting personnel at all levels to have an awareness of anti-corruption and all forms of corruption. The Board of Directors has established a policy on prevention and anti-corruption (Anti-Corruption and Anti-Bribery Policy) to supervise operations in accordance with the law and regulations (Corporate Compliance Policy) which is in line with the practices set out in the business ethics for executives and employees.

Moreover, the company has joined the Thai Private Sector Collective Action Coalition Against Corruption (CAC) project which demonstrates its commitment and determination to combat all forms of corruption. In this regard, the anti-corruption policy has been established by defining the responsibility and appropriate practice guidelines for the prevention of corruption in all activities. The policy has been communicated to directors, executives, employees as well as internal and external stakeholders to be a common practice guideline for conducting business with transparency and fairness.

In addition, the Company has assigned the Risk Management Committee to assess, analyze and define measures for managing the risks of the business and corruption, including a good internal control system and regular effective audits.

3. Business sustainability development

3.1 Policy and objectives of sustainable management

Policy, Objective and target - SDGs

The Company is now implementing the SDGs in accordance with our concreted business strategies. This will be used as a compass for the development of the company's business as an important basis in the company's policies such as Safety Policy and the

focused plans for improving the Safety workplace for ensuring the highest Safety Standards for the Company's workforces not only our employees but also our co-workers in the workplace of the company and develop a safety management system for a better health and well-being.

The production of the company is the business of selling and distributing hot rolled coils. It is a production that takes into account the environmental quality standards that the Company also pay attention to and manage the environment in all areas of our production, so that it does not cause pollution to the environment which would be clean and safe for the community.

3.2 Stakeholder management in value chain

3.2.1 Value chain

The Company recognizes and places importance on sustainable value chain management in order to respond to the stakeholder's expectations involved in each business process activity which has been stated as follows:

Value Chain		Stakeholders
<u>Primary activities</u>		
Inputs management and Inbound logistics	<ul style="list-style-type: none"> • Supplying of inputs and funds • Supplying of ore and raw materials for steel production • Quality and on-time delivery of raw materials • Raw material storage and quality control 	<ul style="list-style-type: none"> • Shareholders • Company employees • Business partners and/or contract parties of raw material supplying • Business partners and/or contract parties of raw material logistics • Business partners and/or contract parties of inputs supplying • Business partners and/or contract parties of inputs logistics • Community around the industrial areas and transport routes • Financial institutions
Operations	<ul style="list-style-type: none"> • Efficient and safe production • Standard testing and quality control • Production development with modern technology • Efficient use of resources and raw materials • Waste management and environmental impact reduction. 	<ul style="list-style-type: none"> • Company employees • Business partners and/or contract parties of waste management • Community around the industrial areas
Product distribution and Outbound logistics	<ul style="list-style-type: none"> • Warehouse safety and transport convenience • On-time and safe delivery 	<ul style="list-style-type: none"> • Company employees • Customers • Business partners and/or contract parties of transportation • Community around the industrial areas and transport routes

Value Chain		Stakeholders
Marketing and Sales	<ul style="list-style-type: none"> Communicating and providing information about the product accurately and completely Product pricing 	<ul style="list-style-type: none"> Company employees Customers Business partners and/or contract parties Competitors
Customer services	<ul style="list-style-type: none"> Complaint or suggestion service center about product usage Product warranty or satisfaction 	<ul style="list-style-type: none"> Company employees Customers Business partners and/or contract parties
<u>Support activities</u>		
<ul style="list-style-type: none"> Potential development and human resource management. Management of buildings, premises and utilities. Infrastructure (Accounting, Finance, Information Technology) Organization management 		<ul style="list-style-type: none"> Company employees Business partners and/or contract parties of buildings and utilities

3.2.2 Value chain stakeholders analysis

There are both internal and external key stakeholders related to the business value chain.

Stakeholders	Stakeholder expectation	Guidelines for meeting stakeholder expectation
<u>Internal stakeholders</u>		
Employees	<ul style="list-style-type: none"> Compensation and benefits Safe working environment Potential development in duties Stability and advancement in duties. Infrastructure system for operational supports Fair and equal treat 	<ul style="list-style-type: none"> Support employees training for potential development enhance advancement in duties. Treat employees equally in accordance with the employee treatment policy
Shareholders	<ul style="list-style-type: none"> Good performance and dividend payment Facilitated the exercise of rights and the supervision of rights. Business direction and strategy, good corporate governance Disclosure of information accurately, completely, transparently, quickly and sufficiently for decision-making. 	<ul style="list-style-type: none"> Transparent business operation Effective organizational management
Partners and Outsource staffs	<ul style="list-style-type: none"> Fair and transparent procurement. Complete and on-time payment Compliance with the terms and conditions of the contract. Business relationship, long-term growth and progress Safety according to standard Fair and equal treat Obtaining accurate and complete information 	<ul style="list-style-type: none"> Support employees training for potential development enhance safety in duties. Treat employees equally in accordance with the employee treatment policy
<u>External stakeholders</u>		
Business partners and Contract parties	<ul style="list-style-type: none"> Fair and transparent procurement Complete and on-time payment Compliance with the terms and conditions of the contract. Long-term business relationship Certification on business standard 	<ul style="list-style-type: none"> Comply with code of business conduct and ethics Develop and improve process according to partner's feedback

Stakeholders	Stakeholder expectation	Guidelines for meeting stakeholder expectation
	<ul style="list-style-type: none"> Obtaining accurate and complete information 	
Customers	<ul style="list-style-type: none"> Receive quality products according to standards. Safe and on-time delivery of goods 	<ul style="list-style-type: none"> Comply with code of business conduct and ethics Develop and improve process according to customer's feedback
Government agencies	<ul style="list-style-type: none"> Cooperation and support Fees and taxes payment Compliance with applicable laws and agreements. 	<ul style="list-style-type: none"> Provide cooperation and support Comply with applicable laws and agreements.
Local community, Society and Environment	<ul style="list-style-type: none"> Providing opportunity to work with the company Participation in community and social development 	<ul style="list-style-type: none"> Participate in community and social development Support activities and provide assistance to local community
Competitors	<ul style="list-style-type: none"> Fair competition 	<ul style="list-style-type: none"> Comply with the law and the code of business conduct and ethics Fair product pricing according to industry and market conditions

3.3 Management of environmental sustainability

3.3.1 Environmental Policy and guidelines

The Company is committed to operate the business basis on safety, health, and good environment under the guideline “business trust” to promote the company. There is a process that is friendly to the environment and staff with the practices as follows:

- 1.1 The Company shall comply with the safety, health and environment laws and rules.
- 1.2 The Company shall comply with ISO 14001 & ISO 45001.
- 1.3 The Company shall utilize resources efficiently and worthily with energy saving and resources recycling promotion measures.
- 1.4 The Company shall provide an operation system focusing on appropriate measures for safety and health in workplace such as providing the system to counter probable pollutions arising during operation, arranging workplaces to be clean and hygienic etc. for the employees and visitors to be safe from accidents and diseases.
- 1.5 Executives and staff shall be truly attentive to the activities for the quality of safety, health and environment and perform works with realization to safety and concern to environment always.
- 1.6 The Company shall disclose the information on the operations in connection with safety, health, and environment.

3.3.2 Environmental operating results

To support the society as a whole, the Company is developing ways to use energy, constantly adjusting production methods to reduce energy consumption per production unit. There is a policy related to Carbon Footprint, which has a positive effect to the ventilation discharge chimney from the Company's production. The air pollution measurement from the factory is far below the standard limit specified by the government organization. The Company is also supports the government's policy that industrial factories would reduce air emissions from production in order to reduce suspended particulates like pm 2.5 as well

Project to increase green area to conserve the forest and the environment

Participating in the activity “Adding Green Areas to Create Volunteer Conservation of Forests and the Environment Project 2022” to offer a royal merit on the occasion of H.M. Queen Suthida Bajrasudhabimalalakshana's Birthday (June 3rd) at Ban Khao Hin Nikorn Rat Bamrung School, Moo 6, Bo Win Sub district, Sriracha District, Chonburi Province, in order to increase the conservation green area, plant trees to replace the original trees and plant. As well as continuing the E-co School project and maintaining standards in the Plant Genetic Conservation Project initiated by Her Royal Highness Princess Maha Chakri Sirindhorn. “School Botanical Garden”.

3.4 Social sustainability management

3.4.1 Social policy and guidelines

The Company is committed to the community and society coexist happily with the theme. “Growth Society” to help each other and contribute to the development of a strong community on its own. The process works with a community focus. And promotional activities Communities near and far, according to company policy and consistent with the development of the sector. To improve the quality of life and economic sustainability of the community as follows:

- 1.1 The Company will operate the business to consider the benefits and sustainability of communities and society are important.
- 1.2 The Company shall regularly attend meetings exchange opinions and cooperate with local agencies for the communities’ living developments.
- 1.3 The Company shall adopt the preventive and corrective measures when effects to environment and communities arise due to operation.
- 1.4 The Company shall launch the activities for society with the employees’ participation including shall support employees’ opportunities to do good to develop the mind of volunteering.
- 1.5 The Company aims to develop the knowledge and education of young Thailand-based potential of the Company.
- 1.6 The Company shall cooperate with the local government to develop the entities for schools’ religious places’ infrastructures’ and youths’ and disadvantaged people’s hygiene including the community environment developments.
- 1.7 The Company shall support the local cultures, customs and traditions conversation.
- 1.8 The Company shall support the activities to strengthen the local community enterprises and provide the opportunity to be the Company’s suppliers.
- 1.9 Create revenue and promoting the community. By recruiting and supporting employment and the community. As well as support activities that focus on providing the community with knowledge for the profession and the knowledge to create or encourage families and communities.
- 1.10 The Company shall contact with communities constantly, publicize and report the social responsibility activities achievement to all groups of stakeholders.

3.4.2 Social Responsibility

- Children's Day Activities and Educational Promotion

To support youth, G J Steel Public Company Limited has provided scholarships to students who lack equipment and facilities at nearby schools on “Children’s Day.” These schools include Ban Bowin, Ban Khao Hin, Ban Bowin Child Development Center (Wat Bowin), and Ban Phansadetnok School, Bowin Subdistrict, Sriracha District, Chonburi Province. These activities are conducted annually.

- Blood Donation Activities for the Thai Red Cross Society

The management and employees of G J Steel Public Company Limited have joined together to donate blood to the Thai Red Cross Society, the National Blood Service Region 3 in Chonburi Province. This project has been ongoing since 2017. In 2023, there were two blood donation activities, in March and August. These activities will continue to be conducted annually.

- G J Steel Shares Knowledge with Youth through First Aid and CPR Training

G J Steel Public Company Limited organized a “GJ Steel Shares Knowledge with Youth” project, which included first aid and CPR training. The training was conducted by a team of experts from the Morality Association of Ban Bueng Rescue Unit (Bowin Point) at the Ban Bowin School multi-purpose building. The participants included 200 teachers and students from grade 4. In addition, the company also donated medical supplies, such as bandages, saline, and medical gloves, to the Morality Association of Ban Bueng Rescue Unit (Bowin Point) with a total value of over 10,000 baht.

- Buddhist Lent Celebration

G J Steel Public Company Limited joined the annual 2023 Buddhist Lent Celebration by participating in a candle procession on July 25, 2023 with the Ban Bo Win School, the community near the company, and the WHA Chon Buri 1 Industrial Estate at Wat Santikeeree, Wat Bo Win, Wat Phansadejnai, and Wat Noen Krabok. On July 27, 2023, the company joined a candle procession with the Ban Khao Hin School at Wat Mabon.

- Visiting activities to boost the morale of patients and the elderly (bedridden-housebound)

G J Steel Public Company Limited, in collaboration with Bo Win Subdistrict Health Promotion Hospital, Bo Win Subdistrict, Sriracha District, Chonburi Province, visited and encouraged patients and the elderly who are bedridden and housebound living in the community once a month. The company provided essential items for patients, such as adult diapers, patient supplements, and wound care supplies. This is to promote a healthy life for the people in the community, especially the elderly.

- Dengue Fever Prevention Campaign

GJ Steel Public Company Limited in collaboration with community volunteers conducted a dengue fever prevention campaign in Moo 6, Tambon Khao Hin, at A must Village and Soi Phu torn. The campaign included the distribution of abate and the dissemination of information on how to prevent dengue fever by destroying mosquito breeding grounds, such as stagnant water in containers.

- Songkran and Elderly Day Activities

GJ Steel Public Company Limited participated in the Songkran and Elderly Day celebration at the Bo Win Community Center, Moo 6, on April 17, 2023, and at the Moo 8 Administrative Center, Mab Samer Community, on April 18, 2023. The company provided souvenirs (a set of glasses) to be given to the elderly.

- School Playground Repair and Installation Activities

GJ Steel Public Company Limited, with the cooperation of executives and employees, repaired and installed playground equipment for Ban Khao Hin School, Tambon Bo Win, Amphoe Si Racha, Chonburi Province. This was to promote volunteerism among employees and to help develop the community and society in the surrounding area so that they can live together in peace and harmony.

- Community Career Development Support Activities

GJ Steel Public Company Limited is supporting the budget and participating in the community career development activities under the community career development and product project (making lotus seed paste sweets) of the Bo Win Industrial Estate Community Group, Moo 6. The event will be held on December 11, 2023, from 9:00 a.m. to 2:00 p.m. The purpose of the event is to develop the skills of making lotus seed paste sweets, create income for the community in the area around the industrial estate, and create a new product for the Bo Win Industrial Estate Community Group.

4. Management discussion and analysis (MD&A)

Management Discussion and Analysis Yearly Ending 31 December 2023

1. Highlights

	Unit: million Baht	Year 2023	Year 2022	Year 2021
Performance	Revenues	12,482	17,403	18,407
	Gross Profit (Loss)	120	1,200	4,022
	Net Profit (Loss)	(492)	(3,107)	3,178
	Unit: million Baht	31 Dec 2023	31 Dec 2022	31 Dec 2021
Financial Status	Total Liabilities	655	792	783
	Total Asset	12,853	13,495	16,622
	Total Equity	12,198	12,703	15,839

2. Business Outlook

The commencement of anti-circumvention investigations by the Department of Foreign Trade on certain Alloy HRC (Hot Rolled Coil) imports from China during September 2023 has resulted in reduction of such imports during the Q4 2023. This has helped in partially correcting the oversupply situation of HRC in the domestic market leading to reduced inventory levels which will help stabilize the domestic market going forward. However, this situation needs to be monitored carefully to ensure other unfair imports do not increase.

- Revenue from sales and cost of goods sold**

The Company reported revenue from sales at THB 12,482 million, which was lower than last year mainly due to a drop in both sale volume and selling price. HRC production decreased by 105 k tons as compared to last year and the sale volumes dropped by 90 k tons as compared to last year resulting from high imports and poor market conditions during the year.

The gross profit was reduced by THB 1,080 million mainly due to a margin squeeze as the reduction in raw material price could not fully offset the reduction in selling prices.

- Net gain from write-off of liabilities exceeding legal prescription period**

The Company has recorded a net gain of THB 8 million from write-off of liabilities exceeding legal prescription period of 10 years and accrued interest thereon compared to THB 43 million recorded last year.

- **Other income**

Other income for year 2023 amounted to THB 94 million was higher by THB 20 million compared to last year mainly due to higher interest income by THB 24 million on account of higher interest rates in the fixed deposits and fixed deposit increased by THB 500 million.

- **Administrative expenses**

Administrative expenses for year 2023 amounted to THB 584 million was lower by THB 47 million compared to last year mainly due to a decrease in loss from write-off of old assets by THB 52 million partially offset with an increase in waste disposal expense by THB 10 million.

- **Impairment of Asset under Construction**

In year 2022, the Company engaged technical experts to carry out a review of the Galvanizing Line lying under construction in progress. Based on such technical review the investment required for making the Galvanizing Line operational including replacement of electrical and automation parts and replacement/purchase of new items to complete the commissioning was significant at USD 44.25 million to USD 47.25 million (equivalent to approximately Baht 1,534 million to Baht 1,638 million). Further, despite this investment, it will be difficult to achieve the desired production capacities, quality parameters and subsequent guarantee figures with continuing risks of operational stability, high maintenance/operational costs, and importantly quality and safety issues.

After considering various other factors like the operational stability, maintenance costs, quality and safety issues, the management decided not to continue with the commissioning of the existing Galvanizing line as such additional investment is not feasible and to impair the balance carrying amount of THB 3,617 million net of residual value in the books reflected in the net loss for the year 2022.

- **Other comprehensive loss**

The Company had actuarial losses for year 2023 amounting to THB 13 million based on the review of the actuarial estimates. The provision for additional liability is presented as actuarial losses in other comprehensive loss for the year.

Total assets	<u>12,853</u>	100%	<u>13,495</u>	100%	<u>16,622</u>	100%

Total assets

As of 31 December 2023, the Company had total assets amounting to THB 12,853 million which decreased from last year ended 2022 by THB 642 million. Total current assets amounted to THB 4,340 million, decreased by 6% from the year ended 2022 and total non-current assets amounted to THB 8,513 million, decreased by 4% from last year ended 2022.

- **Trade account receivables**

As on year ended 2023, the Company had the trade account receivables amounting to THB 15 million which decreased from last year by 75% mainly due to decreased sale in last week of the year.

- **Inventories - net**

As on year ended 2023 and 2022, the Company had inventories amounting to THB 1,960 million and THB 2,217 million respectively, which decreased by THB 257 million or 12% due to close monitoring and reduction of HRC market situation and scrap purchase by the Company.

- **Other current assets - net**

As on year ended 2023 and 2022, the Company had other current assets amounting to THB 127 million and THB 145 million respectively, which decreased from last year by THB 18 million mainly due to a decrease in advances payment to suppliers by THB 11 million.

- **Property, plant and equipment – net**

As on year ended 2023, the Company had property, plant and equipment amounting to THB 8,245 million which decreased from last year by THB 357 million mainly due to depreciation. Whereby a decrease from the year 2021 was mainly due to impairment of the Galvanizing Line lying under construction in progress by THB 3,617 million as described above.

- **Other non-current assets - net**

As on year ended 2023 and 2022, the Company had other non-current assets amounting to THB 263 million and THB 251 million respectively, which has decreased by THB 11 million mainly due to a decrease in work roll inventory.

	31-Dec-23		31-Dec-22		31-Dec-21

Total liabilities	<u>655</u>	5%	<u>792</u>	6%	<u>784</u>	5%

Total Liabilities

As on December 31, 2023, the Company had total liability amounting to THB 655 million which decreased from year ended 2022 by THB 137 million. This consisted of total current liabilities amounting to THB 488 million which was 24% lower than year ended 2022, and total non-current liabilities amounting to THB 167 million which is 12% higher than year ended 2022.

- **Trade accounts payable**

As on year ended 2023 and 2022, the Company had trade accounts payables amounting to THB 124 million and THB 237 million in respectively, which decreased by THB 113 million mainly due to a decrease in trade payable for scrap, sub raw material and consumables.

- **Other payables and accrued expenses**

As on year ended 2023 and 2022, the Company had other payables and accrued expenses amounting to THB 339 million and THB 371 million respectively, which decreased by THB 32 million mainly due to a decrease in accrued bonus expense and other payables for purchase of spare parts.

- **Advances received from customers**

As on year ended 2023 and 2022, the Company had advances received from customers amounting to THB 6 million and THB 13 million respectively, which decreased by THB 7 million due reduced orders from customer in last week of this year compared to last year.

- **Accrued interest expense**

As on year ended 2023 and 2022, the Company had accrued interest expense amounting to THB 9 million and THB 10 million respectively, which decreased by THB 1 million mainly due to write-off the accrued interest expenses related to liabilities from terminated rehabilitation plan which is presented as part of net gain from write-back expired legal prescription of liabilities.

- **Liabilities from terminated rehabilitation plan**

Liabilities from terminated rehabilitation plan decreased from last year by THB 4 million due to write-off of debts which have the exceeded legal prescription period of 10 years and accrued interest thereon without any claim from the creditors. It is presented as part of net gain from write-back expired legal prescription of liabilities.

- **Other current liabilities**

As of year ended 2023 and 2022, the Company had other current liabilities amounting to THB 5 million and THB 4 million respectively, which increased by THB 1 million mainly due to an increase in withholding tax payable to Revenue Department.

- **Non-current provision for employee retirement benefit**

As of year ended 2023 and 2022, the Company had the non-current provision for employee retirement benefit amounting to THB 164 million and THB 144 million respectively, which increased by THB 20 million mainly due to the Company's review of actuarial estimates as explained above.

Return on Equity	%	-4%	-22%	22%
Return on Assets	%	-4%	-21%	20%
Total Assets Turnover	Times	0.96	1.16	1.19
Debt leverage ratio				
Debt to Equity Ratio	Times	0.05	0.06	0.05
Interest Coverage Ratio	Times	732.97	3,862.48	10.69
Dividend Payout Ratio	%	-	-	-

Liquidity Ratio

In year 2023, the Company had better liquidity ratio from last year due to free cash flow provided by operating activities. In addition, the Company continued its sales policy on cash basis and regular follow-up of collection of debts from trade account receivables, monitoring the production and selling plan that serves the needs of the customer and ordering raw materials with the suppliers who can provide credit terms.

- Current Ratio is greater than 1 (which means the Company has the current assets greater than current liabilities)
- Quick Ratio is more than last year (meaning the Company has the assets which can turn into cash faster than last year)
- Operating Cash Flow Ratio is decreased from last year mainly due to reduction in net cash flow provided by operating activities as compared to last year.

Operating Efficiency Ratio

Operating efficiency ratio reflects the performance of assets and liabilities in the statement of financial position to show whether the Company operation is effective or not.

- Account Receivable Turnover this year dropped from last year and Days of Receivable is higher than last year, due to lower sale during the 2023.
- Inventory Turnover is similar as last year and Days of Inventory on Hand is slightly higher than last year which is mainly due to lower sales.
- Account Payable Turnover Ratio is higher than last year and Days of Payable is lower than last year since the Company has managed cash to settle liability payment faster as per credit terms without any delays.
- Cash Conversion Cycle number of days is a higher than previous year due to days of inventory on hand has increased.

Profitability Ratio

In year 2023, overall, all profitability ratios (Gross Profit Margin, Operating Profit, EBITDA Margin, Return on Equity and Return on Assets) are higher than last year mostly due to impairment loss on unusable machines of Galvanizing Line from assets under construction account by THB 3,617 million last year. *If excluded such one-off item, the Profitable Ratio year have declined for this year due to lower profitability.

		As of December 31,			
		2023	2022	2022*	2021
		(Reported)	(Reported)	(Excluded impairment loss)	(Reported)
Profitability Ratio					
Gross Profit Margin	%	1%	7%	7%	22%
Operating Profit Margin	%	-4%	3%	3%	19%
EBITDA Margin	%	0%	-15%	6%	21%
Net Profit Margin	%	-4%	-18%	3%	17%
Return on Equity	%	-4%	-22%	3%	22%
Return on Assets	%	-4%	-21%	3%	20%
Total Assets Turnover	Times	0.96	1.16	1.16	1.19

Debt Leverage Ratio

In 2023, the Debt Leverage Ratio can be analyzed as follows:

- Debt to Equity Ratio is almost similar as last year, and Interest Coverage Ratio is lower than last year due to lower cash flow provided by operating activities for this year compared to last year.

The Company had a net loss of THB 492 million and THB 3,136 million in year 2023 and 2022 respectively. The Company had net cash provided by operating activities of THB 320 million in 2023 and THB 1,615 million in 2022. The major non-cash item was allowance for impairment on unusable machines held for sale by THB 3,617 million during 2022 as explained above.

For investing activities, the Company had net cash used in year 2023 and 2022 amounting to THB 292 million and THB 195 million, respectively, due to purchase of new assets for replacement parts of the machines that are worn out.

For financing activities, the Company had net cash used amounting to THB 5 million in both year 2023 and 2022.

7. **Commitments as of December 31, 2023 can summarize in below:**

Unit: Million Baht

Commitments	Total	Payment in period			
		within 1st year	in year 2nd and 3rd	in year 4th and 5th	in year 6th onwards
Operating lease liabilities	9.76	7.01	2.75	-	-

Other commitment liabilities	178.63	178.63	-	-	-
Total	932.98	930.23	2.75	-	-

8. **Factor effect to the future operation**

Critical Factors that will effect the future Operations can be summarized as below:

1. Government Policies on providing trade protection to Domestic Industries from unfair imports.
2. Global Steel supply demand situation and pricing trend.
3. Thailand Steel demand growth, especially construction grade Hot Rolled Steel demand growth which is largely driven by government projects.
4. Cost inflation especially increase in prices of electricity and Natural Gas which is currently adversely affecting our profitability.
5. Several counter measures being undertaken by the management in areas of production stabilization, equipment health maintenance, cost reduction and quality improvement to counter the above adverse factors.

Legal Dispute

The Company does not have any case or unsettled legal dispute with the potential to negatively impact its assets with claim amount worth over 5% of Total Equity as of the last year ending.

Part 2

Corporate Governance

6. Corporate Governance Policy

The Board of Directors has implemented the Corporate Governance Code for Listed Companies 2017 (“**CG Code**”) and was well awarded of the governing body to create value for sustainable business including reviewing, policy assessing and the implementation in relation to the Company’s corporate governance and each CG Code. The Board of Directors has assigned the Corporate Governance and Risk Management Committee or Company secretary to amend CG policy and the Code of Conduct as well as the directions in compliance with CG Code and adaptable to the rapid change of CG development. This contributes to the efficiency, transparency and accountability of management and operation which resulting in improving the Company’s competitiveness and increasing economic value for shareholders in long term as well. Therefore, the Board of Directors and the management team have established a written policy on the principles of good corporate governance and the Code of Conduct and have already approved this policy with details as follows.

1. To consider shareholders’ rights and to grant rights to shareholders in various matters, such as the right to propose an agenda for the shareholders’ meeting in advance or the right to nominate persons to be elected as directors in advance, etc., as well as not to violate or deprive the rights of shareholders.
2. To treat shareholders, investors, stakeholders and all relevant persons equally and fairly to all parties.
3. To disclose information to shareholders, investors, stakeholders and all relevant persons correctly, adequately, equally and within the specified period through appropriate channels so that the shareholders and other relevant persons are able to access information conveniently, such as through the Company’s website, etc.
4. To perform duties and responsibilities of the Board of Directors in supervising and managing with honesty, morality, prudence and carefulness in order to achieve the Company’s goals, to gain the maximum benefit to the Company and shareholders as well as to prevent any conflicts of interest.
5. To manage with transparency under of internal control system and audits.
6. To control and manage risks to be in appropriate level to the Company’s business operations.
7. To conduct business with honesty under the legal framework and business ethical framework.

Please find more details in “Attachment 5 Code of Conduct”.

6.1 Overview of the Policy and Guidelines

The Company has established corporate governance practices in accordance with the Good Corporate Governance Principles for listed companies of the Securities and Exchange Commission (“**SEC**”) of 2017 (CG Code), the Stock Exchange of Thailand and in accordance with the evaluation criteria of the Corporate Governance Report of listed companies of the Thai Institute of Directors Association (IOD).

Policies and Guidelines for the Board of Directors, Shareholders and Stakeholders

The Company has established policies and guidelines for the Board of Directors, shareholders, and stakeholders in line with the eight principles of good corporate governance for listed companies recommended by the Securities and Exchange Commission (SEC) as follows:

Principle 1: Establish Clear Leadership Role and Responsibilities of the Board

The Board of Directors understands and recognizes its role and responsibilities in establishing Company’s business strategies and policies with accountability, prudence, and integrity in the best interest of the Company on the basis of social and environmental responsibility as follows:

1. Acting in a best interest of shareholders by observing the following four main practices:
 - Performing its duties with responsibility and all due circumspection and caution
 - Performing its duties with faithfulness and honesty.
 - Performing its duties in compliance with laws, objectives, Company's Articles of Association, the resolution of the board of directors, and resolutions of shareholders' meetings.
 - Disclosing information to shareholders accurately, completely, and transparently with verification and timeliness.
2. Directing the Company's visions, missions, and business strategies by cooperation with the Management in reviewing and ensuring that vision and mission best address the changing environment.
3. Directing the Company's operation in compliance with the laws, objectives, Articles of Association, resolutions of the Board of Directors and resolutions of Shareholders' Meetings in good faith and with care, prudence, and integrity to preserve the best interests of the Company with fairness to all stakeholders.
4. Roles and responsibilities of the Board of Directors and the Management are clearly separated, the Management is responsible for compiling necessary information for the Board of Directors' consideration.
5. The Board of Directors encourages good corporate governance within the organization and formulates good corporate governance practice, Code of Conduct, measures and approval procedure of connected transactions between the Company and related parties or persons who may have conflict of interest, as well as clearly separates the authority of shareholders from that of the Board of Directors, also that between the Board of Directors and the executives and other committees, in order to balance the power, and each other shall be independently examined.

Principle 2: Define Objectives that Promote Sustainable Value Creation

The Board of Directors is responsible for reviewing major operating plans, budgets, business goals, and business policies by taking into consideration the maximum added value and long-term stability of the Company and its shareholders. The Board of Directors is also in charge of controlling the Management Team's administration to ensure consistency with such policies, plans, budgets, business goals, and business policies and advance the best interest of the Company and stakeholders. The Management is tasked with the formulation of strategies and operating plans in accordance with the Company's objectives and targets, taking into account environmental factors, opportunities, and risk appetite.

Principle 3: Strengthen Board Effectiveness

Defining and reviewing the structure of the Board of Directors

The Board of Directors has defined and reviewed the structure of the Board of Directors, the number of directors, the proportion of independent directors as well as Board diversity and director qualifications, including knowledge, expertise, experience, and specialization to ensure alignment with the Company's business operations; as well as appointed sub-committees to assist and support the board's discharge of duties.

▪ Combining or separating positions for a Balance of Management Power

The Board of Directors has clearly separated the scope of duties and responsibilities among the Board of Directors, Audit Committee, Nomination and Remuneration Committee, Corporate Governance and Risk Management Committee and the Management Committee, including the Chief Executive Officer. Moreover, the person who holds the position of the Chairman of the Board of Directors is determined to have no relationship with management team in order to prevent any executive from having unlimited power as well as to be able to review and balance the management.

▪ The nomination and appointment of Directors and the Chief Executive Officer

For the process of recruiting directors, the Board of Directors has established a formal method based on transparency without the influence of management team or controlling shareholders, that is, the Nominating Committee will select persons to hold the position of directors from suitable persons by considering qualifications, abilities, work experience, etc. in order to be appropriate with the duties and responsibilities of the Board of Directors and/or members of sub-committees. When the appropriate person has been selected, then that person will be proposed to the Board of Directors for further approval of the appointment.

- Criteria in nominating directors and the Chief Executive Officer

➤ Nomination of Directors (In case that the director position is vacant due to other reasons than end of term according to the law)

The Nomination and Remuneration Committee are responsible for selecting and nominating the persons to take these positions. The Nomination and Remuneration Committee shall consider person with knowledge, capability, and experience with specialization that are crucial and essential to the Company's operation. The Nomination and Remuneration Committee shall consider the following qualifications:

1. Qualification as per Clause 68 of the Public Limited Company Act, B.E. 2535, and announcement or rules and regulations of the Stock Exchange of Thailand (SET) and the Securities and Exchange Commission (SEC) and the Company's regulations.
2. The candidates' knowledge, capability, experience and specializations that would contribute to the Company's operational efficiency.
3. The candidates' qualifications shall support corporate governance practices, such as ethics, independence, assertiveness, creativity, carefulness and integrity as well as ability to dedicate their time for the Company.

In addition, in selecting new directors to replace vacant positions due to other reasons than end of term according to the law shall be approved by the Board of Directors' meeting and with no less than three-fourth of the votes of the remaining directors. The new directors who replace the vacant position shall be in the position for the remaining term of the vacant position.

➤ Nomination of Directors (In case of retiring by legal rotation)

The election of the Company's directors to replace the directors who have to retire by rotation must be approved by the Annual General Meeting of Shareholders, whereby the Nomination and Remuneration Committee has duty to select appropriate persons who deserve to be nominated as directors, by taking into account the qualifications, knowledge, capabilities, experience, work history, progressive leadership and sweeping vision, including having morality, ethics, and positive attitude towards the organization and fully devotes their time to the Company.

The election of a Board of Directors member to replace director who must retire at the end of his/her term shall be approved by the Annual General Meeting of Shareholders and by majority vote of the shareholders who attend the meeting and casting their vote. Criteria and selection method are as follows:

1. A shareholder shall have one vote per one share.
2. Each shareholder shall exercise all his/her voting right as mentioned above in selecting one or many person(s) as directors but cannot separate votes for any person(s).
3. The persons receiving the highest votes will be selected as directors. The number of persons selected shall be equal to the number of directors to be selected. In case there are persons with the highest votes more than the number of directors required, the chairman of the meeting shall have the right to cast an additional vote.

➤ The nomination of Chief Executive Officer

When the position of the Company's Chief Executive Officer is vacant, the Nomination and Remuneration Committee is responsible for selecting and nominating the persons to take these positions. The Nomination and Remuneration Committee shall consider person with knowledge, capability, and experience with specialization that are crucial and essential to the Company's operation. The Nomination and Remuneration Committee shall consider the following qualifications:

1. Qualification as per Clause 68 of the Public Limited Company Act, B.E. 2535, and announcement or rules and regulations of the Stock Exchange of Thailand (SET) and the Securities and Exchange Commission (SEC) and the Company's regulations.
2. The candidates' knowledge, capability, experience and specializations that would contribute to the Company's operational efficiency.
3. The candidates' qualifications shall support corporate governance practices, such as ethics, assertiveness, creativity, carefulness and integrity as well as ability to dedicate their time for the Company.

▪ The nomination of independent directors

The Company selects independent directors taking into account the knowledge, experience good understanding in related businesses, vision, as well as sufficient time to perform duty, also with the qualities as stated in the concerned government agencies' announcements, regulations and rules. The Company would invite qualified persons to be its independent directors. The Company considers that the aforementioned independent directors are able to exercise their knowledge and capability as well as provide opinions that are useful and appropriate to support the Company's business operation.

- Qualifications of independent directors

1. Hold not exceeding 0.5% of the total voting shares of the Company, its subsidiary, associate company, nor being a major shareholder or controlling person, including shares held by their related persons (under Section 258 of Securities and Exchange Act).
2. Not being or having been an executive director, employees, staff, advisor earning regular monthly salary or the controlling person of the Company, subsidiary, associate company and no benefit or is not stakeholders, unless the foregoing status has ended for at least 3 years.
3. Not being a person who is related by blood or legal registration as father, mother, spouse, sibling, and child, including spouse of

the child, to executives, major shareholders, controlling person, or persons to be nominated as executive or controlling person of the Company or its subsidiary.

4. Not having or having had a business relationship with the Company, its parent company, subsidiary, associate company, major shareholder or controlling person in a manner that may interfere with independent discretion, which includes not being or having been a significant shareholder or the controlling person of any person having a business relationship with the Company, its parent company, subsidiary, associate company, major shareholder or controlling person, unless such foregoing relationships have ended for at least 3 years prior to the date of appointment as independent directors.

The foregoing business relationship shall include normal business transactions, rental or lease of real estate, transactions related to assets or services or granting or receipt of financial assistance through receiving or extending loan, guarantee, providing assets as collateral, and any other similar actions, which result in the Company or the counterparty being subject to indebtedness payable to the other party in an amount starting from 3 percent of the net tangible assets of the Company or from 20 million Baht or more, whichever amount is lower. In this regard, the calculation of such indebtedness shall be in accordance with the method for calculating the value of related party transactions under the Notification of the Capital Market Supervisory Board Re: Rules on Connected Transactions, *mutatis mutandis*. In any case, the consideration of such indebtedness shall include the indebtedness incurred during the period of 1 year prior to the date of establishing the business relationship with such person.

5. Not being or having been an auditor of the Company, subsidiary, associate company, major shareholder, or controlling person, and not being shareholder.
6. Not being a person who is appointed as the representative of the Director of the Company, major shareholders or shareholders who is a connected person of a major shareholders.
7. Not having any other characteristics that cause the inability to express independent opinions.
8. Be capable in protecting all shareholders' benefits equally and supervising in order to prohibit any conflict of interest between the Company and related persons, and able to attend the meetings of the Board of Directors in order to make a decision on significant issues.
9. Not being or having been a provider of professional services, which includes serving as a legal advisor or financial advisor being paid with a service fee of more than 2 million Baht per year by the Company, its parent company, subsidiary, associate company, major shareholder, or controlling person, and not being a significant shareholder, controlling person, or partner of such provider of professional services, unless the foregoing relationship has ended for not less than 3 years prior to the date of appointment as independent directors.

In the case where the person appointed by the Company as an independent director has or used to have a business relationship or

provision of professional services at a value exceeding the specified amount under 4) or 9), the Company shall be granted an exemption from such prohibition of having or having had a business relationship or provision of professional services at such excessive value, provided that the Company has obtained an opinion of the Board of Directors indicating that after a consideration in accordance with the principle in Section 89/7 of the Securities and Exchange Act B.E. 2535 (as amended), the appointment of such person does not affect the performance of duties and the giving of independent opinions, and that the following information has also been disclosed in the notice calling the shareholders' meeting under the agenda for the appointment of independent directors:

- (a) the nature of the business relationship or professional services that deems such person to have characteristics not in compliance with the specified regulations;
- (b) the reason and necessity for keeping or appointing such person as an independent director;
- (c) the opinion of the board of directors of the Company concerning the proposal to appoint such person as an independent director.

Furthermore, this definition of independent directors has been revised so as to be stricter than that defined by the SEC.

- Performance Assessment and Knowledge Enhancement

- Board Performance Assessment

The Company arranges the Board of Directors to do an individual performance appraisal annually by using the self-assessment form of the Board of Directors (CG Self-Assessment) in accordance with the standards of the Stock Exchange of Thailand then present to the Board of Directors meeting for performance consideration and problems solutions as well as improving efficiency and work effectiveness.

As for the performance assessment of the Board of Directors as a whole assessment, the Corporate Governance and Risk Management Committee is tasked with reviewing the performance assessment forms for the Board of Directors. The Office of Company Secretary will distribute the assessment forms to each director for assessing the performance of the Board of Directors. Afterwards, the Office of Company Secretary gathers and summarizes the results of the performance assessment.

The board performance for the year 2023 was rated in the assessment of the board as a whole as "suitable."

The attendance of the directors in courses offered by the Thai Institute of Directors (IOD), their experience, expertise, positions, and education relevant to the Company's core businesses are shown in the individual profile of each director on the Company's website <https://investor.gjsteel.co.th/en/download/annual-report>.

- Director Orientation

The Company established a Director Orientation Program for new directors to facilitate their prompt performance of duties. The Company Secretary was commissioned to coordinate the work and arrange orientation by compile necessary information for directors to ensure their compliance with laws, rules, and regulations related to directors, provide important information

essential for the directors' performance of duty, such as the Company information, business overview, Shareholding Structure, Organization Chart, Charter of the Board of Directors and Sub-Committees, Meeting Schedule, for use as quick references, as well as arrange for a meeting with the Chairman and directors and the executives, site visit, to stay informed and make queries about the Company's business.

Principle 4: Ensure Effective CEO and People Management

The Board of Directors has stipulated that the Management prepare a regular report for the Board of Directors to update on the development and succession plans in case they could not perform their duties.

The nomination of the executives

The Chief Executive Officer is authorized to consider, nominate and appoint qualified persons in terms of qualifications, knowledge, abilities and experience in business operations. The selection shall follow the Company's rules related to human resources management. For position equivalent to Chief level, the appointment of the person shall be endorsed by the Nomination and Remuneration Committee and proposed to the Board of Directors for approval, while an appointment of positions equivalent to the Internal Audit Department executives shall be made with the Audit Committee's discretion.

Principle 5: Nurture Innovation and Responsible Business

Role of Stakeholders

The Company respected and gave priority to all stakeholders' rights. The Board of Directors has established policies and measures for the treatment of stakeholders in accordance with the Corporate Governance policy, Stakeholder engagement guidelines are summarized below:

- Shareholders

The Company respects the rights of its shareholders as well as the fundamental rights stipulated by laws and Articles of Association of the Company, such as the rights to attend the Annual General Meeting of Shareholders, request extraordinary general meetings of shareholders, propose agenda items in advance, elect directors. In addition to these aforementioned fundamental rights, the Company also carried out other measures to promote and facilitate the exercise of the rights of shareholders. The rights that shareholders are entitled to are disclosed under Principle 7 and Principle 8.

The Company's Board of Directors formulates the Policy regarding best practice on shareholders in writing in 2018. The Company realizes the shareholders are the Company's owners and the Company's duty is to generate added value to shareholders in long term. The policies are as follows:

1. Provide guidelines for comprehensive risk management and the management systems or an effective process for managing risk to control and audit the preparation of financial controls, operational and regulatory performance including control and risk management.
2. Establish committees such as the Risk Management Committee, the Nomination and Remuneration Committee and Corporate Governance Committee, with monitoring and supervision.
3. Ensure that the system of internal control and internal audit is efficient and effective.

Principle 7: Ensure Disclosure and Financial Integrity

The duties of the Board of Directors are as follows:

1. Supervise and manage the operations of the Company in accordance with the law, regulations, policies against corruption and Articles of Association as well as resolutions of the shareholders' meeting, protect the interests of the Company and its shareholders on the basis of the principles of corporate governance and disclose sufficiently accurate, standardized and transparent to shareholders and related parties.
2. Provide financial reports and other information important to shareholders with accurate, complete and adequate manners with verification and monitoring data reports.

▪ Disclosure and Transparency

The Company is committed to obeying the law, regulations, and obligations mandated by the Securities and Exchange Commission, the Stock Exchange of Thailand, and relevant government bodies to ensure accurate information disclosure. For example, the Company:

- Compiling reports as required by laws related to directors and executives and submit such reports to the Securities and Exchange Commission and the relevant regulatory agencies.
- Establishing a policy requiring all the directors and executives to disclose/report their holding of the Company's shares in Form 56-1 One Report.
- Publishing Notice of Annual General Meeting of Shareholders and Form 56-1 One Report within 120 days after each financial year-end.
- Publishing the minutes of the latest and previous Annual General Meeting of Shareholders on the Company's website.
- Disclosing the roles and responsibilities of the Board of Directors and Sub-committee, the number of meetings held, and the number of meetings each individual director and Sub-committee member attended.
-
- Disclosing the policy on the remuneration of Directors and Executives.
- Disclosing the audit fee and other fees in the Company's Form 56-1 One Report.

▪ The Company's Information Distribution Channels

In addition to fulfilling legal and SET reporting requirements, The Company has established its own broad channels at <https://investor.gjsteel.co.th/>.

Principle 8: Ensure Engagement and Communication with Shareholders

The Company's policy is to provide support to shareholders and ensure that shareholders are entitled to all rights. The shareholders have the right to attend shareholders' meetings, the right to propose in advance the Meeting agenda, the right to nominate a person to be a director. Apart from the abovementioned basic rights of the shareholders, the Company has made additional efforts to encourage shareholders to exercise their rights as follows:

▪ Providing time and opportunity for shareholders to express their opinions

The Chairman of the Board of Directors asked the meeting at the end of each agenda whether the shareholders ask questions related to the meeting agenda or related to the Company, whereby they could openly express their opinion. Any questions related to the meeting agenda or the Company together with shareholders' opinion as well as the answers or clarification made by the Board of Directors or the Company's management, were entirely recorded in the minutes.

The Company provided recording sound of the shareholders' meeting, and disclosed the significant matters arising during the meeting in the meeting minutes for reference in the future and enables shareholders who could not attend the meeting to follow up the meeting particulars.

- Encouraging the shareholders to use the Proxy Form

The Board of Directors encouraged the shareholders to use the Proxy Form in voting APPROVE, DISAPPROVE, ABSTAIN by providing the Proxy Form B. Besides, the Company provided the shareholders with the Proxy Form A (general Proxy Form) and the Proxy Form C (only for custodian) published on the website prior to the meeting date for download.

- Encouraging the shareholders to vote

The Board of Directors provided convenience for shareholders who could not attend the meeting but wish to exercise their voting rights by allowing them to assign proxy. The Company arranged independent director to attend the meeting and vote on behalf of the shareholders. Shareholders can appoint one of the two independent directors as their proxy.

- Giving the shareholders opportunity to exercise right to appoint an individual director

The Board of Directors encouraged the shareholders to use their voting rights by providing and distributing voting ballots at the registration before meeting. Voting ballots were provided for each issue of the agenda, such as dividend payment approval, independent auditor remuneration, and individual director appointment. The vote counting was recorded in the minutes of each meeting for transparency and reference in case of objection later.

- Directors to attend the shareholders' meeting

With fully respect of shareholders' right, the attendance of all 9 Directors, including Chief Executive Officer, and Chief Financial Officer, comprised 10 persons attended the 2023 Annual General Meeting of Shareholders.

- Practice for shareholders prior to the Shareholders' Meeting, at the Shareholders' Meeting, and after the Shareholders' Meeting

The Board of Directors and the Management have implemented the policy relating to shareholders' right that covers more than those required by law, especially the right to general and significant information. At the Shareholders' Meeting, the Company provided the shareholders with sufficient opportunity to study the information to the meeting date via the Company's website. Such information was also published in both Thai and English similar to the hard copy the Company submitted to shareholders. To deliver the documents of the Shareholders' Meeting ("Meeting"), the Company assigned the Thailand Securities Depository Company Limited (TSD), which is the Company's share registrar, to distribute the invitation to the Meeting to all shareholders prior to the Meeting date in order to provide shareholders with sufficient time to study the information. The Company clearly stated shareholders' meeting rules and process in the Meeting invitation.

At the Meeting, the Company facilitated shareholders and shareholders' proxies to exercise their rights to attend the meeting by using an e-Voting system for registration and vote counting.

Furthermore, the moderator of the Meeting also informed the Meeting the number and ratio of attending shareholders either by themselves or by appointment of proxies, the rule and voting process, the procedures of vote-casting, vote-counting, including notification of voting result. The Shareholders' Meeting minutes also included a record that the Meeting was informed of the rules and voting process.

In addition, at the 2023 Annual General Meeting of Shareholders, the Company has assigned Quidlab Co., Ltd., as a witnesses in charge of the examination of voting disputes together with the Company throughout the meeting, with the shareholders' right protection volunteer from Thai Investors Association serving as an observer.

After the Meeting, the Company compiled the documents, including agenda, meeting resolutions, voting results, questions and shareholders' opinions expressed at the meeting, so as to provide the minutes of the Shareholders' Meeting for publishing on the Company's website is in compliance with the regulations of SEC and SET.

▪ Facilitating and equitable treatment of shareholders

The Board of Directors respected the equitable treatment to shareholders, and therefore the facilitation and equitation policy for shareholders was set as follows:

Policy on facilitating and equitable treatment of shareholders

1. The Board of Directors has the duties to respect the shareholders' rights and treat them equally.
2. The Board of Directors has the duties to encourage and support the shareholders to exercise their rights in any respects for the Annual General Meeting of Shareholders such as proposing an issue in the agenda in advance, nominating a person to be selectively director in advance, and submitting questions prior to the meeting, etc.
3. The Board of Directors has the duties to assist the shareholders in any respects such as supporting the shareholders to study information before making decision. For the voting, the Company supports the shareholders to authorize proxies by offering alternatives at least one independent director for the shareholders to authorize as their proxies.

▪ Provide shareholders the opportunity to propose in advance an issue in the agenda of the Shareholders' Meeting

The Company allowed and assisted any shareholders to propose in advance an issue in the Annual General Meeting of Shareholders agenda by providing the consideration criteria published via the data system of SET and the Company's website prior to the Annual General Meeting of Shareholders. The criteria of proposing the agenda of the Annual General Meeting of Shareholders were the followings:

1. Qualification of shareholder who has the right to propose AGM agenda
Any shareholder who wishes to propose an item on the agenda must be a Company's shareholder at the date proposing the agenda holding a minimum of not less than five percent of the total shares issued by the Company, which can be either a shareholder or combined shareholders.
2. Proposal of the agenda
The shareholder fully qualified according to criteria No.1 can propose matters to be included in the agenda by filling in the "Form Proposed Agenda of AGM for the Year 2022" and submit it with other supplementary documents, to be submitted to the Company. In case of shareholders jointly propose an agenda, each shareholder must fill in the "Form Proposed Agenda of AGM" with signature and submit altogether as one set.
3. For an efficient AGM, the Company reserves its right not to include the following matters as the meeting agenda:
 - (a) Matters proposed by shareholders who are not fully qualified as specified in criteria No.1, or whose information or supporting documents enclosed are incorrect or incomplete or the proposal submitted after the deadline.
 - (b) Matters as stipulated by laws for consideration at AGM, which have been pursued regularly by the Company.
 - (c) Matters relating to a normal course of business of the Company and/or matters already undertaken by the Company.
 - (d) Matters under the Company's management authority except ones causing material impacts on shareholders in general.
 - (e) Matters that shareholders already proposed in AGM within the past 12 months, and those under support by less than 10 percent of total voting shares, given that the factual events have not changed significantly.
Matters unlikely to benefit the Company and/or matters previously submitted for consideration by other shareholders.

- (g) Matters that violate applicable laws, rules, regulations of the government agencies or regulatory or involved agencies, or actions not in compliance with the objectives, Articles of Association or the Code of Conduct.
- (h) Matters that are beyond the authority of the Company.

4. The above matters proposed by shareholders shall meet scrutiny by independent directors before further submission to the Board of Directors for consideration. The Company will notify the Board of Directors' consideration results after the BOD Meeting. Any matters, under approval by the BOD, will be included in the AGM agenda accordingly.

▪ Provide shareholders to nominate a person for a director position

The Company allowed and assisted any shareholders to nominate in advance qualified person as a candidate for the Company's director position in the agenda of Annual General Meeting of Shareholders by providing the consideration criteria published via the data system of SET and the Company's website prior to the Annual General Meeting of Shareholders.

The Criteria for the Nomination of Candidate for Directorship in the Annual General Meeting of Shareholders (AGM) Agenda are as follows:

1. Qualification of shareholder who has the right to nominate a qualified person as a candidate for the Company's directorship election

Any Shareholder who wishes to propose a qualified candidate for directorship must be the Company's shareholder at the date proposing the candidate for directorship holding a minimum of not less than five percent of the total shares issued by the Company by a shareholder or combined shareholders.

2. Nomination of a qualified person as a candidate for directorship

Shareholder fully qualified as in criteria No.1 can fill out the following forms:

- Form Nominated Qualified Candidate for Directorship in AGM
- Form Personal Data on Qualified Candidate for Directorship in AGM
-

Together with other completed supplementary documents, to be submitted to the Company. In case of shareholders jointly nominate a candidate, each shareholder must fill in the "Form Nominated Qualified Candidate for Directorship in AGM" with signature and submit altogether as one set.

3. Candidate must have the qualifications in compliance with related laws and regulations as prescribed by Securities and Stock Exchange Commission (SEC), The Stock Exchange of Thailand, The Public Company Limited Act, B.E. 2535 and the Company's Articles of Association.
4. The above nominated candidate, together with complete supplementary documents, as required shall be scrutinized by the Nomination and Remuneration Committee according to the Nomination Process of the Company before further submission to the Board of Directors (BOD) for consideration. The Company will notify the Board of Directors' resolution after the BOD Meeting.

▪ Preventing limitation of shareholders' rights to information

Through publishing all information on the Company's website prior to the Shareholders' Meeting, the Company's Board of Directors supported and not to infringe the shareholders' rights exercise while the Company did not distribute additional document containing significant information during the meeting, or add or change meeting agenda or amend significant information without advance notice. There has been no complaint from shareholders on this case. Moreover, the Company updates current information and data published on its website.

- Consider not to add an issue in the shareholders' meeting agenda

The Board of Directors complied with the policy on monitoring the shareholders' rights. In the Shareholders' Meeting, the Board of Directors strictly conducted the meeting in line with the agenda and did not distribute any additional documents suddenly, or add any issue in the agenda or change any significant information without advance notice.

- Internal Information Protection

The Board of Directors stipulated the measures to prevent the directors, executives, and employees from using the internal information for their or others' benefits in the Code of Conduct covering the use of internal information for stock trading, the conflict of interest, and the confidentiality of information. The measures were notified through the Code of Conduct, training, and the Company's website. Besides, the secretary of the Board of Directors was assigned to notify the rules in data disclosure and monitor that the Board of Directors and executives report their asset possession including the disclosure of the conflict of interest and connected transaction between directors and executives. The Board of Directors has established measures for directors, executives and employees to comply with, for the use of internal information as follows:

1. The Company's secretary is responsible for informing the directors and executives to report their securities holdings in their own company, spouse and underage children as well as to report on changes in securities holding under Section 59 and penalties under Section 275 of the Securities and Exchange Companies Act B.E. 2535.
2. The Board of Directors recommends the directors, executives and employees who know internal information to avoid trading the Company's shares before the disclosure of material information including the Company's financial statements which has an impact on changes in securities prices to the public, that is one month before the disclosure of information, and may offend to the Securities and Exchange Act.

Therefore, the Company has imposed penalties for any violation of the use of internal information for personal benefits in the Company's regulations, with the penalties ranging from verbal admonition to dismissal.

- Conflict of interest

The Board of Directors shall consider connected transactions that may cause conflict of interest between shareholders, directors and the Management, with best prudence, integrity, reasonableness and independence within good business ethic framework. It also discloses complete information for the best benefit of the Company. The Board of Directors shall strictly conform to the criteria and procedures or regulations set by SET whereby the Audit Committee shall provide information about the necessity and appropriateness of such transaction. The Company has established preventive measures for Conflicts of Interest for Executives and Employees as follows;

1. The executives and employees must not take any actions for exploitation or misappropriation of property which should belong to the Company or the customers.
2. The executives and employees should avoid any situations, personal activities and financial interests that may conflict with the duties of executives and employees.
3. In case the positions, duties and responsibilities of executives or employees give direct and indirect benefits to oneself or their family members (spouse, parents, children, relatives) or acquaintances, the executives or employees should not be involved in making any operational decision and must notify supervisors immediately.

4. The Company will avoid delegating duties and responsibilities to executives and/or employees in the event that it may lead to a situation causing conflict of interest of the Company or contrary to the benefits of the customers.
5. When the executives or employees are involved in conducting external activities or holding external positions, such as being a director, consultant, representative, or being an employee in other organizations, such activities must not create a conflict of interest with the Company and the customers either directly or indirectly, must not cause any damage to the Company as well as must not affect the performance of duties of that person.
6. The executives and employees are prohibited from joining or taking a position in any other organization that conducts business in the same manner as the Company, conducts business that compete with the Company, or conducts business that may have conflict of interest with the Company.

The Board of Directors has carefully studied and considered conflict of interest and connected transactions which may cause conflict of interest to the Company taking into account the shareholders' best benefits. The Board of Directors has received the information on interest transaction of the directors, executives and employees with the Company regularly.

6.2 Business ethics

The Board of Directors has prepared a manual "Business Ethics and Code of Conduct For Executives and Employees" ("**Code of Conduct**"), which focuses on the principles of good corporate governance and in accordance with the Company's vision, mission, business goals and key objectives of the Company to use as guideline in performing their duties and to strictly and consistently implement in terms of business operations, equitably with fair treatment towards stakeholders, including the matters related to conflict of interest, information confidentiality and possible fraudulent use of information, bribes, and gifts, including the anti-corruption. In this regard, the Company has distributed the Code of Conduct to the new directors, executives, and employees and reviewed other ethics for the existing directors, executives and employees to understand ethical standards applied to its business operation. The Board of Directors has set the guidelines and organize a strong operation system to prevent corruptions with an internal audit system, lead to a truly good corporate governance organization.

Please find more details in "Attachment 5 Code of Conduct".

6.3 Material changes and developments regarding policy, guidelines and corporate governance system in the preceding year

Further to the Board of Directors having stipulated and approved the written good corporate governance policy, a review is to be made at least once a year.

Adoption of the Corporate Governance Code for Listed Companies 2017 (CG Code)

In the year 2023, there are principles of Corporate Governance Code for Listed Companies 2017 ("CG Code") that the Company has not been adopted, such as providing outsource consultants to help setting up guidelines and recommend issues for performance evaluation of the Board of Directors every 3 years and disclosing such actions in the annual report.

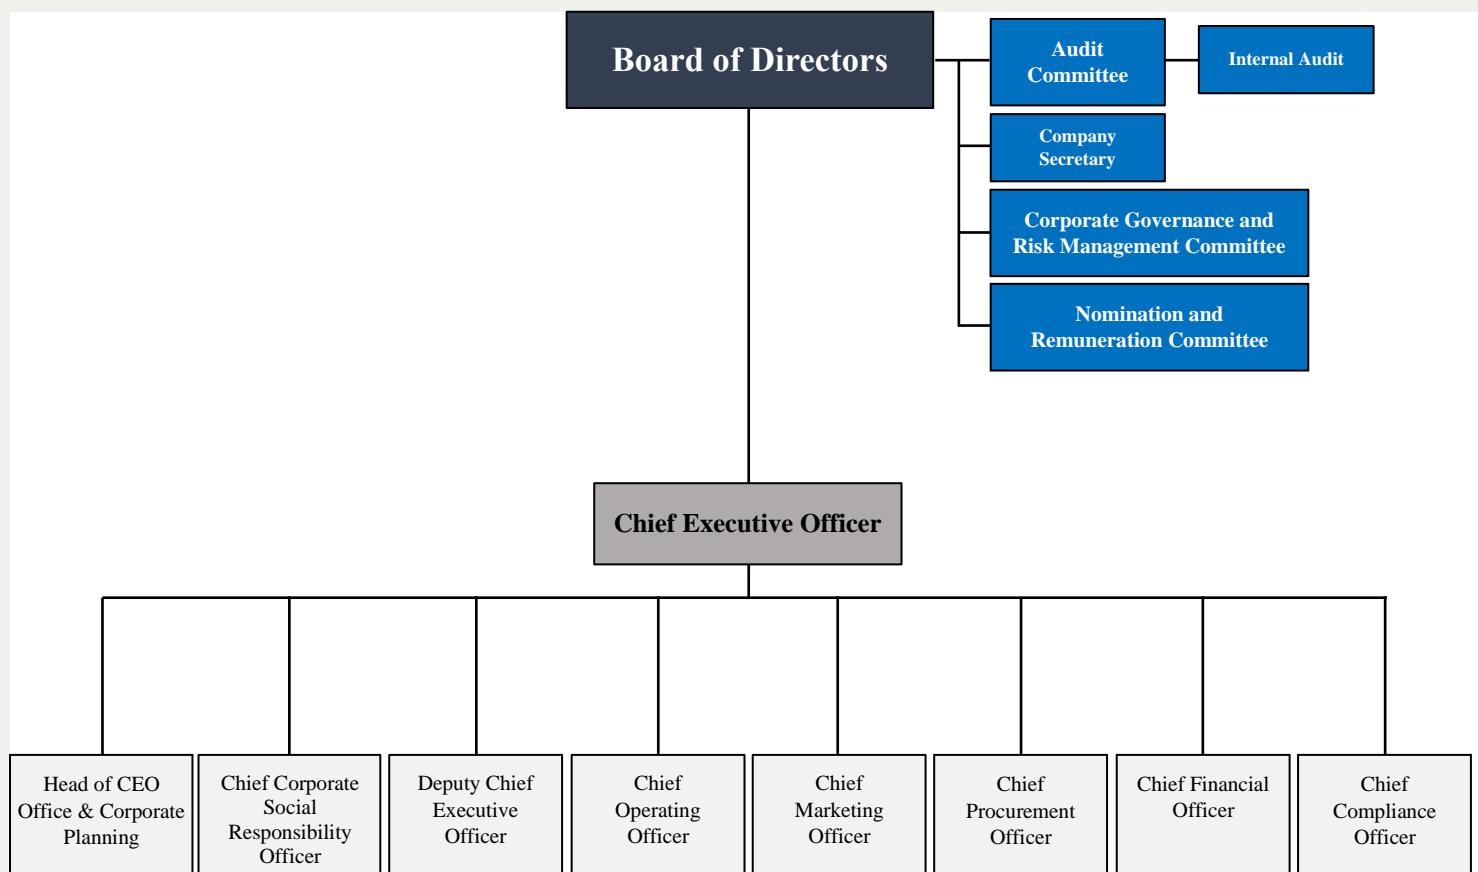

Other corporate governance practices

During the year 2023, there was no change in the Company's shareholdings of directors and executives.

7. Corporate governance structure and significant information related to the Board of Directors, subcommittees, executives, employees and others

1. Information on Audit Committee

Audit Committee Member means persons appointed by the Board of Directors or the Company's Shareholders. The Audit Committee members must be independent directors and not to be directors assigned by the Board of Directors to make decision on business operations of the Company, parent companies, subsidiaries, joint venture, similar subsidiaries, or any juristic persons that may have conflict of interest with the Company. They must be neither the director of parent companies, subsidiaries, joint venture, or similar subsidiaries of the Company. They must have qualifications and responsibilities as announced by the SEC and as per the SET's regulations on the qualifications and work scope of audit committee. They must also have sufficient knowledge and experience to review the reliability of the financial statements and perform other duties in the capacity as Audit Committee members.

The Audit Committee comprised 3 directors as listed below.

No.	Name	Position
1.	Assoc. Prof. Niputh ⁽¹⁾ Jitprasonk	Chairman of the Audit Committee
2.	Mr. Stephen ⁽¹⁾ Karl Stewart	Member of the Audit Committee
3.	Dr. Prasit ⁽¹⁾⁽²⁾ Kanchanasakdichai	Member of the Audit Committee

Remark:

- (1) Member of the Audit Committee possessing the relevant knowledge and experience in finance and accounting, and able to review the credibility of the Financial Statements
- (2) The Board of Directors' Meeting No. 1/2566 held on 23 February 2023 resolved to acknowledge the resignation of Mr. Yingsak Jenratha as Independent Director, Audit Committee Member and Corporate Governance and Risk Management Committee Member of the Company, and approve the appointment of Dr. Prasit Kanchanasakdichai as Independent Director, Audit Committee Member and Corporate Governance and Risk Management Committee Member of the Company replacing Mr. Yingsak Jenratha, with effect from 24 February 2023 .

1. Internal Control and Internal Audit

- 1) Review the Company's internal control system and internal audit system to ensure that it is suitable and effective.
- 2) Review the independence of the Internal Audit Department.
- 3) Consider and approve the annual audit plan of the Company together with the Internal Audit Department, including the budget used in the audit process taking into account the risks involved.
- 4) Supervise the management to correct any defect which is found and follow up with the concerned people to correct the deficiencies in order to make the operation more efficient.
- 5) Review evidence if there is any doubt about the operation that may have significant impact on the organization, or if there is any false or conflicts of interest that may affect the operation or internal control system, and propose to the Board of Directors for further consideration.
- 6) Review the measures taken by the Company for countering the corruption and bribe as part of good corporate governance.
- 7) Consider and approve the appointment, transfer and termination of the Head of Internal Audit.
- 8) Evaluate performance and approve wages, bonuses or other compensations of internal auditors.
- 9) Promote common understandings among the Audit Committee, the Management, the Internal Audit Department and the Auditor in order to ensure an unified direction.
- 10) Review the scope of the audit of the external auditor and the Company's auditor to ensure consistency and mutual contribution.

2. Financial Statements and Disclosure

- 1) Review the Company's financial reporting process to ensure that it is accurate and adequate.
- 2) Review the connected transactions, or the transactions that may lead to conflicts of interest, to ensure that they are in compliance with the laws and the regulations of the SET, and are reasonable and for the highest benefit of the Company.
- 3) Review the evidence if there is any doubt about the operation that may have a significant impact on the company's performance or conflicts of interest that may affect the operation of the Company.

3. External Auditor

- 1) Consider, evaluate, select and propose the appointment of an independent person to be appointed as the Company's auditor based on creditability, resource adequacy, workload of the audit firm and experience as an auditor. In addition, in order to ensure the independence of the External Auditor, the Audit Committee shall consider factors such as non-audit services that may conflict with the auditor's independence, efficiency and professionalism.
 - 2) Recommend the removal of the Auditor due to lack of ability dereliction or malpractice.
 - 3) Attend the meeting with the Auditor without the management attends the meeting at least once a year.
 - 4) Suggest that the auditor review or exam the items deemed necessary and important during the audit of the Company.
 - 5) Review the work of accounting firm engaged for the purpose of preparing or issuing an audit report or performing other audits, and review or attest its services for the Company (including resolution of disagreements between management and the auditor regarding financial reporting).
4. Compliance and Law
- 1) Verify that the company has complied with the applicable laws, securities and the SET regulations of the SET or other governmental authorities.
 - 2) Review evidence in case there are any suspected transactions or acts that may violate the law or the regulations of the SEC, the SET or government regulations which has or may have an impact to the financial position and performance of the Company significantly.
5. Risk Management
- Review the corporate risk management system at least once a year.
6. Other Responsibilities
- Other tasks assigned by the Board of Directors with the opinion by the Audit Committee.
7. Expertise
- In case of necessity, the Audit Committee may recommend the Board of Directors to hire specialists to consult and solve problems of the Company, unless such consultation or solution relates to the duties and obligations of the Audit Committee which shall then be in accordance with the Evaluation of the Audit Committee.

In any case where any Audit Committee member or parties with possible conflict of interest, actually have conflict of interest with the Company or its affiliates, the acquisition or sale of assets of listed companies including connected transactions (if any), as per announcements of the SEC and/or the SET, the Audit Committee shall report the matter to the Board of Directors and/or the shareholders' meeting for consideration and approval in compliance with related law and regulations.

2. Information on Nomination and Remuneration Committee

Nomination and Remuneration Committee Member means a person appointed by the Board of Directors as a member of the Nomination and Remuneration Committee. For the transparency and independence in performance of duties, the Chairman of the Nomination and Remuneration Committee shall be an independent director and no less than half of total number of the committee members shall be the independent directors. In addition, the Committee member shall have sufficient knowledge and experience to nominate directors and senior executives of the Company and to conduct other duties as the Nomination and Remuneration Committee member, provided that the qualifications of the committee member shall be prescribed by the Company and in accordance with the corporate governance principles prescribed by the SET.

The Nomination and Remuneration Committee are as listed below.

No.	Name	Position
1.	Assoc. Prof. Niputh Jitprasonk	Independent Director and Chairman of the Nomination and Remuneration Committee
2.	Mr. Stephen Karl Stewart	Independent Director and Member of the Nomination and Remuneration Committee
3.	Mr. Takayuki ⁽¹⁾ Suzuki	Member of the Nomination and Remuneration Committee
4.	Mr. Somchai Leeswadtrakul	Member of the Nomination and Remuneration Committee

Remarks:

- (1) The Board of Directors Meeting No. 6/2566 held on 9 August 2023 resolved to acknowledge the resignation of Mr. Nobuo Okochi as Authorized Director and Nomination and Remuneration Committee Member of the Company, and approve the appointment of Mr. Takayuki Suzuki as Authorized Director and Nomination and Remuneration Committee Member of the Company replacing Mr. Nobuo Okochi, with effect from 10 August 2023 onwards.

Responsibilities of the Nomination and Remuneration Committee

1. To formulate criteria and policy in nominating directors, members of different committees and the Chief Executive Officer.
2. To consider and nominate appropriate persons to be appointed as directors, and members of different committees as well as the Chief Executive Officer for approval by the Board of Directors and/or Shareholders' Meeting.
3. To stipulate all rules and policies on remunerations for the Board of Directors, committees and Chief Executive Officer for approval by the Board of Directors and/or, as the case may be, the Shareholders' Meeting.
4. To set necessary and appropriate annual remunerations for the Board of Directors, committees and the Chief Executive Officer.
5. To report to the Board of Directors the Nomination and Remuneration Committee meeting results or other matters the Board of Directors should be informed.
6. Other duties assigned by the Board of Directors.

3. Information on Corporate Governance and Risk Management Committee

Corporate Governance and Risk Management Committee Member means a person appointed by the Board of Directors as a member of the Corporate Governance and Risk Management Committee. The Corporate Governance and Risk Management Committee will perform their duties to review and assess the effectiveness of the risk management, to report to the Internal Audit Committee any risk progress and risk management measures in due courses and to propose, review and implement the guidelines for good corporate governance including the related laws that are regularly changed and to be utmost benefit of the Company.

The Corporate Governance and Risk Management Committee has performed the duties in reviewing the system and assessing the effectiveness of risk management, reporting on the progress of the nature of the risk with guidelines for risk management to the Audit Committee within the prescribed period, proposing good corporate governance practices to the Board of Directors, including reviewing and amending such practices to be constantly in accordance with the changing regulations and related laws in order to achieve good governance according to international standards and gain the most benefits to the Company.

Remuneration for directors and executives

Policy on remuneration for directors, Chief Executive Officer and top executives

The Nomination and Remuneration Committee formulated the policy on remuneration for directors, Chief Executive Officer and top executives as follows;

1. Remuneration of the Company's directors, Chief Executive Officer and top executives shall be set in accordance with their duty, scope of responsibility, fairness and attractiveness, which should be compared to those for directors in other listed companies in the same industry and similar size, including the Company's performance, business surroundings, and overall economic conditions.
2. The Nomination and Remuneration Committee shall be responsible for initial consideration and propose for the approval of the Board of Directors and the Annual General Meeting of Shareholders (as the case may be) the maximum remuneration of the year, position remuneration and meeting allowance.
3. The Nomination and Remuneration Committee shall comply with the resolution of the Annual General Meeting of Shareholders on the remuneration budget and details which are also

disclosed in Form 56-1 One Report. The remuneration that the directors received from positions in other companies (if any), such as consultancy fee shall also be disclosed.

4. Any director who currently holds management position in the Company and receives the remuneration in the forms of monthly salary will not be entitled to receive the remuneration.

Any director being the subsidiary's director shall not be entitled to take any remuneration from such subsidiary.

As for 2023, the Nomination and Remuneration Committee meeting has considered the scope of duty and responsibility assigned and at the same range as that offered to directors in listed companies of similar size and in the same industry. Including considering the overall operation results, business environment and economy as a whole, endorsed the matter to be proposed to the Board of Directors for further proposal to the Annual General Meeting of Shareholders to approve the director remuneration for the year 2023, in which the amount is the same as the remuneration for the year 2022 approved by the Annual General Meeting of Shareholders. The details are as follows:

Remuneration for the Board of Directors for year 2023

Position	Position Remuneration (Baht/Month)	Monthly Remuneration (Baht/Month)	Meeting Allowance (Baht/Time)
Chairman of the Board of Directors	60,000	-	6,250

-None-

8. Report on key operating results related to corporate governance

8.1 Summary of duty performance of the Board of Directors in the past year

The Board of Directors has established policies and strategies that can lead to enhancing competitiveness, building culture and corporate values, as well as enhancing governance efficiency, sufficiency of internal control system and risk management of the organization and provide other opinions that are beneficial to the organization's development.

8.1.1 Selection, development and evaluation of duty performance of the Board of Directors

The nomination of directors

The Nomination and Remuneration Committee has duties to consider and define criteria and process of recruiting a qualified person to be appointed as Director and Chief Executive Officer of the Company, select the Directors to be Subcommittee members, consider the format and principals for the compensation and selection as defined by the nomination process then propose to the Board of Directors or the Shareholders' Meeting for approval.

In addition, for nominating the directors, the Company announced to invite the shareholders to propose the names of candidates who are qualified and not prohibited by laws in advance for the positions of the directors in the 2023 Annual General Meeting of Shareholders via the Company's website and the SET's channel during 21 November 2022 to 20 January 2023. However, neither the agenda nor the names of the nominated person have been proposed.

In the 2023 Annual General Meeting of Shareholders, 3 directors were retired, namely (1) Dr. Prasit Kanchanasakdichai (2) Mr. Somchai Leeswadtrakul and (3) Mr. Yanyong Kurovat.

The Nomination and Remuneration Committee has thoroughly and carefully conducted the review of its screen under the Company's nomination policy to selected qualified and suitable individuals to be proposed to hold the position of the Company's directors in accordance with the qualifications, working experiences, skills, and expertise, as the proportion of the Board members, including the performance of the directors during the past year. The Nomination and Remuneration Committee considers that the 2 persons (no. 1 and 2) are fully qualified as directors and had duly performed their duties as the members of the Company's Board of Directors and Sub-Committees well throughout the time.

However, since Mr. Yanyong Kurovat has expressed his intention not to renew his term, the Nomination and Remuneration Committee has thoroughly and carefully conducted the review and screening processes under the Company's nomination policy to select qualified and suitable individuals to be proposed to hold the position of the Company's directors in accordance with the qualifications, working experiences, skills, and expertise, as well as the total number of the Board members and has considered that the Mr. Yoshifumi Tokita is fully qualified as a director and suitable with the Company's business operation. Therefore, the Nomination and Remuneration Committee has concurred to propose to the Board of Directors Meeting to consider and endorse the election of Mr. Yoshifumi Tokita to be an authorized director in replacement of Mr. Yanyong Kurovat.

In addition, the Nomination and Remuneration Committee has considered that the directors who are nominated to be re-appointed as independent directors of the Company, are fully qualified as independent directors under the relevant laws and regulations and are able to independently express their opinions in compliance with relevant regulations, and has not assumed directorship or executive position in any businesses that may cause conflict of interest with the Company's.

The Nomination and Remuneration Committee, excluding the directors who are proposed for re-election, casted their votes individually to propose to the Board of Directors to propose to the Shareholders' Meeting to consider the re-election of the 2 retired directors (no. 1 and 2) to be as the

independent directors of the Company for another term and the appointment of Mr. Yoshifumi Tokita to be an Authorized Director of the Company in replacement of Mr. Yanyong Kurovat as he has expressed his intention not to renew his term.

Therefore, the nomination procedures are reported under Part 2, Corporate Governance, the topic of “The nomination and appointment of Directors and Executives” the topic of “Provide shareholders to nominate person for director position” and the topic of “Information on Nomination and Remuneration Committee”.

Directors and Executives development

The Board of Directors encouraged and provided the training courses to develop and educate the Company’s directors and members of committees so as for the continuous improvement in performing their tasks. In 2023, details of Directors and Executives’ attendance of training are as follows:

No.	Name and Position	Course	No. of hours	By Organization
1	Mr. Rajeev Jhavar Chief Financial Officer	CFO Refresher Course 2023, topic “Prepare to deal with financial, investment, and accounting issues that affect listed companies”, on 30 November 2023, at 09.00 – 16.40 hrs.	6 .40 hours	Thailand Securities Institute (TSI), The Stock Exchange of Thailand

Self-Assessment of the Board of Directors

In the past year, the Company Secretary has prepared the “CG Self-Assessment”, and submitted to individual directors for considering his/her achievement and for resolving problems individually, as well as for the work efficiency improvement.

8.1.2 Meeting attendance and remuneration payment to each Board member

The Board of Directors convened not less than 4 times a year and arranged the meetings in accordance with the Company’s Articles of Association, the Public Limited Company Act B.E. 2535, and SET’s regulations. The Chairman of the Board of Directors, in the capacity of the meeting chairman, would promote prudence in any consideration; provide sufficient time for the Management to present significant information, for directors to discuss the matter and for the Company Secretary attended the meeting to respond to the directors' inquiry, provide opinions to the Board of Directors, and record the minutes of the meeting for reference and checking. It is the duty of the Board members to attend every meeting, except for a certain unavoidable case.

In considering the number of meetings, the Board of Directors considered the duty and responsibility of the Board of Directors. The Company Secretary shall prepare the whole year meeting agenda and matters to be considered in each meeting in order to provide sufficient detailed information for the Board of Directors. For example, in the February meeting, the Board of Directors shall approve the annual financial statements, in the February to March meeting, schedule the Annual General Meeting of Shareholders as well as set the date of the closing of the Company’s registration book to suspend the share transfer, while the meetings in May, August and December are scheduled for reviewing and approving financial statements for the first, second and third quarters, then the December meeting is organized to consider budget for the following year.

At a meeting of the Board of Directors, there must not be less than one half of the total number of directors present to form a quorum. In addition, the meeting schedule for year is provided to directors in advance annually in order for the directors’ attendance availability. At the meeting of the Board of Directors at the end of the year 2022, the Company Secretary prepared meeting schedule for the year 2023 for the members of the Board of Directors to be able to schedule their time for the meetings.

In each meeting, the Company Secretary provided the agenda and related information and distributed them to the directors for average 3 days prior to the meeting.

The Chairman of the Board of Directors conducted the meetings, which were sufficient for the Management to present the matters for consideration and for the directors to discuss the important issues carefully and equally. The Chairman of the Board of Directors encouraged the attending directors to use their best consideration. The Chairman also asked whether there was any question or other opinion on each issue of the agenda in every meeting.

In 2023, there were 10 meetings of the Board of Directors.

The details of meeting attendance of the Directors for year 2023 are as follows:

Name	Board of Directors Meeting/ Attendance	Audit Committee Meeting/ Attendance	Nomination and Remuneration Committee Meeting/ Attendance	Corporate Governance and Risk Management Committee Meeting/ Attendance	The 2023 Annual General Meeting of shareholders / Attendance

8.1.3 Supervision of subsidiaries and associated companies

The Company has no subsidiaries.

8.1.4 Monitoring of compliance with the corporate governance policy and guidelines

The Company realizes the importance of good corporate governance by establishing policies and practices relevant to the Code of Conduct and good corporate governance. In the past year, the Company has followed up on the implementation of good corporate governance including employees, stakeholders, community and social responsibility, safety, health and environment which the follow-up results showed that the Company has completely followed the guidelines of each issue. In addition, the Company has followed up 4 additional issues of good corporate governance as follows:

(1) Prevention of conflict of interest

The Board of Directors has formulated measures and approval procedure of connected transactions between the Company or persons who may have conflict of interest. The persons who may have direct or indirect conflict of interest shall not be allowed to make decision on the matter. The Audit Committee is required to participate in the consideration and provide opinions on the necessity and reasonableness of the items proposed for the best benefits of the Company. The connected transactions are also required to be disclosed in the Notes to the Financial Statements prepared by using the generally accepted accounting principles published in the Annual Report.

In the past year, it was not found that the directors, executives and employees had any case that might create a conflict of interest.

(2) Use of inside information to seek benefits

The Company gives importance on the use of internal information by specifying that the directors, executives and employees must follow the Company's regulation how to use the Company's internal material information which has not been disclosed to the public for personal or others benefits, including trading in the Company's securities.

In the past year, it was not found that the directors, executives and employees had traded any securities during the period that the Company had set to refrain from trading.

Moreover, the Company accurately, adequately, timely and transparently disclosed the financial and non-financial information required by the SEC and SET through SET's online system and the Company's website. The Company has never been punished by the SEC or SET for not disclosing the information as required. Also, the Company regularly appraises the efficiency of information disclosure process and strictly follows the regulations. The Company published and regularly updated all significant information submitted to the SET and provided all shareholders and stakeholders with such information both in Thai and English so as for their equal access to the information.

(3) Anti-corruption action

The Company places an importance on the business operation with honest, taking responsibility for society and its stakeholders. The Company also adheres to the principles of good governance, Code of Conduct of the Company ("Code of Conduct") for its business operation, including in compliance with requirements of laws strictly to comply with the Good Corporate Governance and with the Good Corporate Governance Standard generally acceptable for the listed companies, the meeting of Board of Directors No. 11/2560 on 13 November 2017 has considered and unanimously resolved to approve the Anti-Corruption Policy, announced and communicated with all directors, executives and employees of the Company for enhancing their knowledge and understanding of the importance of Anti-Corruption policy. As a result, all directors, executives and employees of the Company have been involved and recognized of the implementation of imposed practices and relevant regulations in the Company's business operation. In this connection, the internal audit of the company has the duty/responsibility to

follow up on the anti-corruption and bribery and opens an opportunity for its employees to report such the incident via the comment box or email or by phone to it directly. Such implementation may be made with a precaution and confidentiality. It also shall be no disclosure on the accusing source and the whistle blower is given protection, and it shall be reported to the inspection committee for further consideration or implementation.

In addition, the company also announced its intention to be the Thai private sector's anti-corruption coalition and was certified as a member of the coalition on 5 November 2018. In 2021, the Company submitted an application for a 3-year extension of its certification as a member of the Private Sector Collective Action Coalition Against Corruption, which was granted on 31 December 2021 and will expire on 31 December 2024.

(4) Whistleblowing

The Board of Directors had specified the whistleblowing policy for providing the opportunities for employees and stakeholders, having a channel for complaints and reporting illegal acts. The company secretary is acknowledged as the complaints of corporate governance and the Code of Conduct of the company.

In this regard, the Company has regularly tested the notification system in the whistleblowing or complaints channels on the Company's website that the system has been used properly.

In the past year, from testing of the notification system, it was found that there was no abnormality in the whistleblowing or complaints channels, and no one reported any violation of the Code of Conduct or a whistle on actions that were not in accordance with the anti-corruption policy.

In addition, The Management Committee has reported the Company's operating results in each quarter throughout the year including the annual turnover to the Board of Directors for acknowledgment.

Internal Control

The Company consider providing the assessment of adequacy of internal control system, comprising the 5 sections: 1. Control Environment, 2. Risk Assessment, 3. Control Activities, 4. Information and Communication, and 5. Monitoring Activities. The Company's Board of Directors deems that the Company provides an adequacy of Internal Control. There is also has the Risk management Committee to review the system and evaluate the effectiveness of risk management throughout the year.

The Company not only has had sufficient internal control on its transactions related to the major shareholders, directors, executives or their related parties, but also its Board of Directors have encouraged the management to continuously improve the quality of the internal control to strengthen Good Corporate Governance.

The Corporate Governance and Risk Management Committee has considered the internal control sufficiency evaluation form for year 2023 to be in line with the Company's management. And has been reviewed by the Audit Committee.

Assessment of Adequacy of Internal Control System

The Board of Directors considered the assessment of the Company's adequacy of internal control for 2023, as described under of the following 5 sections:

Section 1 Control Environment

The Company's Board of Directors were responsible for directing the Company's business operations, setting business targets for short term (1 year), medium term (5 years) and long term (10 years), along with annual budgeting process, with periodical follow-ups, and also reviews or revisions on the business plan during the implementation in accordance with the situations over time, meanwhile brought to the Board of Directors for consideration and approval.

The Board of Directors has considered setting the target on the operations with circumspection and review that it can comply with the actual targets by analyzing the incentive and remuneration for its employees to be justified.

The Company has clearly defined its organizational structure, separating the administration into two parts, which are the production and maintenance functions, and the support functions, for the management's convenience and optimal efficiency in operations.

The Company has the Code of Conduct, which laid out the ethical policy and business code of conduct with regard to ethics for the management and employees to be prohibited from actions that would cause any conflicts of interest with the Company and its business partners, including establishing policies and practices guide in anti-corruption according to the company has adoption to the Thai Institute of Directors as a member of the Private Sector Collective Action Coalition against Corruption Program as well as the determination of penalties for violations.

The Company has made out the concise written policy and work procedures concerning financial transactions, procurement and general administration that have prevented frauds, also with authorization limits clearly stated.

The Company has continuously developed the information systems as a tool to control possible frauds as well.

To lay out the policy and action plans, the Company has taken fair treatment to the business partners into consideration, by stating the policy and practical principles in the Company's Business Code of Conduct for the management and employees to keep good relationship with all business

partners, as well as a measure on treating the business partners honestly, equally, keep confidentiality, and prohibited to receive gifts from the business partners.

Section 2 **Risk Assessment**

The Company stipulated that the Management to have a meeting every week. Management of each area will present operation performance together with problem and risk facing in order to find solution and prevention.

The Risk Management Committee will analyze and report progress of characteristics of risk and direction of risk management to maximize benefit to the Company.

The Risk Management Committee stipulated measures to appraise the efficiency of risk control in various areas and to reduce possible risks that may affect the Company's operation.

The Risk Management Committee has defined the Annual Risk Management Plan and assigned the Management to proceed with the actions in accordance with the Plan and then report back to the Risk Management Committee.

Section 3 **Control Activities**

The Company clearly separated the responsibilities of each function with workflow provided, clearly reviewed the regulation on approval authorization in financial and operational matters for the Management to manage the operations with most efficiency. The Company is aware of the importance of a good system of internal control because the good system will be well able to help prevent, administrate and manage a variety of risks or damages which may occur to the Company and its stakeholders.

The Company has determined the measure and procedure for related transactions, and the policy for conflicts of interest altogether in the codes of conduct for the management and employees, with assigning the internal audit department to continuously perform audits and report direct to Audit Committee. Moreover, the Company prohibits any interested parties from approving transactions that would lead to conflicts of interest. In decision making to approve any transactions, the Company mainly viewed the most benefits in a long run. If any transactions were likely to cause conflicts of interest, they had to be reported to the Audit Committee or brought to the Audit Committee for opinions.

The Company followed up the actions to be taken under the bound contracts and agreements continuously. The Company has had the measures to keep its operations in conformity to the laws to minimize its business risks by employing an external specialized legal counsel to help review documents and give consultation on several proceedings. The Company also has internal audit department to perform audits based on the rules, regulations and laws concerned.

Section 4

The Company gives importance to the quality of information and communication systems that are crucial support to efficient internal control performance, with the following administrative guideline for information system:

In the Board of Directors' Meetings, Secretary to the Board and the management prepared documents and details of the important agenda for Board of Directors' consideration in advance as information for decision making. And if there were additional details afterwards, the Company provided them as supplemental meeting materials sent to the Board of Directors before or on the day of meeting.

The Company sent the Board of Directors' Meeting invitation letters and the minutes of the previous meetings together with the meeting materials to the Company's Directors for their information each meeting in advance, on average 7 days prior to the day of meeting.

The Company made out minutes of the Board of Directors' Meetings, recording the significant information as well as suggestions, comments and objections (if any), and brought the minutes to the Board of Directors for acceptance in the following meetings. Chairman of the Board gave chances to the Directors to independently rectify or add contents to the minutes.

The Company arranged storing places for accounting entries documents and important documents by category.

The Company has applied the accounting policy of Generally Accepted Accounting Principles, under the control and audit by external certified auditors.

The Company has had proper internal communication systems and channels. In addition, the Company has provided the external interested parties with communication channels via its website and e-mail.

Section 5 Monitoring Activities

The management reported the performance results to Executive Committee and the Company's Board of Directors every quarter. In addition, the Company prepared the annual budget for the following year and would use it as benchmark for the performance appraisal and make systematic comparative analysis report to the Board of Directors.

The Company arranged management meetings weekly to follow up operation results and comparison with the targets and discuss the ways for corrective actions in case the targets were not achieved. Moreover, the Project Committee was appointed to support the Company's targets aiming at development of the operational systems to control the operations as targeted.

The Company arranged for audits on conformity to the established internal control system regularly by the internal audit department making a yearly audit plan that covered finance, operations and the actions taken under the regulations and laws concerned to evaluate efficiency and effectiveness, and to audit the conformity to the existing internal control system.

The audit result report and progress report. The internal audit department was assigned to report directly to the Audit Committee, follow up and evaluate the significant corrective actions in order to present to the Audit Committee and the Board of Directors.

The Company has a policy that its management to have duty and responsibility to report to the Board of Directors regarding the decisions made that significantly affected or might affect the Company's reputation and financial position, including the problems found, such as frauds or illegal actions.

Part 3

Financial Statements

G J STEEL PUBLIC COMPANY LIMITED

Financial Statements

For the Year Ended December 31, 2023

and Independent Auditor's Report

INDEPENDENT AUDITOR'S REPORT

To the Shareholders of G J Steel Public Company Limited

Opinion

I have audited the financial statements of G J Steel Public Company Limited ("the Company"), which comprise the statement of financial position as at December 31, 2023, and the statements of comprehensive income, changes in shareholders' equity and cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In my opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at December 31, 2023, and its financial performance and its cash flows for the year then ended in accordance with Thai Financial Reporting Standards.

Basis for Opinion

I conducted my audit in accordance with Thai Standards on Auditing. My responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of my report. I am independent of the Company in accordance with the Code of Ethics for Professional Accountants including Independence Standards issued by the Federation of Accounting Professions (Code of Ethics for Professional Accountants) that are relevant to my audit of the financial statements, and I have fulfilled my other ethical responsibilities in accordance with the Code of Ethics for Professional Accountants. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Key Audit Matter

Key audit matter is the matter that, in my professional judgment, was of most significance in my audit of the financial statements of the current period. This matter was addressed in the context of my audit of the financial statements as a whole, and in forming my opinion thereon, and I do not provide a separate opinion on this matter.

Key Audit Matter Details	Auditor's Approach
<p><i>Assessment of impairment loss on property, plant and equipment</i></p> <p>The Company has significant property, plant and equipment which are stated at cost less accumulated depreciation and allowance for impairment losses.</p> <p>The management assesses the impairment test on property, plant and equipment when they have an impairment indication by using the estimated recoverable amounts (the higher asset's selling price or value in use). The recoverable amounts are assessed by the management based on its value in use, determined by discounting future cash flows to be generated from the continuing use of property, plant and equipment and related assumptions such as forecast on industry growth rate, forecast on revenues and steel scrap price spreads margin and forecast on capital expenditures, selling expenses and operating expenses.</p> <p>The management's judgement over key assumptions and discount rate will be affected by changes of future economic and market situation. Hence, I focused on this area.</p>	<ul style="list-style-type: none"> • Understood the process of estimated recoverable amount (the higher asset's selling price or value in use) using for impairment testing. • Evaluated the significant assumptions applied by the management in preparing the cash flow projections including discount rate used to discount future cash flows. • Compared and evaluated the cash flow projections, key assumptions and discount rate to the management's budget and business plan, historical and current actual operations, economic and industries. • Tested calculation of recoverable amounts according to the management's financial models and compared with the carrying values of property, plant and equipment. • Considered the adequacy and appropriateness of disclosures made in notes to financial statements.

Other Information

Management is responsible for the other information. The other information comprises the annual report but does not include the financial statements and my auditor's report thereon. The annual report is expected to be made available to us after the date of this auditor's report.

My opinion on the financial statements does not cover the other information and I will not express any form of assurance conclusion thereon.

In connection with my audit of the financial statements, my responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or my knowledge obtained in the audit, or otherwise appears to be materially misstated.

When I read the annual report, if I conclude that there is a material misstatement therein, I am required to communicate the matter to those charged with governance.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Thai Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Thai Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Thai Standards on Auditing, I exercise professional judgment and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide those charged with governance with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, I determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matter. I describe those matters in my auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, I determine that a matter should not be communicated in my report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

G J STEEL PUBLIC COMPANY LIMITED
Notes to Financial Statements (Continued)
December 31, 2023

The financial statements were approved and authorized for issue by the Board of Directors on February 21, 2024.

1. GENERAL INFORMATION AND THE SHAREHOLDING STRUCTURE

1.1 General information

G J Steel Public Company Limited (“the Company”) is incorporated in Thailand and has its registered office as follows:

Head office : 88 Paso Tower, 24th Floor, Silom Road, Suriyawong, Bangrak, Bangkok

Factory : 358 Moo 6, WHA Chonburi Industrial Estate 1 Highway 331, Tambol Bowin, Amphur Sriracha, Chonburi

The Company was listed on the Stock Exchange of Thailand (the “SET”) on July 2, 1996.

The principal activities of the Company are the manufacturing and distribution of hot rolled coil steel products.

1.2 The shareholding structure

Thus, the Company’s major shareholders are as follows:

Shareholders’ Name	Proportionate of shares (%)	
	2023	2022
Asia Credit Opportunities I (Mauritius) Limited (“ACO I”) - incorporated in the Republic of Mauritius	40.45	40.45
G Steel Public Company Limited (“G Steel”)	8.24	8.24
Nippon Steel Corporation (“NSC”)	7.70	7.70
Thai R.T.N.T. Holding Co., Ltd.	4.97	4.88
Ms. Arunsri Ratanathayaporn	4.83	4.80
Superior Overseas (Thailand) Company Limited	1.62	1.62
GS Securities Holdings Co., Ltd. (“GS Securities”) GS Securities are 99.99% owned by G Steel	1.21	1.21

As at December 31, 2023 and 2022, the Company’s ultimate parent company is Nippon Steel Corporation and is incorporated in Japan, whose shares are listed on the Stock Exchanges in Japan.

2. BASIS FOR PREPARATION OF FINANCIAL STATEMENTS

The statutory financial statements are prepared in Thai Baht and in the Thai language in conformity with Thai Financial Reporting Standards. Accordingly, the accompanying financial statements are intended solely to present the financial position, financial performance and cash flows in accordance with Thai Financial Reporting Standards.

For convenience of the readers, an English translation of the financial statements has been prepared from the Thai language statutory financial statements, which are issued solely for domestic financial reporting purposes.

Accounting standards that became effective in the current accounting period

The Company disclosed the accounting standards, financial reporting standards, accounting standard interpretations and financial reporting standard interpretations that are effective for fiscal years beginning on or after January 1, 2023, in the Note 3.

The Company’s management has assessed the effects of the revised accounting standards, financial reporting standards, accounting standard interpretations and financial reporting standard interpretations, and considers that they do not have a significant impact to the financial statements for the year ended December 31, 2023.

G J STEEL PUBLIC COMPANY LIMITED
Notes to Financial Statements (Continued)
December 31, 2023

3. SIGNIFICANT ACCOUNTING POLICIES

Cash and Cash Equivalents

Cash on hand is kept for general use within the Company. Cash equivalents are savings deposits and current accounts, highly liquid investment that are readily convertible to known amount of cash and that are subject to an insignificant risk of change in value.

Accounts Receivable and Allowance for Expected Credit Losses

Accounts receivable are stated at amortized cost net of allowance for expected credit losses ("ECL") (if any).

The Company applies a simplified approach in calculating ECL for trade receivables. Therefore, the Company does not track changes in credit risk, but instead recognizes a loss allowance based on lifetime ECL at each reporting date. It is based on its historical credit loss experience and adjusted for forward-looking factors specific to the debtors and the economic environment.

Inventory Valuation

The Company values its inventories at the lower of cost (average cost method) and net realizable value.

Cost comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition. In the case of manufactured inventories and work-in-process, cost includes an appropriate share of overheads based on normal operating capacity.

Net realizable value is the estimated selling price in the ordinary course of business less the estimated production cost to complete and selling expenses.

The Company provides an allowance for all deteriorated, damaged, obsolete and slow-moving inventories.

Property, Plant and Equipment and Depreciation

Land is stated at cost less allowance for impairment losses. Plant and equipment are stated at cost less accumulated depreciation and allowance for impairment losses. When assets are sold or retired, their cost and accumulated depreciations are eliminated from the accounts and any gain or loss resulting from their disposal is included in profit or loss.

Depreciation of plant and equipment is calculated by reference to their costs on a straight-line basis over the following estimated useful lives:

	<u>Years</u>
Land improvements	5 - 20
Buildings and building improvements	5 - 44
Machinery and equipment	5 - 42
Furniture, fixtures and office equipment	5 - 10
Vehicles	5

The Company does not depreciate on freehold land or assets under construction.

Depreciation method, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

G J STEEL PUBLIC COMPANY LIMITED
Notes to Financial Statements (Continued)
December 31, 2023

Right-of-Use Assets and Depreciation

Right-of-use assets are recognized at the commencement date of the leases. Right-of-use assets are stated at cost less accumulated depreciation and allowance for impairment losses (if any), and adjusted for any remeasurement of lease liabilities (if any). The cost of right-of-use assets include the amount of lease liabilities recognized, initial direct costs incurred, and lease payments made at or before the commencement date, less any lease incentives received.

The costs of right-of-use assets also include an estimate of costs to be incurred by the lessee in dismantling and removing the underlying assets, restoring the site on which they are located or restoring the underlying assets to the condition required by the terms and conditions of the lease.

Depreciation of right-of-use assets are calculated by reference to their costs on a straight-line basis over the shorter of the remaining lease term and the estimated useful lives:

	<u>Years</u>
Vehicles	2 - 4

Unusable machines are classified held for sale

Unusable machines are classified as held for sale are measured at the lower of their carrying amount and fair value less cost to sell. Subsequent gains and losses on remeasurement are recognized in profit or loss.

Other Intangible Assets and Amortization

Other intangible assets that are acquired by the Company are stated at cost less accumulated amortization and allowance for impairment losses (if any).

Amortization is charged to profit or loss on a straight-line basis from the date that intangible assets are available for use over the estimated useful lives of the assets, unless such lives are indefinite. The estimated useful lives are as follows:

	<u>Years</u>
Software licenses	5 - 10
Production licenses	25

Amortization methods, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

Deferred Costs of Rolls

Deferred costs of rolls are stated at cost less accumulated amortization. Amortization is based on consumption.

Impairment of Assets

The Company reviews the impairment of assets whenever events or changes in circumstances indicate that the recoverable amount (the higher of asset's selling price or value in use) of assets is below the carrying amount. The review is made for individual assets or for the cash-generating unit.

If the carrying value of an asset exceeds its recoverable amount, the Company recognizes the impairment losses by reducing the carrying value of the asset to its recoverable amount and recording the devaluation in statement of comprehensive income or reducing revaluation increment in assets in case that those assets were previously revalued. The reversal of impairment losses recognized in prior years is recorded as part of other income or as a revaluation increment in assets when there is an indication that the impairment losses recognized for the assets no longer exist or are decreased. Such a reversal should not exceed the carrying amount that would have been determined (net of the associated depreciation or amortization).

G J STEEL PUBLIC COMPANY LIMITED
Notes to Financial Statements (Continued)
December 31, 2023

Interest-bearing liabilities

Interest-bearing liabilities are recognized at fair value net of transaction costs and classified as financial liabilities to be subsequently measured at amortized cost using the effective interest rate (“EIR”) method. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process. In determining amortized cost, the Company takes into account any discounts or premiums on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance costs in profit or loss.

Provision

A provision is recognized when the Company has a present legal or constructive obligation as a result of a past event and it is probable that an outflow of resources will be required to settle the obligation, and a reliable estimate of the amount can be made. A provision is reviewed at the statement of financial position date and adjusted to reflect the current best estimate. Where the effect of the time value of money is material, the amount of a provision is the present value of the expenditures expected to be required to settle the obligation.

Provision for Employee Retirement Benefit

Provision for employee retirement benefit is calculated by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods by the projected unit credit method determined by a professionally qualified independent actuary. The projected unit credit method considers each period of service as giving rise to an additional unit of benefit entitlement and measures each unit separately to build up the final obligation. Past service costs and gains or losses on the curtailment are recognized immediately in profit or loss. Gains or losses on the curtailment or settlement of pension benefits are recognized when the curtailment or settlement occurs. Actuarial gains or losses are recognized immediately to comprehensive income. The defined benefit obligations are measured at the present value of estimated future cash flows using a discount rate that is similar to the government bonds.

Use of Judgements and Estimates

In order to prepare financial statements in conformity with Thai Financial Reporting Standards in Thailand, the management needs to make estimates and set assumptions that affect income, expenditure, assets and liabilities in order to disclose information on the valuation of assets, liabilities and contingent liabilities. Actual outcomes may, therefore, differ from the estimates used.

The estimates and underlying assumptions used in the preparation of these financial statements are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

Judgements

Information about judgements made in applying accounting policies that have the most significant effects on the amounts recognized in the financial statements is leases.

Assumptions and estimation uncertainties

Information about significant areas of estimation uncertainties that have a significant risk of resulting in material adjustments to the amounts recognized in the financial statements consists of the following:

- Net realizable value of inventories
- Current and deferred taxation
- Utilization of tax losses
- Key assumptions used in discounted cash flow projections
- Measurement of provision for employee retirement benefit
- Provisions and contingencies
- Valuation of financial instruments
- Determination of impairment of assets

G J STEEL PUBLIC COMPANY LIMITED
Notes to Financial Statements (Continued)
December 31, 2023

Revenue Recognition

To determine whether to recognize revenue, the Company follows a 5-step process:

- 1) Identifying the contract with a customer
- 2) Identifying the performance obligations
- 3) Determining the transaction price
- 4) Allocating the transaction price to the performance obligations
- 5) Recognizing revenue when/as performance obligations are satisfied.

Revenue is recognized either at a point in time or over time, when (or as) the Company satisfies performance obligations by transferring the promised goods or services to its customers.

The Company recognizes revenue when a customer obtains control of the goods or services in an amount that reflects the consideration to which the Company expects to be entitled, excluding those amounts collected on behalf of third parties, relevant tax and after deduction of any trade discounts and volume rebates.

Sale of goods and services

Revenue from sales of goods is recognized when a customer obtains control of the goods, generally on delivery of the goods to the customers. For contracts that permit the customers to return the goods, revenue is recognized to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognized will not occur. Therefore, the amount of revenue recognized is adjusted for estimated returns, which are estimated based on the historical data. Revenue from rendering of services is recognized over time as services are provided.

Interest income

Interest income is recognized on a time proportion basis that reflects the effective yield on the asset.

Other income

Other income is recognized as income on an accrual basis.

Repair and Maintenance

Expenditures on repair and maintenance are charged to expense at the expenditures are incurred. Expenditures of a capital nature are added to the related plant and equipment.

Leases

At inception of contract, the Company assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

The Company (as a lessee) assesses the lease term for the non-cancellable period as stipulated in lease contract or the remaining period of active leases at the date of initial application together with any period covered by an option to extend the lease if it is reasonably certain to be exercised or any periods covered by an option to terminate the lease if it is reasonably certain not to be exercised.

Leases are recognized as assets (right-of-use assets) and liabilities for all leases with a term of more than 12 months, unless the underlying asset is low value.

The Company applies the short-term lease recognition exemption to its short-term leases (those leases that have a lease term of 12 months or less from the commencement date and not contain a purchase option). The Company also applies the lease of low-value assets recognition exemption to leases that are considered of low value. Lease payments on short-term leases and leases of low-value assets are recognized as expense in profit or loss on a straight-line basis over the lease term.

G J STEEL PUBLIC COMPANY LIMITED
Notes to Financial Statements (Continued)
December 31, 2023

Lease liabilities

At the commencement date of the lease, lease liabilities are stated at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable (if any) and amount expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating the lease, if the lease term reflects the Company exercising the option to terminate.

In calculating the present value of lease payments, the Company uses its incremental borrowing rate, which is determined by referring to the government bond yield adjusted with risk premium depending on the lease term, at the lease commencement date if the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities are increased to reflect the accretion of the interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities are remeasured if there is a modification, a change in the lease term, a change in the lease payments or a change in the assessment of an option to purchase the underlying assets.

Financial Instruments

The Company initially measures financial assets at its fair value plus, in the case of financial assets that are not measured at fair value through profit or loss, transaction costs. However, trade receivables, that do not contain a significant financing component, are measured at the transaction price as disclosed in the accounting policy relating to revenue recognition.

• *Classification and measurement of financial assets*

Financial assets are classified, at initial recognition, as financial assets subsequently measured at amortized cost, fair value through other comprehensive income ("FVOCI"), or fair value through profit or loss ("FVTPL"). The classification of financial assets at initial recognition is driven by the Company's business model for managing the financial assets and the contractual cash flows characteristics of the financial assets.

Financial assets at amortized cost

The Company measures financial assets at amortized cost if the financial asset is held in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at amortized cost are subsequently measured using the effective interest rate ("EIR") method and are subject to impairment assessment. Gains and losses are recognized in profit or loss when the asset is derecognized, modified or impaired.

Financial assets designated at FVOCI (equity instruments)

Upon initial recognition, the Company can elect to irrevocably classify its equity investments which are not held for trading as equity instruments designated at FVOCI, which cannot subsequently be reclassified. The classification is determined on an instrument-by-instrument basis. Gains and losses recognized in other comprehensive income on these financial assets are never subsequently recycled to profit or loss.

Dividends on these investments are recognized as other income in profit or loss, except when the dividends clearly represent a recovery of part of the cost of the financial asset, in which case, the gains are recognized in other comprehensive income.

Equity investments designated at FVOCI are not subject to impairment assessment.

G J STEEL PUBLIC COMPANY LIMITED
Notes to Financial Statements (Continued)
December 31, 2023

Financial assets at FVTPL

Financial assets measured at FVTPL are carried in the statement of financial position at fair value with net changes in fair value recognized in profit or loss.

These financial assets include derivatives, security investments held for trading, equity investments which the Company has not irrevocably elected to classify at FVOCI and financial assets with cash flows that are not solely payments of principal and interest.

Dividends on market securities are recognized as other income in profit or loss.

- ***Classification and measurement of financial liabilities***

Except for derivative liabilities, at initial recognition, the Company's financial liabilities are recognized at fair value net of transaction costs and classified as financial liabilities to be subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process. In determining amortized cost, the Company takes into account any discounts or premiums on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance costs in profit or loss.

- ***Derecognition of financial instruments***

A financial asset is primarily derecognized when the rights to receive cash flows from the asset have expired or have been transferred and either the Company has transferred substantially all the risks and rewards of the asset, or the Company has neither transferred nor retained substantially all the risks and rewards of the asset but has transferred control of the asset.

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in profit or loss.

- ***Impairment of financial assets***

The Company recognizes an allowance for expected credit losses ("ECL") for all debt instruments not held at FVTPL. ECL is based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive, discounted at an approximation of the original effective interest rate.

For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECL is provided for credit losses that result from default events that are possible within the next 12 months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the financial instruments (a lifetime ECL).

For trade account receivables, the Company applies a simplified approach in calculating ECL. Therefore, the Company does not track changes in credit risk, but instead recognizes a loss allowance based on lifetime ECL at each reporting date. It is based on its historical credit loss experience and adjusted for forward-looking factors specific to the debtors and the economic environment.

A financial asset is written-off when there is no reasonable expectation of recovering the contractual cash flows.

- ***Offsetting of financial instruments***

Financial assets and financial liabilities are offset, and the net amount is reported in the statement of financial position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

G J STEEL PUBLIC COMPANY LIMITED
Notes to Financial Statements (Continued)
December 31, 2023

Fair Value Measurement

The Company uses the market approach to measure its assets and liabilities that are required to be measured at fair value by relevant financial reporting standards, except that the cost approach or income approach is used when there is no active market or a quoted market price is not available.

The different levels have been defined as follows:

- Level 1 - Use of quoted market prices in an observable active market for such assets or liabilities
- Level 2 - Use of other observable inputs for such assets or liabilities, whether directly or indirectly
- Level 3 - Use of unobservable inputs for such assets or liabilities, such as uses prices and other relevant information generated by market transactions involving identical or comparable (similar) assets, liabilities, or a group of assets and liabilities, or estimates of future cash flows.

Finance Costs

Interest expense and similar costs are charged to profit or loss for the period in which they are incurred, except to the extent that they are capitalized as being directly attributable to the acquisition, construction or production of an asset which necessarily takes a substantial period of time to be prepared for its intended use or sale. The interest component of lease payments is recognized in the profit or loss using the effective interest rate method.

Foreign Currency Transactions

Foreign currency transactions during the year are translated into Baht at the rates prevailing at the date of transactions. Monetary assets and liabilities denominated in foreign currencies at the statement of financial position date are translated into Baht at the prevailing rates at that date. Gains or losses on translation are credited or charged to current operations in profit or loss.

Income Tax

The income tax charge is based on profit for the year and considers deferred taxation. Deferred taxes reflect the net tax effects of temporary differences between the tax basis of an asset or liability and its carrying amount in the statement of financial position. Deferred tax assets and liabilities are measured using the tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The measurement of deferred tax assets and deferred tax liabilities reflects the tax consequences that would follow from the manner in which the Company expects, at the statement of financial position date, to recover or settle the carrying amount of their assets and liabilities.

Deferred tax assets are recognized when it is probable that sufficient taxable profits will be available against which the deferred tax assets can be utilized. At each statement of financial position date, the Company re-assesses unrecognized deferred tax assets. The Company recognizes a previously unrecognized deferred tax asset to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered. The Company conversely reduces the carrying amount of a deferred tax asset to the extent that it is no longer probable that sufficient taxable profit will be available to allow the benefit of part or all of these deferred tax assets to be utilized.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

Basic Loss per Share

Basic loss per share is determined by dividing the loss for the year by the weighted average number of shares outstanding during the year.

Segment Reporting

Segment results that are reported to the Company's CEO (the chief operating decision maker) include items directly attributable to a segment as well as those can be allocated on a reasonable basis.

Significant agreement with related parties

Technical Service Contract

On September 1, 2022, the Company entered into a Technical Service Contract with a local related company to obtain services relating to maintenance training, safety programs, inspection of measuring instruments by specialist, supervision/advice by specialist, laboratory testing and analysis, for which the service fee shall be charged base on contractual prices. The contract is valid for a period of 1 year ending on August 31, 2023 and shall automatically be renewed for 1 year each unless either party gives the other party at least 90 days written termination notice prior to the end of the initial or renewal term.

Technical Service Framework Agreement

On February 6, 2023, the Company entered into a Technical Service Framework Agreement with a foreign related party to obtain services relating to research and development support in providing certain technical services and related license of proprietary technology, know-how, patents, and software in foreign related company's possession, for which the service fee shall be charged based on contractual prices. The agreement is valid for a period of 3 years ending on February 5, 2026, and shall automatically be renewed for 1 year each unless either party gives the other party at least 60 days written termination notice prior to the end of the initial or renewal term.

Cash Management Service Agreement

On September 9, 2022, the Company entered into a Cash Management Service Agreement with a local related company, whereby such related company will provide loan credit facility of Baht 500 million to supply fund for the cash flow to the Company in case of insufficient funds in the Company's bank accounts as specified in the agreement at the end of any business day. The repayment of such drawdown will be made on the beginning of the following business day and the interest will be charged at the rate agreed in the agreement. The credit facility will be matured on March 31, 2023 and shall automatically be renewed for 1 year each unless either party gives the other party at least 30 days written termination notice prior to the end of the initial or renewal term.

Toll Pickling Service Agreement

On January 23, 2023, the Company entered into a Toll Pickling Service Agreement with a local related party to obtain services relating to cleaning and inspection of the defect of hot rolled coil's surface. The service fee shall be charged based on contractual prices. The contract is valid for a period of 1 year ending on January 22, 2024.

Other Agreement

In the past during year 2013, the Company entered into a memorandum with Oriental Access Co., Ltd. ("OAC") to accept the liabilities from the compromised debt agreement totalling Baht 25.08 million, and the Company has already paid to OAC an amount of Baht 11.63 million, and outstanding debts remained at Baht 13.45 million. Subsequently on August 31, 2020, the Central Bankruptcy Court had ordered OAC bankrupt. However, the bankruptcy proceeding is under the official receiver who will take further action regarding the balance amount due. Therefore, the Company recorded such debts in the statement of financial position as at December 31, 2023 and 2022.

On September 13, 2019, the Company filed a lawsuit against a company in Thailand together with an authorized representative of such company as a criminal case at the Bangkok South Criminal Court on charges of jointly forging and fabricating documents of rights, sharing or claiming forged documents of rights, jointly defraud and counterfeited the bank account in such sale and purchase documents of a foreign company which is a manufacturer of electrode for an amount of Baht 2.3 million and interest at a rate of 7.5% per annum from the date of infringement (December 19, 2017) until the date of filing, totalling Baht 2.6 million and interest at the rate of 7.5% per annum of the principal after the date of filing until the two defendants will pay the plaintiff in full.

On September 1, 2023, the Civil Court ordered the defendant to pay the plaintiff of Baht 2.3 million and interest at the rate of 7.5% per annum from December 19, 2017 until April 10, 2021 and interest at the rate of 5.0% per annum from April 11, 2021 until the completion of payment is made to the plaintiff. The defendant filed an appeal on December 18, 2023. Subsequently on January 30, 2024, the Company already filed an appeal with the Court.

G J STEEL PUBLIC COMPANY LIMITED
Notes to Financial Statements (Continued)
December 31, 2023

Details of construction in progress as at December 31, 2023 and 2022 were as follows:

	In Million Baht	
	2023	2022
Galvanizing line	-	5,038
Reversing Mill line	-	1,525
Others	120	375
Total	120	6,938
Less: Allowance for impairment losses	-	(6,739)
	120	199
Transfers to unusable machines held for sale (Note 11)	-	(35)
Net	120	164

The gross carrying amounts of the Company's certain building and equipment totalling approximately Baht 731 million and Baht 725 million were fully depreciated as at December 31, 2023 and 2022, respectively, but these items are still in active use.

Impairment testing for carrying amount of property, plant and equipment

The values assigned to the key assumptions represented management's assessment of future trends in the relevant industries and were based on historical data from external and internal sources. The key assumptions used in the estimation of the recoverable amount of 2023 were as follows:

Valuation methodology	: Discounted cash flow method
Period	: 5 years financial projection was based on historical financial information and expectations of future outcomes taking into the past experience, adjusted for the anticipated revenue growth.
Growth rate of sale quantity	: At the rate of 23.71% per annum in 1 st year and 2.10% per annum in 2 nd - 5 th year.
Growth rate of selling price	: At the decrease rate of 3.41% per annum in 1 st year and 0% per annum in 2 nd - 5 th year.
Terminal value	: Determined based on terminal value growth rate of 0% per annum from net cash flows of the 5 th year.
Discount rate	: At the rate of 7.05% per annum which was based on weighted average cost of capital, with average cost of debt, risk free rate, market risk premium and the Company's beta.
Others	: Other assumptions relevant to estimated revenues and expenses were based on historical financial information and expectations of future outcomes taking into the past experience, adjusted for the anticipated market growth rate.

Based on the above impairment testing by the management, the allowance for impairment losses of property, plant and equipment of the Company as at December 31, 2023 was adequate.

G J STEEL PUBLIC COMPANY LIMITED
Notes to Financial Statements (Continued)
December 31, 2023

Sensitivity analysis of impairment test of property, plant and equipment

Sensitivity analysis is performed to analyse the risk that valuation of recoverable amount of property, plant and equipment will increase or decrease as a result of changes in fair value assumptions.

Reasonably possible changes at the valuation date (dated December 31, 2023) to one of the relevant fair value assumptions, holding other assumptions constant, would have affected the fair value of recoverable amount by the amounts shown below:

	Impact to increase (decrease) fair value of recoverable amount of property, plant and equipment (in Million Baht)	
	Increase in change in assumption	Decrease in change in assumption
Discount rate		
- Change of 0.5%	(739)	853
- Change of 1%	(1,386)	1,848
Growth rate of sale quantity - From base assumption		
- Change of 5%	354	(353)
- Change of 10%	709	(705)
Growth rate of selling price - From base assumption		
- Change of 0.5%	32	(32)
- Change of 1%	64	(64)

Although the analysis does not take into account of the full distribution of cash flows expected under the financial projection, it does provide an approximation of the sensitivity of the assumptions shown.

Mortgaged property, plant and equipment

The Company filed a lawsuit to Southern Bangkok Civil Court against one defendant, in their capacities of bondholder trustee and security agent, to release the lien and security interests on the Company's property, plant and equipment which the Company had completely settled under rehabilitation plan to such creditor. On October 28, 2013, the Court ruled the defendant to release the mortgaged assets. Accordingly, the Company already released the mortgaged land in November 2023, and currently, the machinery is in the process of releasing of the collateral.

The Company's property, plant and equipment, which have net book value as at December 31, 2023 and 2022, totalling Baht 5,950 million and Baht 6,972 million, respectively, are mortgaged first ranking security against the bondholders as mentioned above.

Right-of-use assets are acquired by lease liabilities.

- Utilized unrecognition tax loss carry forward	-	(127)
Tax expense	-	29

Deferred tax assets arising from temporary differences and unused tax losses that have not been recognized in the financial statements as at December 31, 2023 and 2022 were as follows:

	In Million Baht	
	2023	2022
Temporary differences		
- Allowance for decline in value of inventories	4	11
- Allowance for impairment on advances to suppliers	2	2
- Allowance for impairment losses on property, plant and equipment and depreciation gap	700	653
- Allowance for impairment losses on suspended construction in progress	76	76
- Allowance for impairment losses on unusable machines held for sale	1,348	1,348
- Non-current provision for employee retirement benefit	33	29
	2,163	2,119
Tax loss carried forward	53	-
Total	2,216	2,119

The loss carried forward will expire in 2028 to 2031. The deductible temporary differences do not expire under current tax legislation. Deferred tax assets have not been recognized in the financial statements of the Company in respect of these items because it is not certain that future taxable profit will be generated against which the Company can utilize the benefits there from.

Others	2	2
Net	263	251

Unusable machines held for sale

The Company had engaged technical experts to carry out a review of the Galvanizing line lying under construction in progress. Based on such technical review, the additional investment required for making the Galvanizing line operational was estimated at USD 44.25 million to USD 47.25 million (equivalent to approximately Baht 1,534 million to Baht 1,638 million) which would include complete replacement of electrical and automation parts including replacement/purchase of new items to complete the commissioning. The management further noted that in spite of this additional investment, it would be very unlikely that such Galvanizing line could achieve the desired production capacities, quality parameters, and subsequent guarantee figures. If the old and rusted parts were not replaced, the risk of operational stability, frequent breakdowns due to cracks and jamming, which resulted in high maintenance/operational costs and importantly quality and safety issues would remain major concerns and finally, the Company's product image would significantly be damaged.

After considering various factors, the Management Committee meeting held on February 17, 2023 resolved not to continue with the commissioning of the existing Galvanizing line but to set up additional impairment loss on such Galvanizing line (using the market scrap price) amounting to Baht 3,617 million in the books. Subsequently, the Audit Committee and Board of Directors meeting held on February 23, 2023, approved to record impairment loss on unusable machines held for sale amounting to Baht 3,617 million in the statement of comprehensive income for the year ended December 31, 2022.

The carrying value of unusable machines held for sale was written down based on the market price of steel scrap of Baht 35 million as at December 31, 2022. Based on the impairment testing by the management, there was no any indication for additional impairment of unusable machines held for sale as at December 31, 2023.

Suspended construction in progress

Suspended construction in progress represents the Direct Reduced Iron plant ("DRI Facility"). The management of the Company decided to suspend this project since 1999. On July 29, 2014, the Board of investment ("BOI") had ordered the revocation of privilege in the production of Direct Reduced Iron. However, there is no burden of import duty on machinery and raw materials.

The carrying value of suspended construction in progress was written down based on the market price of steel scrap of Baht 1 million as at December 31, 2023 and 2022. Based on the impairment testing by the management, there was no additional impairment in the book value of suspended construction in progress as at December 31, 2023 and 2022.

14. LIABILITIES FROM TERMINATED REHABILITATION PLAN

In 1998, the Company faced the financial problems from financial crisis causing the Company to be unable to repay the existing debt. And in April 2000, the Company entered into the business rehabilitation process administered by the Central Bankruptcy Court. In 2002, the Central Bankruptcy Court approved the business rehabilitation plan. Later on November 28, 2008, the Company filed a petition to terminate the business rehabilitation with the Central Bankruptcy Court and on March 2, 2009, the Central Bankruptcy Court issued an order to terminate the rehabilitation proceeding of the Company.

Liabilities from terminated rehabilitation plan as at December 31, 2022 were creditors under Class 4 (employee), due on October 31, 2013, and the Company fell into default. As a consequence of this default, the outstanding balances are payable on demand and accrued interest at a rate of 7.5% per annum from the date of default. Hence, the Company presented the outstanding liabilities from terminated rehabilitation plan as at December 31, 2022 as current liabilities in the Company's statements of financial position.

At the Board of Directors' Meeting of the Company, the directors approved to write-off liabilities from terminated rehabilitation plan which have exceeded legal prescription period of 10 years without any claim from the creditors and recorded such write-back as part of written-back liabilities expired legal prescription in the statement of comprehensive income for the years ended December 31, 2023 and 2022. Details were as below:

		In Million Baht		
Year	Approved by	Liabilities from terminated rehabilitation plan	Accrued interest	Total
2023	Board of Directors' Meeting of the Company held on December 14, 2023	4	2	6
2022	Board of Directors' Meeting of the Company held on December 15, 2022	17	14	31

The movement of liabilities from terminated rehabilitation plan for each of years ended December 31, 2023, and 2022 was as follows:

		In Million Baht	
		2023	2022
At January 1		4	21
Written-off		(4)	(17)
At December 31		-	4

The currency denomination of liabilities from terminated rehabilitation plan as at December 31, 2023 and 2022 was as follows:

		In Million Baht	
		2023	2022
Thai Baht		-	4

15. NON-CURRENT PROVISION FOR EMPLOYEE RETIREMENT BENEFIT

	In Million Baht	
	2023	2022
Non-current provision for employee retirement benefit as at January 1	144	134
Current service cost and interest cost	11	11
Employee retirement benefit paid	(4)	(1)
Actuarial losses	13	-
Non-current provision for employee retirement benefit as at December 31	164	144

Expenses recognized in the statements of comprehensive income for each of years ended December 31, 2023 and 2022 were as follows:

	In Million Baht	
	2023	2022
In loss for the year:		
- Current service cost and interest cost	11	11
In other comprehensive loss for the year:		
- Actuarial losses	13	-
Total	24	11

Actuarial assumptions:

	2023	2022
Discount rate	3.04% per annum	1.79% per annum
Future salary increase	4.00% per annum	5.00% per annum
Employee turnover rate	0.96% - 11.46% per annum	3.82% - 11.46% per annum
Mortality rate	100% of Thai Mortality Table Year 2017	100% of Thai Mortality Table Year 2017

Sensitivity analysis

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the non-current provision for defined benefit plans by the amounts shown below.

	In Million Baht	
	2023	2022
Effect on the non-current provision for employee benefit at 31 December		
Discount rate		
1% increase	(16)	(16)
1% decrease	19	18
Salary increase rate		
1% increase	18	21
1% decrease	(16)	(18)
Employee turnover rate		
10% increase	(2)	(8)
10% decrease	2	8

Although the analysis does not take account of the full distribution of cash flows expected under the plan, it does provide an approximation of the sensitivity of the assumptions shown.

Notes to Financial Statements (Continued)
December 31, 2023

16. LEGAL RESERVE

Under the provisions of the Public Company Limited Act B.E. 2535, the Company is required to appropriate at least 5% of its annual net profit (after deduction of the deficit brought forward, if any) as reserve fund until the reserve fund reaches 10% of the authorized share capital. The legal reserve is not available for dividend distribution.

17. OTHER COMPONENTS OF EQUITY

The detail of other components of equity as at December 31, 2023 and 2022 were as follows:

	In Million Baht	
	2023	2022
Cash received from expired warrants		
- First Warrants (a)	162	162
- Second Warrants (b)	148	148
At December 31	310	310

- (a) Upon the cancellation of the 3,234 million units of First Warrants in year 2011, their carrying value at Baht 0.05 each was transferred from the warrants component of equity to other components of equity for an amount of Baht 162 million.
- (b) Upon the cancellation of the 4,933 million units of Second Warrants in year 2017, their carrying value at Baht 0.03 each was transferred from the warrants component of equity to other components of equity for an amount of Baht 148 million.

18. REGISTERED PROVIDENT FUND

The Company has established a contributory registered provident fund under the plan, members contribute to the fund at 2% to 15% of the employees' basic salaries. The Company contributes to the fund at 3% to 10% of the employees' monthly salaries, depending on the length of employment. Such provident fund was register with the terms and conditions prescribed in the Ministry of Finance and an approval fund manager to manage the fund.

The Company's contribution for each of the years 2023 and 2022, which were charged to profit or loss, amounted to Baht 21 million each year.

19. EXPENSES BY NATURE

Significant expenses by nature for each of years ended December 31, 2023, and 2022 are as follows:

	In Million Baht	
	2023	2022
Raw materials and consumable used	9,301	13,503
Change in finished goods	273	(329)
Depreciation and amortization	596	596
Employee benefit expenses	526	530
Utility expenses	1,356	1,358
Natural gas expense	341	424
Loss on sale and write-off fixed assets	52	109
Impairment losses on unusable machines held for sale (Note 11)	-	3,617
Allowance for decline in value of inventories (reversal)	(35)	56
Loss on foreign exchange - net	-	6
Other expenses	677	754
Total expenses	13,087	20,624

Notes to Financial Statements (Continued)
December 31, 2023

20. BASIC LOSS PER SHARE

The calculations of basic loss per share for each of the years ended December 31, 2023 and 2022 were based on the loss for the years attributable to equity holders of the Company and the weighted average number of ordinary shares outstanding during the years as follows:

	In Million Baht / Million shares	
	2023	2022
Loss for the year attributable to equity holders of the Company	(492)	(3,136)
Number of ordinary shares outstanding at January 1	25,487	25,487
Effect of issuance of new shares	-	-
Weighted average number of ordinary shares outstanding	25,487	25,487
Basic loss per share (in Baht)	(0.019)	(0.123)

21. DISCLOSURE OF FINANCIAL INSTRUMENTS

Financial assets and financial liabilities carried on the statement of financial position include cash and cash equivalents, trade account receivables, restricted deposit at financial institution, trade account payables, other payables and accrued expenses, accrued interest expense, liabilities from terminated rehabilitation plan and lease liabilities. The accounting policies on recognition and measurement of these items are disclosed in the respective accounting policies in Note 3.

Financial Risk Management Policies

The Company is exposed to normal business risks from changes in market interest rates and currency exchange rates and from non-performance of contractual obligations by counterparties. The Company does not hold or issue derivative financial instruments for speculative or trading purposes.

Capital Management

The Board's intention is to return to a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business and preserves the ability to continue its business as a going concern.

Foreign Currency Risk

The Company is exposed to foreign currency risk relating to purchases and sales which are denominated in foreign currencies and has financial liabilities denominated in foreign currencies. Accordingly, in 2023, the Company had certain forward exchange contracts to manage this risk

Credit Risk

Credit risk is the potential financial loss resulting from the failure of a customer or counterparty to settle its financial and contractual obligations to the Company as and when they fall due.

At the reporting date there were no significant concentrations of credit risk because the maximum exposure to credit risk is represented by the carrying amount of each financial asset in the statement of financial position.

G J STEEL PUBLIC COMPANY LIMITED
Notes to Financial Statements (Continued)
December 31, 2023

Interest Rate Risk

Interest rate risk arises from the fluctuation of market interest rates, which may have an impact to current and future operations of the Company. The Company's exposure to interest rate risk relates primarily to its deposits at financial institutions, other payables and accrued expenses, liabilities from terminated rehabilitation plan and lease liabilities which most of the Company's financial assets and liabilities bear floating interest rates or fixed interest rates which are close to the market rates. Hence, the Company has no hedging agreement to protect against such risk.

Significant financial assets and liabilities as at December 31, 2023 and 2022 classified by type of interest rates are summarized in the table below, with those financial assets that carry fixed interest rates further classified based on the maturity date, or the repricing date if this occurs before the maturity date.

		2023 (In Million Baht)						
		Fixed interest rates						Effective
		Within	1- 5	Over	Floating	Non-interest		interest rate

G J STEEL PUBLIC COMPANY LIMITED
Notes to Financial Statements (Continued)
December 31, 2023

Fair Value of Financial Instruments

Fair value is defined as the amount at which the instruments could be exchanged in a current transaction between knowledgeable willing parties in an arm's length transaction. The following methods and assumptions are used to estimate the fair value of each class of financial instruments.

Cash and cash equivalents, restricted deposit at financial institution - the aggregate carrying values are insignificantly different from their aggregate fair value because these financial assets have floating interest rate or fixed interest rate, which is approximately market rate.

Trade account receivables, trade account payables, other payables and accrued expenses - the carrying values are approximate their fair values due to the relatively short-term maturity of these financial instruments.

Liabilities from terminated rehabilitation plan - the aggregate carrying value is insignificantly different from its aggregate fair value because its fixed rate is approximate market rates.

Lease liabilities - the carrying value is approximately its fair value because these liabilities have been calculated using market interest rates.

22. OPERATING SEGMENTS

Segment information is presented in respect of the Company's geographical segments based on the Company's management and internal reporting structure.

Business segments

Management considers that the Company operates in a single line of business, namely manufacturing of hot rolled coil steel products, and has, therefore, only one major business segment.

Geographic segments

In presenting information on the basis of geographic segments, segment revenue is based on the geographic location of customers. Considering the location criteria of the Company's operations and market criteria, the Company has only one geographical segment, as the Company only operates most of its business in the country.

Non-current assets are located in Thailand only.

Information about major customers

For the year ended December 31, 2023, the Company had revenues from the domestic sales to 3 customers for the total amount of Baht 8,789 million (2022: 3 customers of Baht 11,290 million).

December 31, 2023

23. COMMITMENTS AND CONTINGENT LIABILITIES

As at December 31, 2023 and 2022, the Company had commitments and contingent liabilities as below:

	In Million Baht	
	2023	2022
<i>Commitments under lease and service agreements</i>		
Not later than 1 year	7	7
Later than 1 year but not later than 5 years	3	6
Total	10	13
<i>Capital commitments</i>		
Purchases of fixed assets	79	217
<i>Commitments for purchases of raw materials and supplies</i>		
Purchases of raw materials	606	442
Purchases of natural gas	59	130
Total	665	572
<i>Contingent liabilities</i>		
Letters of guarantee	179	155
Letter of credit	-	1

Significant agreements

- (a) On July 1, 2019, the Company entered into agreement to purchase natural gas for 5 years up to of June 30, 2024. The Company committed to pay for the natural gas depending on monthly charges based on consumption.
- (b) On November 1, 2004, the Company entered into a supply agreement to purchase oxygen, argon and nitrogen for 20 years. Minimum payments under the agreement amounts to approximately Baht 6 million per month up to October 31, 2024.
- (c) On April 20, 2021, the Company entered into service agreements with 2 domestic companies for the transportation of goods to domestic customers for 3 years starting from May 2021, whereby the Company committed to pay the freight charge as specified in the contracts.

Freight service fee from such agreements for each of the years ended December 31, 2023 and 2022 amounted to Baht 137 million and Baht 161 million, respectively.

- (d) On August 1, 2018, the Company entered into agreement for slag waste management service, which results from steelmaking and casting to recover ferrous scrap, with the local company with term of agreement for 7 years commencing from August 2018 and shall be automatically renewed for further periods of 1 year unless written notice is given of its intention not to renew this agreement at least 6 months prior to the expiry of this agreement during such notice period, the Company must pay the waste management service fee as specified in the contract.

Slag waste management services from such agreement for each of the years ended December 31, 2023 and 2022 amounted to Baht 60 million and Baht 67 million, respectively.

Notes to Financial Statements (Continued)
December 31, 2023

24. CREDIT FACILITIES FOR OPERATION

As at December 31, 2023 and 2022, the Company had uncommitted and unsecured short-term credit facilities from a local related party and various local financial institutions as below:

Credit Facilities	Credit Line	
	In Million USD	In Million Baht
<i>Other related party</i>		
Short-term loan under Cash Management Service Agreement (Note 4)	-	500
<i>Financial institutions</i>		
Short-term loan	39	3,048
Letter of credit and trust receipt	63	-
Letter of guarantee	-	208
Foreign currency exchange forward contract	90	-

25. PROMOTIONAL PRIVILEGES

By virtue of the provisions of the Investment Promotion Act B.E. 2520, the Company was granted certain promotional privileges relating to manufacturing of industrial hot rolled coil steel to improve production efficiency by using renewable energy on October 24, 2023, which include among others, the following:

- (a) Exemption from corporate income tax on net profits at the rate of 50% of investment in performance improvement, excluding land and working capital, for the period of 3 years since the October 25, 2023 to October 24, 2026. The exempted income tax value does not exceed Baht 25.6 million.
- (b) Allow to carry any annual losses incurred during that time, to be deducted from net profits incurred after the corporate income tax exemption period from the expiration of the period as mentioned above for 5 years since October 25, 2026 to October 24, 2031.

As a promoted company, the Company must comply with certain conditions and restrictions provided for in the promotional certificate.

The Company's revenue from sales - net for the each of years ended December 31, 2023 and 2022 were classified under promoted business and non-promoted business as follows:

	In Million Baht	
	2023	2022
Revenue from sales - net - Local		
- Promoted business	1,625	-
- Non-promoted business	10,857	17,403
Total	12,482	17,403

26. THAI FINANCIAL REPORTING STANDARDS ANNOUNCED IN THE ROYAL GAZETTE BUT NOT YET EFFECTIVE

The Federation of Accounting Professions has revised TFRSs which are effective for annual accounting periods beginning on or after January 1, 2024 and have not been adopted in the preparation of these financial statements because they are not yet effective. The Company has assessed the potential initial impact on the financial statements of these revised TFRSs and expected that there will be no material impact on the financial statements in the period of initial application.
